Christmas Decoration Fire Prevention Tips

Christmas is a time for celebrations and festive lights, and it's also one of the busiest times of year for fire-fighters.

For the safety of your family and your home below we offer a few holiday fire safety tips:

- Choose decorations that are flame-resistant or flame-retardant.
- Keep lit candles away from decorations or anything that can burn. "Never use lit candles to decorate your tree."
- Use lights that have the label of an independent testing laboratory and check the packaging. Some lights are only for indoor use.
- Replace any string of lights with worn or broken cords or loose bulb connections. Connect no more strands than instructions recommend.
- Use clips, not nails, to hang lights so the cords do not get damaged.
- Keep decorations away from windows and doors.
- Keep your tree well-watered. The drier your tree, the more dangerous it becomes.
- Always turn off Christmas tree lights before leaving home or going to bed.
- Bring outdoor electrical lights inside after the holidays to prevent deterioration and hazards and to make them last longer.
