## **What college girls should do in dangerous situations**

If a college girl still ends up in a dangerous situation it is important to know what to do. If you are confronted always have a plan to get out safe. Get on your cell phone with someone you trust and tell them where you are and what is happening, if necessary tell them to call the police. If you can't get a hold of someone, and you do not feel safe, dial 9 and 1, and keep your finger on the one button - If something happens hit the one and yell out where you are and what is happening. If someone tries to steal your car, throw the keys far away from the car and run the opposite direction, this will help save you from being kidnapped. If someone attacks you, don't yell help, yell fire! In any situation where someone asks for your wallet or purse, throw it over them and run away as fast as possible. If you are attacked and you have pepper spray or a taser, use it!
