PART I – THE COLLEGE
GENERAL INFORMATION

The College
San Bernardino Valley College is a comprehensive community college that serves the residents of the Inland Empire. The college is one of 112 locally governed California community colleges, and as such, is regulated by the California Education Code and is subject to the directions of the California Legislature and the California Community College Board of Governors. The college is responsible to its local constituency through an elected Board of Trustees, which is the principle policy-making body for the college.

Students of the college are drawn, for the most part, from the local community. In addition, specific programs at the college attract students from throughout the state and world. Students range in age from under 18 to over 80 years, and reflect the ethnic and cultural diversity of the region.

Mission Statement
San Bernardino Valley College provides quality education and services that support a diverse community of learners.

Educational Philosophy
The college Values describe the philosophy and values of San Bernardino Valley College’s faculty, staff, and administration:

We believe:
• That a well-educated populace is essential to the general welfare of the community.
• That a quality education empowers the student to think critically, to communicate clearly, and to grow personally and professionally.
• That an enriched learning environment promotes creativity, self-expression, and the development of critical thinking skills.
• That our strength as an institution is enhanced by the cultural diversity of our student population and staff.
• That we must provide students with access to the resources, services, and technological tools that will enable them to achieve their educational goals.
• That we can measure our success by the degree to which our students become self-sufficient learners and contributing members of society.
• That plans and decisions must be data driven, and based on informed consideration of what will best serve students and the community.
• That we must model our commitment to lifelong learning by maintaining currency in our professions and subject disciplines.
• That, as part of the collegial process, all levels of the college organization must openly engage in sharing ideas and suggestions to develop innovative ways to improve our programs and services.
• That interactions between all members of the college community must be marked by professionalism, intellectual openness, and mutual respect.
• That we must hold ourselves and our students to the highest ethical and intellectual standards.
• That we must maintain a current, meaningful and challenging curriculum.
• That students succeed best when following an educational plan and enrolled in classes that meet their interests and goals and match their level of academic preparedness.
• That all members of our campus community are entitled to learn and work in an environment that is free from physical, verbal, sexual, and/or emotional threat or harassment.
• That institutional effectiveness must be verified annually by using empirical data as demonstrated through each standing committee in the collegial consultation process.
• That students learn best on a campus that is student-centered and aesthetically pleasing.
• That we must be responsible stewards of campus resources.

Vision Statement
The vision statement represents the collective sense of the direction the faculty, staff and administration would like to see the college move over the next decade. The district’s Board of Trustees adopted the vision statement on June 13, 2002. The vision statement was reaffirmed by the college in December 2004.

San Bernardino Valley College will become the college of choice for students in the Inland Empire, and will be regarded as the “alma mater” of successful, lifelong learners. We will build our reputation on the quality of our programs and services and on the safety, comfort, and beauty of our campus. We will hold both our students and ourselves to high standards of achievement, and will expect all members of the college community to function as informed, responsible, and active members of society.

Strategic Initiatives
Adopted by the College Council on May 23, 2007, San Bernardino Valley College’s Institutional Guiding Principle: We are committed to quality and excellence in all of our efforts. Our Strategic Initiatives are as follows:
• Access
• Campus Culture and Climate
• Institutional Effectiveness and Resource Management
• Partnerships
• Student Success
• Technological Advancement

History
San Bernardino Valley College was established in 1926, and originally served only the San Bernardino and Colton Unified School Districts. The population served has now expanded to include communities throughout the Inland Empire. Over the years, the original four-building campus has grown to one of eighteen major buildings grouped conveniently around a central quadrangle and mall, giving easy access to the numerous special purpose classrooms, lecture halls, laboratories, studios, shops and practice rooms. A faculty of 16 has grown to a teaching staff of more than 147 full-time and 370 hourly faculty, and student body of 140 has grown to over 13,000. San Bernardino Valley College is proud of its long tradition of service to our community, and the faculty and staff are gratified to know they have played an important part in improving the lives of so many.
Length of Programs
San Bernardino Valley College offers associate degrees and a wide variety of certificate programs.

The amount of time it will take to complete an associate degree will depend on whether he/she is attending full-time or part-time, on the student's level of preparation, and on the number of prerequisite courses he/she is required to take. Typically, a student attending full-time with few prerequisite requirements may complete an associate degree in two years. Students attending part-time could take as long as four or five years.

The amount of time it will take to complete a certificate program will depend on whether the student is attending full-time or part-time, the number of units required for the certificate, the rotation of courses over a one- or two-year sequence, and the number of prerequisite courses the student is required to take. A very limited number of certificate programs can be completed in one semester. The majority will take one or two years if the student attends full-time. Consult with a counselor in the Counseling Center (AD/SS Building, Room 103) or call (909) 384-4404 and press zero (“0”).

ADMISSION REGULATIONS

Admission to San Bernardino Valley College is governed by the laws of the State of California and by supplementary regulations established by the San Bernardino Community College District Board of Trustees. Every course, whether offered on the main campus or at a satellite location, is open to any person who is eligible for admission to San Bernardino Valley College and who meets any prerequisites as have been established in accordance with Title V of the California Administrative Code.

Admission Requirements
The following groups are eligible for admission to San Bernardino Valley College:

- Any individual, age 18 or above, who can reasonably profit from instruction.
- Any individual who has graduated from high school or who has been awarded a California Certificate of Proficiency, who has successfully completed the GED, or has been awarded a certificate of completion from a high school.

High School Students
Students who are currently attending high school, and are seeking advanced scholastic or vocational work may apply for admission to San Bernardino Valley College as a specially admitted, concurrently enrolled high school student.

Each student's application and records are reviewed individually, and not all students who apply will be admitted. Admission decisions are made based on a combination of the following factors:

- overall academic grade point average
- performance in prior coursework of a similar nature to which the student is petitioning to take, as indicated by their grades in those courses
- any and all academic tests or examinations recorded on the high school transcript
- the recommendation of the high school principal (or designee)

The over-arching concern of the admission review process is that the high school student is adequately prepared to engage in the rigors of college-level work, and has a high probability of success.

High school students wishing to attend SBVC must complete and submit the following items, at least two weeks prior to the beginning of instruction:

- a regular application for admission to SBVC
- a Concurrent Enrollment Petition form
- a Confidential Youth Emergency Card
- an official copy of the high school transcript

The Concurrent Enrollment Petition form will require the signature of the high school principal (or designee), certifying that the student is academically qualified, and recommending the student for an advanced academic or vocational experience. All forms are available online at:

http://www.valleycollege.edu/Admissions/HighSchool/index.php

All high school students wishing to enroll in transfer-level courses (courses numbered 100-299) must be in their junior or senior year, with an academic GPA of 3.0, and have high passing grades in courses similar to those they wish to take at SBVC. The courses requested at SBVC must not duplicate courses currently available at the high school.

