CHC – Beware of the construction. See following pages for additional incidents

IMPORTANT

INFORMATION

In the event of an emergency call 911

**To report a crime call:
SBVC (909) 384-4491**

Smoking Enforcement

Starting January 2013, The District Police Department will start issuing citations for those who smoke outside the designated areas. This is in accordance with California Government Code 7597.1(A) and Board Policy 3570. The civil penalty (fine) is \$50.00

For many students, the bicycle represents more than just a quick way to get around campus — it is an inexpensive, environmentally safe form of transportation. Bicycling to and from class can help keep students in good physical shape, and many students find that they save time because parking is more convenient and closer to campus.

Remember...

Wear a helmet.

Before you get on your bike, put on a helmet. Make sure chin straps are adjusted properly, buckled and snug. Unlike broken bones and road rash, head injuries can be debilitating or deadly. Wearing your helmet may save your life!

Share the road.

Always share the road with cars when riding on streets. Learning how to safely ride in traffic is a critical step in using your bicycle as a means of transportation. Select routes that you feel confident riding at your skill level. Riding with an experienced partner can also help.

Lock it up.

College campuses are notorious bike theft locations. Whenever you are away from your bike, lock it up. Secure the bike frame and front tire to secure location.

Planning Your Route

Many communities are constructing bicycle facilities and routes to make travel safer. Pick routes to and from class that you feel confident riding. As you become more experienced and build confidence riding on the road, you may find more choices on available routes. Before riding somewhere you're not familiar with, talk to someone who knows the area, or drive the route first. When planning your route, pick streets that have low traffic and low speed limits, or roadways with wide outside curb lanes, or striped bike lanes. Streets are not the only places to bicycle, but they offer the most direct routes to most destinations. You may be able to combine road miles with a multi-use path on your route.

Bike Equipment

Selecting a bike: Your bicycle type should match your riding style. A mountain bike or hybrid bike (a cross between a mountain bike and a road bike) are typically best for commuting to class. Your bike should fit you. You should be able to stand over the frame with both feet on the ground. The seat should be positioned high enough for your legs to extend fully. Riding with the seat too low makes it harder to pedal.

Now Ride Safe!

MISSION STATEMENT

The SBCCD Police Department, in concert with the Board of Trustees, is committed to providing a safe and secure learning and working environment for all students and employees. This will be accomplished through a cooperative and coordinated effort involving all departments and the SBCCD employees, law enforcement agencies and community.
