## EARTHQUAKE WARNING CALIFORNIA

### Earthquake Warning California Toolkit

The MyShake App provides a few seconds notice in an earthquake so you can take protective action before shaking occurs.

Learn more at [earthquake.ca.gov](http://earthquake.ca.gov).

[earthquake.ca.gov](http://earthquake.ca.gov) @Cal\_OES @Cal\_OES @CaliforniaOES

It's always a good time to prepare for an earthquake. We know that there are many things to be worried about, but when it comes to earthquakes, it is not a matter of if but when one will occur. Earthquakes can cause severe damage to infrastructure and can result in injuries and fatalities. There is no earthquake season — they can strike any time of year.

### Type of Alerts

The Earthquake Early Warning system uses science, state-of-the-art ground motion monitoring, as well as new and existing alerting methods to deliver warnings to people via cell phones before the strongest shaking arrives. Seconds to tens of seconds of alert can provide opportunity to take life-saving actions such as Drop, Cover, and Hold On and put devices into various forms of a safe mode. The speed of the alert will vary depending on one's distance from the origin of the earthquake. The closer one is to origin, the quicker one will receive the alert. In some cases people may receive an alert once they feel shaking or after an earthquake passes.

For the first time, you can receive warning of an earthquake before you feel shaking. Earthquake Warning California can give you seconds of notice using the following tools:

- MyShake App
- Android Earthquake Alerts
- Wireless Emergency Alerts (WEAs).

IF THERE IS AN EMERGENCY, CALL 9-1-1

*"To Serve & Protect with Integrity"*