High school students wishing to enroll in vocational courses may be in grades 9-12, with an academic GPA of 2.0, and have passing grades in courses similar to those they wish to take at SBVC. The courses requested at SBVC must not duplicate courses currently available at the high school.
Residence Requirements

Residence determination must be made each semester for nonresident tuition purposes. The college application and, if necessary, other evidence furnished by the student are used in making residence determination.

Any adult who is physically present in the state while, at the same time, intending to make California his/her permanent home, may establish legal residence. The resident determination date is that day immediately preceding the opening day of instruction for each semester or term. Steps must be taken at least one year prior to the residence determination date to establish the intent to make California one’s permanent home with concurrent relinquishment of the prior legal residence. Some indications of intention to establish and maintain California residence include, but are not limited to:

- Payment of California state income tax as a resident.
- Registering to vote and voting in California.
- Possessing California motor vehicle license plates.
- Possessing a valid California driver’s license.
- Maintaining a permanent military address or home of record in California while in the armed services.
- Establishing and maintaining active California bank accounts.
- Being a petitioner for a divorce in California.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from the parent or parents with whom he/she lives. The student who is within the state only for educational purposes does not gain the status of resident regardless of the length of his/her stay in California. Exceptions to the residence requirements are as follows:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student who remained was still a minor. When the minor reaches 18, the exception continues for one year to enable the student to qualify as a resident student.
2. Persons below the age of 19 who have been present in California for more than a year before the residence determination date and who have been entirely self-supporting for that period of time.
3. Persons below the age of 19 who have lived with and have been under the continuous direct care and control of an adult, not a parent, for the two years immediately preceding the residence determination date. Said adult must have been a California resident for the most recent year.
4. A student who is a member of the armed forces of the United States stationed in this state on active military duty shall be entitled to resident classification for one year from the time the member reports for duty in California.
5. A student who is a natural or adopted child, stepchild or spouse and who is a dependent of a member of the armed forces of the United States stationed in this state on active duty shall be entitled to resident classification for one year from the time the member reports for duty in California. This military exception does not require any intent on the part of the military member or dependent to become a resident of California. If, however, after the one year has elapsed the member or dependent has not satisfied California residence requirements, he/she will not be entitled to resident classification until the intent requirements have been fulfilled for the one-year period.
6. A student who is a full-time employee of a public institution of higher learning, or whose parent or spouse is a full-time employee, will be entitled to resident classification until he/she has resided in the state the minimum time necessary to become a resident.

Any student may make a written appeal to the Dean, Student Development within 30 calendar days of notification of a final decision by the college regarding classification.

Out-of-State Students

Out-of-state applicants are admitted to the college on the same basis as California residents except that they are required to pay non-resident tuition fees in addition to other fees required by the college. After a student has been present in California for one year and has manifested clear intent to become a California resident, he/she may apply for reclassification as a California resident.

International Students

San Bernardino Valley College is approved by the U.S. Citizenship and Immigration Services (USCIS) to admit non-immigrant international students who are taking lower division coursework for transfer to four-year institutions or who are taking coursework leading to an associate degree. San Bernardino Valley College requires international students to submit the full completion of each of the following items to the Counseling Center (Administration/ Student Services Building, Room 103):

- An international student application for admission and a San Bernardino Valley College application accompanied by a non-refundable processing fee of $25.
- A minimum score of 450 on the paper-based Test of English as a Foreign Language (TOEFL), 133 on the computer-based TOEFL, or 45 on the Internet-based TOEFL.
- Official transcripts of high school and college records, accompanied by a notarized translation if the original is not in English.
- An original bank statement and a notarized verification of funds and affidavit of support, sufficient to cover all expenses while in this country.
- One copy of passport.

The application deadlines are May 1 for the fall semester and October 1 for the spring semester. Information about international application can be obtained at the SBVC website www.valleymountains.edu/International_Students/. When all requirements have been met, the student will be mailed a letter of acceptance, along with an I-20 (certificate of eligibility) form. Transfer students must submit a copy of the I-20 form from the previous school attended, along with an Intent to Transfer form obtained in the Counseling Center (Administration/ Student Services Building, Room 103) or on the SBVC website.

Prior to registering for classes, international students must be prepared to present to the International Student Counselor the results of a chest x-ray or a negative tuberculosis skin test taken in the United States (The skin test may be taken in the campus Student Health Center for a nominal fee). International students are required to
be enrolled in 12 units per semester, per USCIS regulations and purchase International Student Health Insurance prior to the registration period for each semester.

AB 540
San Bernardino Valley College, in compliance with California law, welcomes undocumented, non-immigrant aliens, and will charge them the same fees as California residents, for tuition purposes, if they meet all of the following criteria:
- You have attended a California high school for at least 3 years
- You have a high school diploma (or equivalent)
- You have applied for legal status – or will sign an affidavit stating your intent to do so.

Please visit the Admissions Office for further information.

Veterans
San Bernardino Valley College offers courses approved for Veterans Administration benefits under Title 38, Chapters 30, 31, 32, 33, 35, 1606, and 1607 of the U.S. Code. An enrollment certification will be returned to the Veterans Administration when a veteran or his/her eligible dependent has completed the following:

- File an official transcript of all previous work taken at other colleges or universities with the Records Office (These records have to be evaluated and appropriate credit granted before the student can be certified for benefits. The applicant’s initial certification to the Veterans Administration will reflect the total credit granted).
- Student must see a counselor prior to the start of their second semester of attendance to have their program approved and to develop an education plan*. The program must be listed in the College Catalog.
- To be certified, students must enroll only in the classes listed on an education plan*.

* See “Matriculation” on page 9 for further details

Grades of W (withdrawal) and NP (no-pass) are interpreted as unsatisfactory progress by the Veterans Administration. Additionally, a complete withdrawal during a term is considered unsatisfactory progress except in extenuating circumstances. Veterans and their eligible dependents are responsible for notifying the Veterans Administration of any changes in their academic program, in their marital or dependent status, or in their address.

ENROLLMENT

Application Procedures

1. **All new and returning students may register online at www.valleycollege.edu**

2. **Transcripts of Prior Work**
Students must have official transcripts of all college work not done at San Bernardino Valley College sent to the Admissions & Records Office (Administration/Student Services Building) if they are planning to attend. **If the student does not submit an application, the transcript will be destroyed.**

3. **Assessment / Orientation / Advisement**
When you submit an application for admission, you will be able to make an appointment to take an Assessment test.

To get an appointment for the Ability-to-Benefit (ATB), please go to Financial Aid.

Report at least fifteen minutes early on the assessment date you have chosen. Bring your appointment card with you as well as a picture ID (driver’s license or school ID).

**You may be exempt from Assessment if:**
- You have an associate degree or higher from an accredited college or university; or,
- You have earned a score of 3 or higher in Advanced Placement Tests in **both** math and English; or,
- You have proof of taking an assessment test at another California community college within the last three years; or,
- You are taking courses for career advancement, to improve job skills, or to maintain certificate or license requirements and the courses you are taking do not require either math or English prerequisites; or,
- You are taking courses only for personal enrichment

**You may be exempt from the English Assessment if:**
- You received a grade of “C” or better in a prerequisite English course at the college level.

