## PROTECT YOURSELF FROM ID THEFT THIS HOLIDAY SEASON

The holidays are a time to spend with family, to celebrate, and to give and receive gifts. However, the holidays are also a time that identity thieves decide to get their own gifts: the identity and credit of unsuspecting victims.

Don't let ID thieves ruin your holiday cheer. Be smart this holiday season and take these steps to protect yourself.

### Protecting Your Identity during Online Transactions:

With the ease of online shopping, you may buy your holiday gifts online, but you need to be careful. As technology gets more advanced, identity thieves get more creative with how they try to steal your identity.

- **Look for a secure connection:** It is important to check the web address (or URL) of a website when you are shopping online. When you enter the buying section (or shopping cart) of the website, be sure the URL begins with https (as opposed to http). The "s" indicates that you are on a secure website. Any time you enter your personal information, be sure you see the https at the beginning of the URL.
- **Beware of email viruses and spam:** Using the knowledge that many people send gifts during the holidays, online criminals send emails that appear to be from FedEx, UPS, or the postal service. These emails often have attachments regarding a delivery status, but the attachments are actually viruses that infect your computer and steal your personal information. Other holiday email scams include fake digital greeting cards or links that appear to be from a friend. Don't open any attachments until you run them through a virus scan.
- **Don't shop on a public computer or public wireless network:** You cannot verify the security of a public computer or wi-fi network. Some may be infected with spyware that records each keystroke entered. So, even if you are using your own laptop on an unsecured public network, you could be giving ID thieves your credit card information.
- **Make sure your antivirus and anti-spyware software is up to date:** Online criminals are constantly updating their methods to steal your personal information. To effectively catch and stop viruses and spyware, your virus protection software needs to be up to date, so be sure to download the latest updates.

## MISSION STATEMENT

The SBCCD Police Department, in concert with the Board of Trustees, is committed to providing a safe and secure learning and working environment for all students and employees. This will be accomplished through a cooperative and coordinated effort involving all departments and the SBCCD employees, law enforcement agencies and the community.

## AVOIDING ID THEFT WHEN YOU ARE OUT HOLIDAY SHOPPING

When out in the malls this holiday season (or any time of the year), be sure to:

- **Protect your purse or wallet:** Don't let pickpockets get your personal information by stealing your license and credit cards from open handbags or a wallet in your back pocket.
- **Watch out for "shoulder surfers":** Thieves may try to get your information by taking a picture of your credit card or writing down the information they can see during your transaction. We sure to cover your credit card number and other private information from prying eyes.
- **Use secure ATMs:** Free-standing ATMs may be targets for thieves who use skimmers to steal your information. Use ATMs in bank lobbies or other secure locations with video surveillance. Also, any time you use your ATM card (either to withdrawal cash or to make a purchase) shield your PIN number and card number from others.
- **Not let your guard down:** Identity thieves come in all shapes and sizes. Just because someone doesn't fit your idea of what an ID thief may look like, don't assume your information is safe. Many scammers rely on their appearance to put you at ease — don't fall for it.

**IF THERE IS AN EMERGENCY, CALL 9-1-1.**
