Communication via email 10/30/15 at 3:40pm and 5:53pm, 11/2/15 at 9:29 pm, and final communication 11/3/15 at 9:03am

2. Projects that require modification to Buildings or Rooms will require a Facilities Need Request. Will this project require facilities changes?

No

3. What technology-based equipment or software are you requesting?

Nursing is requesting a Laptop computer (\$1350) and a LCD screen and necessary cabling (\$3000) for the conference room HLS 100.

4. Indicate how the content of the latest Program Efficacy Report and current EMP data support this request. How is the request tied to program planning? (*Reference the page number(s) where the information can be found on Program Efficacy.*)

State of the art technology affords the faculty accessibility to immediate resources and documents at faculty meetings. Thereby, impacting student learning outcomes, course learning outcomes, and program learning outcomes as required by the Board of Registered Nurses and ACEN.

5. Indicate if there is additional information you wish the committee to consider (*for example, regulatory information, compliance, updated efficiency, student success data, planning, etc.*).

This request reflects access, student success, communication, and effective evaluation and accountability from the themes of the strategic initiative.

6. Provide a complete itemized list of the initial cost, as well as related costs (including any ongoing maintenance or updates) and identification of any alternative or ongoing funding sources. (*for example, Department, Budget, Perkins, Grants, etc.*)

\$1,350.00 for Laptop computer and \$3,000.00 for LCD Screen and necessary cabling.

7. What are the consequences of not funding this request?

Lack of transparency within the nursing department. Many documents from the accreditation agencies and other important confidential documents such as student concerns need to be discussed in faculty meeting. It is important to have faculty see these forms visually to engage in discussion and to help with decision making. This would decrease hard copy and ensure a higher level of confidentiality.