**You may be exempt from the math Assessment if:**
- You received a grade of “C” or better in a prerequisite math course at the college level.

Here are questions students most often ask about Assessment:

**Why take the Assessment?**
Assessment will place you in proper English, reading, and math courses. During the Orientation/Advisement session following assessment, you will be introduced to the college’s services. After your assessment is processed, the counselor will help you select appropriate courses for the semester.

**If I don’t do well on the Assessment, will I still be able to attend San Bernardino Valley College?**
Yes. This is not a pass/fail exam. It is a tool to help you and the counselor make appropriate educational plans.

**How long will the Assessment take?**
Approximately 3 hours.

**What if I need disability-related accommodations to complete the test?**
If you have a learning or physical disability that requires reasonable accommodation to complete the assessment test, please contact Disabled Student Programs and Services, located in Administration/Student Services, Room 105.
Do other colleges require Assessment?
Yes. Every community college in California is required to assess all new students. Most four-year colleges and universities also require an assessment of basic skills.

Does a counselor discuss my Assessment results?
Yes. Counselors are your best resource to tell you how to interpret placement skills.

If my class has a prerequisite, what do I need to do?
Take the prerequisite course, or refer to page 10 for other options.

4. Registration
The schedule of classes provides detailed instructions on the procedures involved in registering for classes. Students may register online in accordance with the dates identified in the Class Schedule. Attending courses without formally enrolling (i.e., auditing) is not permitted.

Students who have an incomplete application, dismissal or probationary issues, or an outstanding financial obligation will not be allowed to register for classes until the issue is resolved. Examples of obligations falling under this policy include but are not limited to: returned checks, unpaid loans, equipment breakage, unpaid library fines, and registration fees.

The college reserves the right to cancel any class that does not meet the minimum size requirements established by the district. In some cases, cancellation may take place before the first class meeting. Students will automatically be mailed a refund of the enrollment fees for any class cancelled by the college.

5. Payment of Fees
Current fees are listed each semester in the Class Schedule and on the website. All fees are due and payable at the time of registration. In addition to enrollment fees, students will be assessed the following: health fee, accident insurance, Student Representation fee, and Student Center fee. Optional fees include those for a parking permit and for the Associated Students (ASB) discount card. Students who are not residents of California are required to pay non-resident tuition.

6. Class Attendance
Students who are not in attendance at the first class meeting are considered “no-shows.” Instructors may choose to drop no-shows in order to give their seats to non-registered students seeking entrance to the course.

7. Late Registration
Applicants who do not enroll during the registration period may enroll online using a “Web Authorization Sticker” which is received from the professor. Keep in mind that an instructor may refuse to admit a late registrant when the work missed cannot reasonably be made up, when the class is full, or when normal progress in the course would be impossible or unsafe. Students will not be enrolled into a class if the deadline date for admissions has passed.

8. Change of Program
Registered students may change their programs during a designated period at the beginning of each semester. Once the web registration period has passed, a “Web Authorization sticker”, obtained from the professor, is needed to change a schedule. If a schedule is revised in such a way as to change the total number of units taken, the amount of enrollment fees will also change. All fees are due at the time the change is made.

9. Refunds
A. Designated Fees include: 1) Enrollment 2) Non-Resident Tuition 3) Parking 4) Health 5) Accident Insurance 6) ASB Card 7) Student Center 8) SBVC Student Representation.
B. Conditions
1. Refund requests must be initiated and signed by the student utilizing the Parking Fee Refund Request form for parking fees and the District refund form for all other fees.
2. If a refund is requested for the parking or ASB card fees, the parking decal or the ASB card must be attached to the refund request.
C. Military Service Exception
If a student who is a member of an active or reserve military service receives orders compelling a withdrawal from courses, the District shall, upon petition of the affected student, refund the entire enrollment fee unless academic credit is awarded.
D. Refund Schedule
This refund schedule applies to all fees listed in Paragraph A, above:
1. Fees are collected in error – Fees collected in error will be refunded in their entirety.
2. Class cancelled by the college – If a class is cancelled by the college, enrollment and/or non-resident tuition fees will be refunded in their entirety. If that cancellation results in a student’s withdrawal from the college, refunds of the appropriate fees listed in Paragraph A will apply.
3. Withdrawal from the College
   a. Enrollment Fee/Non-Resident Tuition – If a student withdraws during the first two weeks of a full-term class or during the first 10% of a short-term class, enrollment fees and non-resident tuition fees will be refunded;
   b. Parking fee, Health fee, Accident Insurance fee, Student Services Card fee, Student Center fee, Student Representation fee – In order to be eligible for a refund, a student must withdraw prior to the first day of the term for a full-term class or prior to the first day of instruction for a short-term class.
4. Unit Reduction – If a change of program within the first two weeks of a full-term class or during the first 10% of a short-term class results in a reduction in the number of units taken, the enrollment fee or non-resident fee will be refunded at the per unit cost of the reduction.
5. A student who withdraws from a class or the college after the second week of instruction for a full-term class or the first 10% of a short-term class is not eligible for any refund.
E. Refund Processing Fee – A charge of $10 will be collected for each refund transaction not to exceed $10.00 per student per semester, except for cancelled classes or over-payment.

It takes approximately six to eight weeks to process a refund check. If a student wishes to apply the refund credit toward registration in another class, he/she must submit the drop and add at the same time.
Matriculation
Matriculation is a process designed to assist students in accomplishing their educational goals. The process brings the college and the student into an agreement for the purpose of realizing the student's educational goal. The primary purpose of matriculation is student success.

The college agrees to provide:
- An admissions application process
- An orientation to the college's programs and services
- An assessment of the student's study skills, English language proficiency, computational skills, goals, career aspirations, academic performance, and need for special services
- Counseling and advisement to develop a Student Education Plan (SEP) and follow-up evaluation of each student's progress in achieving an educational goal.

Attendance
All students are expected to attend classes regularly. Each instructor will inform students at the beginning of each term exactly what is to be expected regarding attendance in his/her class, and the instructor's decision is final. In the event an absence is unavoidable, students are responsible for notifying instructors.

A student's failure to attend class meeting(s) during the first week of a term may result in the student being dropped from the class. After the first week of classes during any term, an instructor may drop a student from any class in which the student has:
- Violated the instructor's stated attendance requirements;
- Accumulated more than two absences per unit; or,
- Attended so irregularly that the instructor feels it is unwise for the student to continue.

Instructors may not drop students after the 14th week of instruction (for full semester classes) or after 75 percent of instruction (for short-term classes).

Credit Hours (Units)
One credit is awarded for each 16-18 lecture hours of instruction, or for 48-54 laboratory hours, or for appropriate combinations of lecture and laboratory hours. For each one hour of lecture, students are expected to fulfill at least two hours of work outside of class in reading, preparing assignments, or other activities related to the course.

