Sexual Assault Awareness Month

Sexual Assault Awareness Month calls attention to the fact that sexual violence is widespread and impacts every person in this community.

Rape, sexual assault, and sexual harassment harm our community, and statistics show one in five women and one in 71 men will be raped at some point in their lives (Black et al., 2011)..

On campus, one in five women and one in 16 men are sexually assaulted during their time in college (Krebs, Lindquist, Warner, Fisher, & Martin, 2007).

We must work together to educate our community about sexual violence prevention, supporting survivors, and speaking out against harmful attitudes and actions.

When we actively get involved we can prevent sexual violence. The first step is increasing education, awareness, and [community involvement](#). It's time for all of us to take action to create a safer environment for all. -NSVRC National Sexual Violence Resource Center 2015
