

**Facilities  
NEEDS ASSESSMENT APPLICATION**

Facilities: Programs should list no more than three facility or renovation items. Identify the area in need of physical renovation, maintenance and/or repair. Requests for additional space should also be listed here. *Requests listed in this category will be forwarded to the Facilities Committee to evaluate through their own processes.* Provide a thorough rationale, **using data to support your request**, in order to help the Facilities Committee with their evaluation. List the approximate cost of your request.

Name of Person Submitting Request:	<b>David Rubio</b>
Program or Service Area:	<b>Athletics</b>
Division:	<b>Athletics</b>
Date of Last Program Efficacy:	<b>4/27/12</b>
What rating was given?	<b>Continuation</b>
Strategic Initiatives Addressed:	Access, Student Success, Institutional Effectiveness, Planning, Campus Climate

1. Renovation Request

<p><b>Strip, grade, reseed Soccer field and replace sprinkler system.</b> Our soccer field is also used as a softball field, a throw field for track, a jogging area for cross country and a practice field for football. The college has been negligent in the upkeep of this facility. It is dangerous when you have a student running at full speed on an uneven surface or one that may have gopher holes or sprinkler head areas that are in disrepair.</p>

Approximate Cost: \$100,000.00

2. Renovation Request

<p><b>Relocate Softball field.</b> Our Softball field is on our Soccer field so, our Softball team as well as our Men's and Women's Soccer teams have no dedicated field (the only one of its kind in California Community College's). This puts our teams at a disadvantage when it comes to practice, competition and recruitment. There may also be a liability issue when you have more than one sport trying to practice at the same time. Also, because the field is in constant use fall, spring and some of summer, there is no down time to properly repair the field.</p>

Approximate Cost: \$350,000.00

3. Renovation Request

<p><b>Strip, grade, reseed Baseball outfield. Renovate Baseball dugouts. Renovate bullpens.</b> Our Baseball outfield is just as bad if not worse than our Soccer/Softball field. It has an uneven</p>
--

playing surface in which students can injure themselves. The sprinkler system is outdated and inadequate. Maintenance has been minimal. The Baseball dugouts are inadequate and cannot accommodate a full squad. There is no safety fence in front of the dugout protecting Student/athletes and coaches from line drives. There are holes in the roof of the dugouts that you can stick a basketball through. The bullpens are overgrown with weeds and have no protective fencing to stop foul balls from hitting student/athletes.

Approximate Cost: \$150,000.00