Classification of Student Load
Students are defined as full-time when enrolled in 12 or more units in either the fall or spring semesters. A part-time student is one who is enrolled in fewer than 12 units in either the fall or spring semesters. During the summer session, a full-time student is enrolled in 6 or more units and a part-time student is enrolled in fewer than 6 units. (Please note that for financial aid purposes, 12 units is considered full-time during the summer session, as well).

An overload of units requires a counselor's signature for registration. An overload is considered to be anything over 18 units for the fall or spring semesters and anything over 8 units for the summer.

Grades & Grade Points
The system of grades and grade points at San Bernardino Valley College is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>

</tr>
</tbody>
</table>

Only instructors may assign grades, and the grades given are final except in cases of mistake, fraud, bad faith, or incompetence. No grade will be changed for any reason or any circumstances after three years from the end of the term in which the grade was assigned.

Pass/No Pass
Students who wish to be graded in any class on a Pass/No Pass basis must complete the appropriate form which is available in the Admissions & Records Office (Administration/Student Services Building, Room 100) or on the college website. The paperwork must be submitted no later than the end of the first 30 percent of the course. Credit will be granted only when the work is of a quality equivalent to a grade of "C" or better. A maximum of 15 units of credit (P) courses may apply toward graduation requirements. Pass/No Pass grading is not permitted in a course within a student's major area of study. This rule may be waived for students who complete courses for credit and who later declare a major in that field of study. Once Pass/No Pass has been selected as a grading option, a letter grade (A-F) cannot be issued.
Incompletes
An incomplete or "I" symbol will be awarded to the student who, in the judgment of the instructor, is unable to complete a course due to a verified emergency. An Incomplete form will be completed by the instructor for each student and submitted to the Admissions & Records office. This form will cover the conditions for the removal of the "I" and the grade that will be recorded if the work is not completed within one year from the end of the semester in which the "I" was assigned. The student cannot register for the same course until the "I" has been removed.

Withdrawals
If a student stops attending class, it is the student’s responsibility to officially drop the class. A student who wishes to drop one or more classes but continue enrollment in other classes should drop the course online prior to the end of the third week (or 30 percent of a term, whichever is sooner). No entry will be made on the student’s record for dropping a class prior to the 30% deadline. A student who withdraws or is dropped from a course before the end of the 14th week of a semester (or before 75 percent of a short-term class has been completed) will not receive a letter grade. Instead, the letter W (Withdrawal) will be recorded on the student’s transcript. This symbol carries no evaluation of the student’s work, but is a clerical notation that the student was enrolled in the course and withdrew or dropped without grade or unit credit. W’s are used in probation and disqualification. Students who are members of the military (active or reserve) or National Guard should present their military orders to the Admissions & Records Office in order to have the MW assigned.

A student activated for military service may receive a military withdrawal (MW) at any time during the semester. Military withdrawals will not factor into progress probation and disqualification. Students who are members of the military (active or reserve) or National Guard should present their military orders to the Admissions & Records Office in order to have the MW assigned.

Repeated Courses
Course Repetition in a Non-Repeatable Course
Course repetition allows students to repeat classes under the following circumstances: (Title 5, Section 58161)

1. The student is repeating the course to alleviate substandard work which has been recorded on the student’s record (D, F, NP, or N/C). Courses in which a substandard evaluative symbol has been assigned may be repeated once. Otherwise, students are limited to four attempts per course counting withdrawals (W’s). No Petition for Course Repetition is required if a student has only one substandard grade or has not attempted the class four times (including W’s).
2. The student’s previous grade is, at least in part, the result of extenuating circumstances (verified cases of accidents, illness, or other circumstances beyond the control of the student). A Petition for Course Repetition and documentation are required.
3. There has been a lapse of time (at least 5 years) since the student previously took the course. A Petition for Course Repetition is required.
4. The course outline of record has been officially changed and demonstrates significant curricular changes. A Petition for Course Repetition is required.
5. Repetition of courses where substandard work has not been recorded is permitted when such repetition is necessary for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment.
   a. Repetition of courses shall be permitted only upon petition of the student with the written permission of the program administrator based on a finding that circumstances exist which justify such a repetition.
   b. Such courses may be repeated for credit any number of times, regardless of whether or not substandard work was previously recorded, and the grade received each time shall be included for purposes of calculating the student’s grade point average. Students must file a Petition for Course Repetition.

Final Examinations
Final examinations are given at the close of each semester. Students are required to take scheduled final examinations in order to receive credit. Any student who is purposely absent from an examination at any time during a semester forfeits the right to make up work by re-examination.

Final Grades and Transcripts
Final grades are accessible via the Internet as soon as they are submitted by the instructor. To access San Bernardino Valley College’s Campus Central on the Internet, go to: http://www.valleycollege.edu. Note: Transcripts will not be released if a student has holds, an outstanding financial obligation, or other academic or probationary issues.

Requests for transcripts may be made in person at the Admissions Office or online at: www.valleycollege.edu/admissions/transcripts. Requests will be filled within the legally prescribed timeframe, assuming there are no outstanding obligations to the college, or other holds on the students’ record. The first two transcripts are provided at no charge. After two, there is a charge for each additional request.

Prerequisites, Corequisites, and Departmental Advisories
When registering for classes, students are required to adhere to enrollment policies that relate to prerequisites, corequisites, and departmental recommendations.

1. A prerequisite is a course or skill that must be met before a course is taken. Students registered in a class without having completed the prerequisite(s) may be dropped from the class. Prerequisite courses must be completed with a grade of C or higher. Prerequisite courses completed with a grade of D or F indicate unsatisfactory performance in the course and do not satisfy the prerequisite.
2. A corequisite is a course that must be taken during the same semester as another course in which the student would like to enroll.
3. A departmental advisory is a suggested course that would be helpful for a student to have completed prior to enrolling. A departmental advisory is a suggestion, not a requirement.
Students may challenge a prerequisite or corequisite on one or more of the following grounds:

- The student can demonstrate he/she has the knowledge or ability to succeed in the course or program despite not having satisfied the prerequisite or corequisite.
- The student will be subject to undue delay in attaining his/her educational goal as outlined in his/her Student Education Plan (SEP) because the prerequisite or corequisite course has not been made reasonably available.
- The prerequisite or corequisite is discriminatory or is being applied in a discriminatory manner.
- The prerequisite or corequisite has not been established in accordance with the District’s process for establishing prerequisites and corequisites or was established in violation of Title V.

It is the student’s responsibility to provide information to support the challenge. The challenge must be filed in the Division Office within the first week of class. The college will process the challenge within five working days. For information on challenging a prerequisite, contact the Dean of Counseling at: (909) 384-8630.

