# Enterprise Resource Planning

---

On Behalf of Jose Torres...

This week begins a period of intensive training sessions for the new ERP system Oracle. Unfortunately, this means that many of the Business & Fiscal Services staff will be away from their desk for extended periods of time. We apologize for any impact on service this may cause. Below is a schedule of meetings throughout the next couple months. If during these times, you cannot get hold of one of the staff, but need to speak to someone immediately, please call Kelly Goodrich at 909-382-4022. Thank you for your patience as we go through this process together.

June 7-9: Cloud Financials General Ledger

June 14-16: Cloud Procurement

June 28-30: Cloud Financials Payables

July 12-14: Cloud Financials Receivables, Assets, Cash & Expenses

July 27-28: Financial Reporting

August 15-18: Cloud Project Financial Management

Enterprise Resource Planning (ERP): a category of business-management software—typically a suite of integrated applications—that an organization can use to collect, store, manage and interpret data (Wikipedia, 2016-02-19).
