	President's Report	J Stankas presented his report (see attachment). FTES & State Funding - Notable info was that the college is over 5000 FTES for the fall semester. New District Building - this was a synopsis of a meeting that occurred on 8/28 concerning the construction of new building(s)? at District. A serious disagreement occurred in regards to plans for the PDC and ATTC expansion of offerings and the infringement of the proposed offerings on the typical curricular functions of the colleges. D Hook commented about some of the interpretations of the concept of "basic skills" expressed by Dr Issac. J Stankas described the difficulty in opening an established line of communication between the Senates of both campuses and Dr Issac. J Stankas offered the Senate the possibility of having the Chancellor and/or Dr Issac address the Senate on these issues. J Stankas also observed the under utilization of current District instructional space (contrasted with high utilization of instructional space at Valley) as a puzzling element in the face of a request for additional District instructional space. J Stankas noted that a meeting with the Chancellor tomorrow might clarify this situation. M Ikeda noted that this issue seems to be connected to some of the recommendations forwarded by the recent Accreditation report concerning District practices and procedures. J Notarangelo enquired about the make up of the group that attended the meeting. J Stankas replied that the Academic and Classified Senate Pres (from SBVC and CHC), CSEA, College Presidents, Vice Chancellors, Director of PDC, a community representative, and a B of T member. C Hunter provided a draft version of an individual faculty development plan envisioned by CHC for tracking the relevant information. C Hunter emphasized that this only represents CHC’s vision of the form of an IFDP. C Hunter described the plan as being a document that is in place at the start of the academic year. The IFDPs should include 4 areas (as identified in Title 5). Measurable broad objectives, statement relating the objectives to the intent of the flex calendar, activities that are anticipated to fulfill these objectives, and numbers of hours required to complete the plans. The IFDPs are to be peer reviewed.