Non-Degree Applicable Courses

Courses numbered in the 900s do not apply toward a degree, and are designed to provide the fundamental skills necessary for successful completion of other college courses. These include precollegiate courses in reading, writing, computation, learning skills, study skills, and English as a second-language. Non-degree applicable courses, including basic skills courses, are indicated in this catalog by numbers from 900 to 999. In accordance with Title 5, Section 55758.5 (b), grades earned in non-degree applicable courses are not included when calculating a student’s degree applicable grade point average.

Students will not receive credit for more than 30 units of basic skills course work taken in the San Bernardino Community College District. Basic skills coursework earned in another community college district will not be counted toward the 30-unit limit. Students enrolled in English as a second-language courses and students identified by the District for learning disabled programs are exempt from this 30-unit limit. Other students may apply for a waiver of the 30-unit limit. Contact a counselor in the Counseling Center (ADMIN/SS Building, Room 103) or call (909) 384-4404 and press zero ("0") for more information about the waiver process.

Credit-by-Examination

Students who feel that their knowledge of a subject is equivalent to the content of a course offered by the college may apply for credit-by-examination. To do so, the following conditions must exist:

- The student must submit evidence of extensive background and/or experience in the subject to the instructor of the course.
- The student must have completed twelve (12) or more units at San Bernardino Valley College or be a permanent employee of the San Bernardino Community College District.
- The student must be enrolled in the college during the semester in which he/she takes the examination.
- In accordance with Board Policy 5080, credit by examination for Modern Language courses may be granted only to students who take the next higher level course while attending San Bernardino Valley College, and only with the approval of the Modern Languages Faculty Chair.

An application for credit-by-examination is available from the Records Office (Administration/Student Services Building, Room 100). In addition to paying an enrollment fee based on the number of units in the course that is being challenged, there is an additional $20 processing fee that is applied to all credit-by-examination applications. (Note: All students, including those with Board of Governor fee waivers, must pay the processing fee and enrollment fee based on units when applying for credit by exam.) Once the application has been approved by the administration and the necessary fees have been paid, notice will be sent to the instructor that he/she may administer the examination and submit the grade earned. Grades will be consistent with the grading systems established by the college and will be submitted to the Admissions & Records Office by the end of the semester in which the examination is completed. The student’s transcript will contain a notation that indicates that the credit was earned by examination. Any grades earned through credit by examination will be counted when determining athletic, financial aid and Dean’s List eligibility. The units earned will not be counted in determining the twelve (12) semester hours of credit in residence required for graduation from the college (see Associate of Arts Degree graduation requirements on page 28 of this catalog). Financial Aid is not available for credit by examination.

Credit for Military Service

Currently enrolled students who have had a minimum of one year of military service may petition to receive up to two semester units of credit for the Physical and Health Education requirement for graduation. Three units are allowed toward CSU GE-Breadth in area E. A DD-214 is required. Petition For Military Service Credit forms may be obtained in the Admissions & Records Office (Administration/Student Services Building, Room 100). Students who have completed coursework at other institutions while in the military must submit official transcripts to appropriate division deans for approval of course equivalency.

Credit for Advanced Placement

Students who have completed Advanced Placement (AP) examinations of the College Entrance Examination Board with scores of 3, 4, or 5 may receive credit at San Bernardino Valley College as indicated in the table on the following page. A grade of pass (P) will be assigned on the transcript. Credit awarded through advanced placement may be used to satisfy graduation requirements toward the associate degree, IGETC and CSU General Education-Breadth requirements. Transfer universities re-evaluate AP. The units earned from AP credit will not apply toward financial aid nor can they be used to satisfy the 12-unit residence requirement for graduation. Students request credit for AP through the Admissions & Records Office, AD/SS 100 (909) 384-4401. (See Associate Degree Graduation Requirements on page 28 of this catalog). Credit for the College Level Examination (CLEP) Program

The College-Level Examination Program (CLEP) gives college students the opportunity to receive college credit for what you already know by earning qualifying scores on any of 33 examinations. Earn credit for knowledge you’ve acquired through independent study, prior course work, on-the-job training, professional development, cultural pursuits, or internships. Information can be found at: http://www.collegeboard.com/student/testing/clep/about.html.

A student must be enrolled at San Bernardino Valley College to receive course credit for CLEP Examinations. Credit will not be granted for courses in which equivalent or more advanced course work has been completed. Students will receive appropriate credit for CLEP examinations, for which faculty have determined equivalent to SBVC courses and/or graduation requirements. Students should be aware of the following:

1. University of California does not accept CLEP Examinations.
2. Students should be aware that acceptance of CLEP varies at campuses of the CSU.
3. At SBVC, credit for CLEP Examinations is on a pass/no pass basis only; no letter grades are assigned.
4. Some CLEP Examinations may be under review at SBVC. CLEP scores for examinations no longer offered are evaluated on an individual basis.

Credit for DSST/DANTES (Defense Activity for Non-Traditional Education Support)
The DSST (previously known as the DANTES Exams) is an extensive series of 37 examinations in undergraduate courses. DANTES funds paper-based DSST testing for eligible Service members and civilian examinees at DANTES Test Centers and at national test centers (colleges and universities) offering the Internet-based (IBT) DSSTs. Information can be found at: http://www.dantes.doded.mil/dantes_web/examinations/DSST.htm

A student must be enrolled at San Bernardino Valley College to receive course credit for DANTES/DSST Examinations. Credit will not be granted for examinations in which equivalent or more advanced course work has been completed. Students will receive appropriate credit as designated on the following table. Examinations listed on the table have been reviewed by SBVC faculty.

Students should be aware of the following:
1. University of California does not accept DANTES/DSST credit.
2. DANTES/DSST Examinations may not be accepted toward CSU GE-Breadth.
3. Acceptance of DANTES/DSST Examinations varies among transfer universities and other community colleges. Students should be advised that the DANTES/DSST Examinations get re-evaluated.
4. DANTES/DSST Examinations may be under review, therefore the table below may not be inclusive of all examinations.

Any questions may be directed to the Articulation Officer in the Counseling Center, AD/SS 103.

Credit for Courses Taken at Other Colleges
Academic credits earned at other regionally accredited institutions are evaluated at the time of a student’s graduation from SBVC. It is therefore important that the student request official transcripts from all colleges previously attended. These transcripts should be sent to the Admissions & Records Office (Administration/Student Services Building, Room 100). All religious courses taken at a denominational college need to be equated with courses at San Bernardino Valley College; otherwise, the religious courses are not allowed.

A student who has taken coursework at institutions of higher learning outside of the United States and who wishes to have that coursework considered toward his/her educational goal at San Bernardino Valley College must have the academic credentials evaluated by a bonafide independent evaluating agency. A list of recommended agencies is available in the Records Office (Administration/Student Services Building, Room 100).

International Baccalaureate
A student must be enrolled at San Bernardino Valley College to receive course credit for the International Baccalaureate (IB) diploma or certificates. Scores below 4 for English A1 (HL) and 5 for Mathematics (HL) will require that students complete assessment at SBVC. Please refer to the table below for IB credit.

