## **Family Disaster Plan**

Disaster can strike quickly and without warning. It can force you to evacuate your neighborhood or confine you to your home. What would you do if basic services, such as water, gas, electricity, or telephones were cut off? Local officials and relief workers will be on the scene after a disaster, but they cannot reach everyone right away.

Families can and do cope with disaster by preparing in advance and working together as a team. Knowing what to do is your best protection and your responsibility. Learn more about Family Disaster Plans by contacting your local emergency management office or your local American Red Cross chapter.
