BIKE THEFT PREVENTION TIPS

Campus Alerts

SBVC – None

CHC – None

See following pages for
additional incidents

IMPORTANT

INFORMATION

**In the event of an
emergency call 911**

To report a crime call:

SBVC (909) 384-4491

CHC (909) 389-3275

Smoking Enforcement

Starting January 2013, The District Police Department will start issuing citations for those who smoke outside the designated areas. This is in accordance with California Government Code 7597.1(A) and Board Policy 3570. The civil penalty (fine) is \$50.00

To prevent your bike from being stolen on a college campus, the San Bernardino Community College District Police Department suggest that you follow the below security tips:

PARKING & LOCKING BASICS

1. When you purchase a bike always note and register your serial number.
2. Always lock it. Never leave your bike unlocked; even if you're leaving it for only half a minute. A thief can grab your bike in seconds.
3. Most importantly remember to lock your bike to something that's permanent and not easy for a thief to take.
4. Lock to a bicycle rack, a metal fence post, or a large tree. Don't lock to another bike, a door handle, or small tree (**WHILE ON CAMPUS PLEASE UTILIZE BIKE RACKS IN VARIOUS LOCATIONS**).
5. Park in open areas where many people pass by and your bicycle can be seen easily. Thieves usually don't like an audience.
6. Put your bike where you can get to it fast. Thieves like to steal bikes whose owners are far away.

WHAT LOCKING HARDWARE SHOULD YOU USE?

U Locks: Some U locks are stronger than others; make sure you buy a strong steel alloy lock. If the manufacturer offers a warranty or insurance, register the lock and write down the lock's serial number and when you bought it. One drawback to U locks: you can't lock up to thick objects such as street lights; so for these, carry a thick cable.

Padlocks & Chains: Look for anti-theft security chains, the thicker, the better. Chain links and lock clasps should be at least 3/8 of an inch thick. Look for locks and chains that are case-hardened--a process that makes them harder to cut.

Cables: Some cables are actually harder to cut than chains, because they don't snap and thieves can't pry them open. Use a cable at least 3/8 of an inch thick with a lock as thick, or thicker.

MISSION STATEMENT

The SBCCD Police Department, in concert with the Board of Trustees, is committed to providing a safe and secure learning and working environment for all students and employees. This will be accomplished through a cooperative and coordinated effort involving all departments and the SBCCD employees, law enforcement agencies and community.