Probation & Dismissal

Progress Probation:
A student will be placed on progress probation when he/she has completed at least 12 units and has received course completion symbols of W, I and/or NP in 50 percent or more of these units. A student will be informed that he/she is on progress probation by letter. The letter will list common causes of unsatisfactory progress and will recommend services for improving academic achievement. If the student on progress probation also has a grade point average of less than 2.00, he/she will not be allowed to register for additional courses until he/she meets with a counselor. A student will be released from progress probation status whenever more than fifty percent of all the units he/she has taken at the college have been completed with an assigned letter or P grade. In addition, a student may appeal his/her probation status by making an appointment with the Dean of Counseling & Matriculation, AD/SS Room 103 or at (909) 384-4404.

Academic Probation
A student will be placed on academic probation when his/her cumulative grade point average in 12 or more units falls below 2.00 in all units attempted which were assigned on the basis of the college grading scale. A student will be informed that he/she is on academic probation by letter. The letter will list common causes of unsatisfactory progress and will recommend services for improving academic achievement. A student on academic probation will not be allowed to register for additional courses until he/she meets with a counselor. A student will be released from academic probation when his/her accumulated grade point average reaches 2.00 or higher. In addition, a student may appeal his/her probation status.

Academic Disqualification
A student on academic and/or progress probation shall be dismissed for one semester when one or more of the following conditions exists:

• The student has earned a cumulative grade point average of less than 2.00 in all units attempted in each of the three consecutive semesters. (For purposes of this section, semesters shall be considered consecutive on the basis of the student’s enrollment.)
• The student has received course completion symbols of NP, I and/or W in 50/fifty percent or more of the units for which he/she was enrolled in each of three consecutive semesters.
• The student has received a combination of the two patterns listed above in each of three consecutive semesters.

As with probation, a student will be informed of dismissal by letter. A student may appeal his/her disqualification status.

Readmission After Disqualification
A student may be reinstated one semester after the date of dismissal. Students enrolled following dismissal shall be on probationary status for one semester. If, after this semester, the scholastic achievement of the readmitted student continues at a probationary level, the student may be dismissed for one year. Students must see a counselor and complete readmissions documents. Counseling can be reached in AD/SS Room 103 or at (909) 384-4404.

Academic Renewal
Students who feel that past substandard grades earned from San Bernardino Valley College or any other accredited college no longer reflects their current level of academic performance may petition to have the grades from any two consecutive semesters eliminated from the computation of their total grade point average. Students must contact each institution individually to request academic renewal. The following conditions will apply:

• The substandard grades must have been earned during no more than two consecutive semesters of attendance at any accredited college.
• The number of units under consideration for these two consecutive semesters may not exceed 30 semester units.
• During the time since the substandard grades were achieved, the student must have attended San Bernardino Valley College or any other accredited college and completed at least two semesters and at least 24 consecutive semester units with a cumulative grade point average of 2.50 or higher.
• Of the units obtained since the substandard grades were achieved, only the last 24 units completed will be used to determine eligibility.
• The student may not petition under these procedures more than one time.

If the conditions above are met and if the petition is approved, the student’s grade point average will be recalculated. Nonetheless, any institutional action taken under Academic Renewal will not remove the original courses, units, or grades from the student’s permanent record. In accordance with Title V, all work attempted, once entered on the record, must remain legible and reflect the student’s complete academic record. The petition may be obtained and reviewed by a counselor to determine if the criteria has been satisfied and submitted to Admissions & Records (AD/SS Building, Room 100).

Non-Discrimination Policy
San Bernardino Community College District and its two colleges, San Bernardino Valley College and Crafton Hills College, are committed to non-discrimination. Our goal is to provide equal opportunities for all community members in all areas of the college including admission, student financing, student support facilities and activities, and employment. Federal laws and District policies strictly prohibit all types of discrimination, including sexual harassment and inequities based on race, color, religion, sex, age, marital status, physical disabilities, mental impairments, or sexual orientation. The District's non-discrimination policies are supported by the requirements of Titles VI and VII of the Civil Rights Act of 1964, as amended; Title IX of the education amendments of 1972; the Age Discrimination in Employment Act of 1975; and sections 503 and 504 of the Rehabilitation Act of 1972, as amended, and the Americans with Disabilities Act. San Bernardino Valley College is further committed to overcoming sex discrimination and sex stereotyping in vocational education programs. In addition, the lack of English language skills will not be a barrier to admission and participation in vocational education programs.
For information regarding the college's non-discrimination policy or to file a complaint, contact the Vice Chancellor of Human Resources and Employee Relations, District Building, SBCCD, 114 South Del Rosa Drive, San Bernardino, CA 92408. You may also call (909) 382-4041. For information regarding the requirements of Section 503 and 504 of the Rehabilitation Act of 1973 or to file a complaint, contact the Vice President of Student Services, San Bernardino Valley College at AD/SS Building, Room 200, or call (909) 384-8297.

Open Enrollment Policy
The policy of San Bernardino Community College District is that, unless specifically exempted by statute or regulation, every course, or class offered by the college is open to enrollment and participation by a person who has been admitted to the college and who meets the prerequisites approved for a given course.

Sexual Harassment Policy
Sexual harassment of students or employees in the academic and work environments violates both federal and state law and district policy, and it will not be tolerated. It also violates law and policy to retaliate against any individuals for filing a complaint of sexual harassment, or for participation in the investigation or resolution of a formal or informal, written or oral complaint of sexual harassment. Unlawful harassment on the basis of sex includes, but is not limited to, classroom conditions, grades, academic standing, scholarships, recommendations, employment opportunities, disciplinary action, or any other aspect of college life within the control of the District. Complaints of sexual harassment may be registered by calling the Vice President of Student Services at (909) 384-4473.

Academic Freedom
San Bernardino Valley College is committed to the principle that the free expression of ideas is essential to the effective education of its students and should be limited only by the responsibility to express ideas with fairness and in a manner that respects the differing ideas of others and distinguishes between established fact and theories and one's own opinion.

No special limitations shall be placed upon the study, investigation, presentation, and interpretation of facts and ideas concerning human society, the physical and biological world, and other branches of learning, subject to accepted standards of academic and professional responsibility. Students shall have the opportunity to study controversial issues and divergent views to arrive at their own conclusions. While students may represent without penalty any opinion in or out of class, they may be required to demonstrate knowledge of views contrary to their own in order to fulfill course requirements.

