

Taking Action for Safety and Health:

Implementing your Illness and Injury Prevention Program

This free day-long course will train you in how to develop and implement an effective health and safety program at your workplace that meets the requirements of Cal/OSHA's Injury and Illness Prevention (IIPP) standard. The training is "hands on," interactive and fun. The course is presented by UC Berkeley's Labor Occupational Health Program (LOHP) and sponsored by the California Commission on Health and Safety and Workers' Compensation. A representative from Cal/OSHA will be available to answer your questions.

You'll Learn About:

- Meeting Cal/OSHA requirements and expectations for an effective IIPP
- How to identify and solve common health and safety problems in your workplace
- Steps for investigating work-related accidents, injuries and illnesses when they occur
- Ways to involve your employees in your safety program

You'll Receive:

- A free Guidebook and easy-to-use model template for writing your IIPP
- Free Factsheets and Tools to help you implement your IIPP
- Resources for technical assistance
- A certificate of completion

For more information or to attend a training in your area:
