(When deadline dates land on a weekend, applications will be accepted through the next business day).

11th & 12th Grades

Those seeking academic classes that are transferable to a four-year university (courses numbered 100 or higher) must be in the 11th or 12th grade, with an academic high school GPA of 2.0 or higher, and have good grades in courses which are similar to the ones they want to take at SBVC.

9th through 12th Grades

Those seeking vocational classes (classes which prepare students for employment in a specific trade or occupation) should have a 2.0 GPA, and have good grades in classes which are similar to the ones they want to take at Valley.

Concurrent high school students may not enroll in Basic Skills courses (Courses numbered 100 or higher), Kinesiology (aka PE) courses, or any course which is available to them in high school. High School students are limited to 11 units per semester.

Dear Parents,

Just like you, we want your child's first experience with college to be a successful one. One of the most important factors will be your support. Toward that end, it is helpful to be aware of some of the differences between high school and college.

Attendance will not be monitored in the same way as high school. If your student doesn't attend regularly, no office will call to notify you of this.

Courses are designed for adult students, and may contain information of adult nature.

You will not have access to your child's grades or records. Please read further on the [FERPA](#) policy.

Instructors are not available for parent conferences. Also, your student will be welcomed at the Student Health Center where they will have access to reproductive information, contraception, and other health services.

College textbooks can be expensive but many classes are now equipped with Zero Cost Textbook information. If you choose to purchase a book online besides the SBVC Bookstore, be sure you are purchasing the correct edition of the correct book.

While SBVC has one of the best safety records of any college in the Inland Empire, your child will be a minor in an adult environment. They should exercise caution at all times.

Your student will be responsible for all supplies associated with course, homework, papers and assignments. If they are having difficulty, they should speak with the instructor.

San Bernardino Valley College has limited capacity for concurrently enrolled high school students, and there is no guarantee that you will be accepted, even if admission criteria is met. SBVC also reserves the right to change or modify the admission standards for concurrently enrolled high school students.