STUDENT AWARDS AND HONORS

Academic Recognition Programs
Recognition for outstanding academic achievement is given in the following ways:

Dean’s List:
Outstanding scholastic achievement by San Bernardino Valley College students is recognized through the Dean's Honors List. The Dean’s List is generated twice in each academic year, once during the fall semester and once during the spring semester. This scholastic recognition is based on GPA earned during the prior semester as opposed to a cumulative GPA. To qualify for the Dean’s List, students must complete 12 units of college-level courses during the prior semester. (Units earned through credit-by-examination will be counted when determining eligibility.) Courses taken on a “Pass/No Pass” basis and/or courses numbered in the 900s that do not apply toward a degree are not included when evaluating whether a student has met the 12-unit requirement. Qualifying students will be included on the Dean’s List in the following categories:

- **Highest honors** for students earning GPAs between 3.90 and 4.00.
- **Honors** for students earning GPAs between 3.70 and 3.89.
- **Distinction** for students earning GPAs between 3.50 and 3.69.

Graduating with Honors:
Students who complete 60 units and who graduate with cumulative GPAs in the above three categories will be honored at graduation with special mention in the graduation program. No more than 15 units of course work graded on a Pass/No Pass basis will be included in this 60-unit requirement.

Students completing their associate degrees with an overall GPA of 3.0 are eligible to wear a sash at graduation. Students completing their vocational certificates with an overall GPA of 3.0 or above are eligible to wear a cord at graduation.

Alpha Gamma Sigma:
Students who have a cumulative grade point average of 3.00 or higher may join Alpha Gamma Sigma, the California Community College Honor Scholarship Society. Applications for admission to Alpha Gamma Sigma are available in the Alpha Gamma Sigma office in THE Chemistry Building, Room 113.

Honors Program
The mission of the Honors Program is to provide students with a rigorous learning experience that encourages independent and creative thought, to enhance students’ critical reading, writing and thinking abilities as tools for achieving further academic success, and to prepare students for transfer to four-year institutions and to remain in the academic honors track.

**Financial Aid Programs**
If a student needs financial assistance to pay for the costs of attending San Bernardino Valley College, the Financial Aid Office can help. While the primary responsibility for meeting college costs rests with the student and the student’s family, the college recognizes that many students are not able to meet the full cost of a college education. Therefore, San Bernardino Valley College offers programs to provide assistance for students with documented need who might not otherwise be able to attend.

It is important that students apply for financial aid early. A minimum of six weeks is required to file the Free Application for Federal Financial Aid (FAFSA) and review the additional required documents. Financial aid awards are limited to availability of funds and are awarded on a first-come, first-served basis with priority given to students with the greatest need who apply by the priority deadline established by the Financial Aid Office.

The Financial Aid office can be reached by calling (909) 384-4403. The office is located in the AD/SS Building, Room 106.

**Eligibility Requirements**
In order to receive financial assistance, a student must either possess a high school diploma (or its equivalent) or pass an Ability to Benefit (ATB) Test or have completed 6 units of degree applicable course work. In addition, a student receiving aid must have a stated qualifying educational objective and maintain satisfactory progress towards that objective. Federal programs require students to be U.S. citizens or eligible non-citizens. In addition, California grant programs require recipients to be residents of the State of California.

**Application Procedure**
For most student aid programs described in this section, students must complete the Free Application for Federal Student Aid (FAFSA). This application is available online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov) and the Financial Aid Office recommends that students apply online. Students may use computers in the Financial Aid Office lab if they do not have access to the Internet. Make sure you list San Bernardino Valley College, federal code # 001272 on your application.

Applications for each new academic year are available in January. Financial aid is not continued from one year to the next, therefore students must apply for financial aid each school year. Deadlines for the various programs may vary; therefore, students are encouraged to visit the Financial Aid Office early each January for information.
Financial Aid Programs
San Bernardino Valley College participates in various financial aid programs. Additional information regarding each of the programs is available in the Financial Aid Office where staff is eager to help you. Further information can be found on the following website: www.valleycollege.edu/Financial_Aid.

This waiver is available to California residents to cover basic enrollment fees. In order for the Financial Aid Office to determine eligibility, the student must submit a Board of Governors Enrollment Fee Waiver application or a FAFSA (Free Application for Federal Student Aid).

Cal Grant (B and C)
The Cal Grant B helps students from low-income families who meet all Cal Grant eligibility requirements meet costs for academic programs. Cal Grant C helps meet costs for vocational training program for students from low income families. The primary deadline for Cal Grant applications is March 2 and there is also a secondary filing deadline of September 2. The application for Cal Grant is a two-step process: a FAFSA and a GPA verification form must be submitted in order to be considered for the grant.

California Chafee Grant
The California Chafee Grant provides up to $5000 per year for eligible students who are current or former foster youth to use for career and technical training or college courses.

Federal Pell Grant
The Federal Pell Grant program provides federal grants up to a maximum of $5,550 per year for students, depending on the ability of the family and/or individual student to contribute to their educational costs as determined by the FAFSA application process.

Federal Supplemental Education Opportunity Grant (FSEOG)

Academic Competitiveness Grant (ACG)
This grant is for students who graduated high school after December 2005 who completed a rigorous program of study as defined by Federal regulations and confirmed by the student’s high school. Students who qualify can receive a grant for two years. The amount for the first year is $750 and $1300 for the second year.

Federal Work-Study
Federal Work-Study offers students the opportunity to earn funds to help cover their educational expenses through part-time employment during the school year. The maximum award is $3000 per year.

Federal Stafford Loan
Subsidized Stafford loans are awarded based on demonstrated financial need. The federal government pays the interest while a student is enrolled in school and for the first six months after the student graduates, leaves school or drops below half-time enrollment. The amount that can be borrowed depends upon the student’s year in school (maximum for first-year students is $3500 and $4500 for second-year students). Attendance at a loan counseling workshop is required prior to borrowing. For more information, visit the Financial Aid Office.

Progress Requirement
All students receiving financial aid are required to maintain satisfactory progress. Satisfactory progress will be monitored at the end of each Spring semester for all Financial Aid students based on the San Bernardino Valley College Satisfactory Academic Polity. Per Federal regulations, this policy must apply to all students whether or not they were recipients of financial aid previously at San Bernardino Valley College or any other college or university. The complete policy is available in the Financial Aid Office.

Financial Aid Refund Policy
San Bernardino Valley College will determine the amount of federal financial aid that a student has “earned” in accordance with federal law. Students who receive federal financial aid and do not begin attendance in any of their classes will be required to repay all of the funds they received. Students who withdraw from all classes prior to completing more than 60 percent of the semester will have their financial aid eligibility recalculated based on the percentage of the semester completed, and will be required to repay any “unearned” financial aid they received. At San Bernardino Valley College, a student’s withdrawal date is: 1) the date the student officially notified the Admission Office of his or her intent to withdraw; or 2) the midpoint of the semester for a student who leaves without notifying the college; or 3) the student’s last date of attendance at a documented academically related activity.
STUDENT RIGHTS AND RESPONSIBILITIES

Academic Records
Student academic records are treated in a confidential and responsible manner as required by the Family Educational Rights and Privacy Act of 1974 (FERPA). Students have:

