IN CASE OF AN EMERGENCY
DIAL 911

Unattended Children and Cars

On average, 38 children die in hot cars each year from heat-related deaths after being trapped inside motor vehicles. Even the best of parents or caregivers can unknowingly leave a sleeping baby in a car; and the end result can be injury or even death.

Safety Tips

- ⇒ Never leave children alone in or around cars; not even for a minute.
- ⇒ Put something you'll need like your cell phone, handbag, employee ID or brief case, etc., on the floor board in the back seat.
- ⇒ Get in the habit of always opening the back door of your vehicle every time you reach your destination to make sure no child has been left behind. This will soon become a habit. We call this the "Look Before you Lock" campaign.
- ⇒ Keep a large stuffed animal in the child's car seat when it's not occupied. When the child is placed in the seat, put the stuffed animal in the front passenger seat. It's a visual reminder that anytime the stuffed animal is up in the front you know the child is in the safety seat.
- ⇒ Keep vehicles locked at all times; even in the garage or driveway and always set your parking break.
- ⇒ Keys and/or remote openers should never be left within reach of children
- ⇒ When a child is missing, check vehicles and car trunks immediately
- ⇒ If you see a child alone in a vehicle, get involved. If they are hot or seem sick, get them out as quickly as possible. Call 911 or your local emergency number immediately

Emergency Preparedness

This Week: Seven Steps to Earthquake Safety: **STEP 3: Organize disaster supplies in convenient locations.** Everyone should have personal disaster supplies kits. Keep them where you spend most of your time, so they can be reached even if your building is badly damaged. The kits will be useful for many emergencies. You should have disaster supplies kits stored in accessible locations at home, at work, and in your vehicle. Having emergency supplies readily available can reduce the impact of an earthquake, a terrorist incident or other emergency affecting you and your family. Your disaster supplies kits should include food, water, flashlights, portable radios, batteries, a first aid kit, cash, extra medications, a whistle, fire extinguisher, etc. Backpacks or other small bags are best for your disaster supplies kits so you can take them with you if you evacuate. At home, it is a good idea to have a home kit including: wrenches to turn off gas and water; work gloves and protective goggles; comfortable, warm clothing, extra socks, and shoes; blankets, sleeping bags, and perhaps a tent; extra water, food, and pet food.

MISSION STATEMENT

The SBCCD Police Department, in concert with the Board of Trustees, is committed to providing a safe and secure learning and working environment for all students and employees. This will be accomplished through a cooperative and coordinated effort involving all departments and the SBCCD employees, law enforcement agencies and community.

For daily incidents reports and other crime information go the Police Web site: <http://sbccd.org/police>
