Capital Improvement Repair

Brief Statement of Request:

We are requesting replacement units for the existing lighting system.

Are there alternative funding sources? (for example, Department, Budget, Perkins, Grants, etc.)

Yes NO

If yes, what are they? _____

1. Provide a rationale for your request. (Explain, in detail, the need for this project.)

The lighting system is 11 years old and it is no longer possible to find replacement lights because the company has discontinued the model of lights we have. However their new LED units can be used on our current track.

2. Indicate how the content of the department/program's latest Efficacy Report and/or current EMP supports this request and how the request is tied to program planning. (*Directly reference the relevant information from your latest Efficacy Report and/or current EMP in your discussion.*)

The request addresses the need for multicultural experiences that can be usefully applied in other areas of education and life. Through art exhibitions and the presence of exhibiting outside artists

our students expand their cultural awareness. The Gresham Art Gallery provides a culturally rich learning environment for our students and the campus community. The request is tied to Strategic Goals and Directions, numbers 1, 2, 3, 4, 6.

3. Indicate any additional information you want the committee to consider (*for example, regulatory information, compliance, updated efficiency, student success data, planning, etc.*).

The Gresham Art Gallery hosts eight shows per year including the Dia de los Muertos Show and the Annual Student Art Show. The Gresham Art Gallery is a community-gathering place that makes art accessible, enjoyable and integral to all visitors. The Art Gallery is an inclusive place where all SBVC students and community members have access to work by a variety of artists, and advances SBVC as an institution dedicated to life-long learning.

4. What are the consequences of not funding this facilities request?

We are unable to properly light the shows as more units break and cannot be replaced. Replacing the existing units with newer LED units is more cost effective than replacing the entire track lighting system and the LED units will save on electricity costs.
