Smoking Enforcement

Starting January 2013, The District Police Department will start issuing citations for those who smoke outside the designated areas. This is in accordance with California Government Code 7597.1(A) and Board Policy 3570. The civil penalty (fine) is \$50.00

SEAT BELTS AND SAFETY SEATS

Safety belts save lives. If you're in the front seat during a crash, wearing a safety belt improves your chance of survival by 50 percent. Wearing lap and shoulder belts (combined with air bags) is the most effective way to reduce fatalities and serious injuries in traffic collisions.

Lap belts should fit snugly across the hips, not over the stomach. Shoulder belts go over the shoulder and across the center of the chest. Never tuck a shoulder belt under your arm or behind your back.

Safety belts are designed for adults, not children. Use a booster seat to lift your child up and prevent severe injuries in a crash. Please remember the following guidelines when buying the proper seat for your child.

Birth -1 Year, Up to 35 Pounds

Use a rear-facing seat until your baby reaches the weight limit or height limit of the seat. Secure the chest clip even with your baby's armpits. Fasten harness straps snugly against your baby's body.

1-4 Years, 20 to 40 Pounds

Use a forward-facing seat for as long as the safety seat manufacturer recommends it. Fasten harness straps snugly against your child's body. Secure the chest clip even with your child's armpits. Latch the tether strap to the corresponding anchor if your vehicle has one.

4-8 Years, Over 40 Pounds

Use a booster seat. Fasten the lap belt across your child's thighs and hips, not stomach. Strap the diagonal belt across the chest to rest on the shoulder, not the neck.