1. The right to inspect and review their education records within 45 days of the day the College receives a request for access.
   A student should submit to the Associate Dean, Enrollment Management, a written request that identifies the record(s) he/she wishes to inspect. The Associate Dean will make arrangements for access and will notify the student of the time and place where the record(s) may be inspected. If the records are not maintained by the Admissions & Records Office, the Associate Dean will advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the portions of their education records that they believe are inaccurate or misleading.
   Students should write to the Associate Dean clearly identifying the part of the record they want changed, and specifying why it is inaccurate or misleading. If the college decides not to amend the record as requested by the student, the college will notify the student of the decision and will advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.
   One exception that permits release of student records without written consent is disclosure to school officials with legitimate educational interests. A “school official” is defined as a person employed by the college in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the college has contracted (such as an attorney, auditor, or collection agent); a member of the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a “legitimate educational interest” if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by San Bernardino Valley College to comply with the requirements of FERPA.
   The name and address of the Office that administers FERPA is:
   Family Policy Compliance Office
   U.S. Department of Education
   400 Maryland Avenue, SW
   Washington, DC 20202

It is the belief at San Bernardino Valley College that students share a responsibility with their instructors for assuring that their education is honestly attained. Any act of academic dishonesty will be considered a very serious offense that is subject to disciplinary action. The consequences of academic dishonesty may include receiving a grade of “F” for a class or possible expulsion from the college.

Substance Abuse
The San Bernardino Community College District strives to maintain a workplace free from the illegal use, possession or distribution of controlled substances as defined in the Controlled Substances Act. Students, employees and
visitors are subject to applicable legal sanctions under local, state or federal law for the unlawful possession or distribution of illicit drugs and alcohol. Disciplinary action will be imposed on a student for misconduct for the following infractions while attending college classes or college-sponsored events:

- The use, sale or possession of illegal drugs.
- The presence on campus of anyone under the influence of drugs or alcohol.
- The use or possession of alcoholic beverages on college property or at any college-sponsored event.

Animals on Campus
The college does not permit staff or students to bring animals on campus, with the exception of “seeing eye” and “hearing ear” and “seizure” dogs and animals used for instructional purposes. At no time should dogs be left in vehicles.

Children on Campus and in the Classroom
All children (with the exception of high school juniors and seniors who have been admitted to the college) must be accompanied by an adult while on campus. Children are not allowed in the classroom under any conditions and are not to be left unattended in any campus facility.

Complaints
Any complaint about a grade, an instructor, or course content should be made to the instructor involved, then to that instructor’s Faculty Chair, then to the Division Dean of that department. If necessary, complaints beyond the Dean’s level should go to the Vice President of Instruction.

Financial Obligations
Students who have an outstanding financial obligation will not be allowed to register for classes, receive grades, transcripts, diplomas or certificates, obtain enrollment verification or receive any other services normally afforded students in good standing. Examples of obligations falling under this policy include (but are not limited to) returned checks, unpaid loans, equipment breakage, and unpaid library fines. An item or service withheld shall be released when the student satisfactorily meets the financial obligation.

Posting:
Students shall be provided with bulletin boards for use in posting student materials at campus locations convenient for student use. Materials displayed shall be removed after the passage of specified days.

Standards of Conduct
In the classroom: Students are expected to take responsibility for helping to create a quality classroom environment. Students are expected to show:

1. Respect for the instructor: This would include arriving on time, staying for the entire class period, bringing assignments, textbooks and other appropriate materials to class, refraining from talking while the instructor or classmates are making a presentation, leaving cell phones and other electronic devices off during class periods, and using a moderate, mature and respectful tone when participating in group discussions.
2. Respect for other students: This would include using appropriate language in public areas and refraining from physically or verbally harassing others in any way.

An instructor has the right to remove a student from class any time he or she considers the student’s actions to be interfering with a proper collegiate environment. The instructor may also refer the incident to the administration for disciplinary action as warranted.

On the Campus: Creating a proper campus environment is also very important for academic and individual success. The Board of Trustees of the San Bernardino Community College District has established district-wide standards of student conduct, which will be enforced at all times. These rules of conduct are particularly important in large common areas such as the cafeteria, bookstore, vending areas, campus quads, and other highly frequented areas.

Grounds for Disciplinary Action
Student conduct must conform to district and college rules and regulations. Violations of such rules and regulations, for which students are subject to disciplinary action, include, but are not limited to, the following:

- Continued disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority or persistent abuse of college personnel.
• Dishonesty, such as cheating, plagiarizing or knowingly furnishing false information to the college or to college officials.
• Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the Board of Trustees.
• The use or possession of alcoholic beverages on college property or at any college sponsored event, or the presence on campus of anyone under the influence of alcohol.
• Assault, battery or any threat of force of violence upon a student, visitor to the campus, or college personnel.
• Willful misconduct which results in injury or death to a student, campus visitor or college personnel member, or cutting, defacing, or otherwise harming any real or personal property owned by the district.
• The use, sale or possession of illegal drugs or substance or any poison classified as such in § 4160, Schedule D of the Business and Professions Code, or the presence on campus of anyone under the influence of such drug substances.
• Forgery, alteration or misuse of college documents, records or identification.
• Violation of college regulations governing student organizations, the use of college facilities or the time, place and manner of public expression or distribution of materials.

• Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.
• Obstruction of pedestrian and/or vehicular traffic while on college property or at college-sponsored activities.

See Board Policy 5500 for additional information about student conduct.

Types of Disciplinary Action
Disciplinary actions that are imposed by the college for the violation of its rules or the laws of the state of California include the following:
• Reprimand (a verbal or written recognition of a violation of good conduct which admonishes the offender to avoid future infractions).
• Probation (a disciplinary action which returns the offender to the college community on his or her promise of appropriate future behavior; may include, but is not limited to, ineligibility to participate in extra-curricular activities and certain other student privileges).
• Suspension (exclusion from the college and college-sponsored activities for a specified time).
• Expulsion (exclusion from the college and all college-sponsored activities by the District Board of Trustees).

Student Grievance and Due Policy
It is the stated policy of the Board of Trustees of the San Bernardino Community College District that, “the relationship between students and college personnel is of vital importance to the learning process.” With this principle comes the recognition that there may be many divergent viewpoints and that a process by which these viewpoints can be aired and resolved must be established.

I. Cause and Filing
Student grievance proceedings may be initiated against a District employee or another student for any of the following reasons:
1. Any act or threat of intimidation
2. Any act or threat of physical aggression
3. Any arbitrary action or imposition of sanctions without a proper regard to due process as specified in college procedures.

NOTICE:
1. Grades are not grievable (see NOTATION at end of policy).
2. Sexual Harassment complaints are filed in accordance with Board Regulation 3430 and are not covered under Student Grievances.
3. Discrimination complaints are filed in accordance with Board Regulation 3430 and are not covered under Student Grievances.

Who to File a Grievance With?
A student may submit a grievance to any manager or employee in any area for delivery to the Vice President of Student Services who will assess which manager or vice president is to oversee the grievance process.

A student grievance is to be handled in the area where the alleged grievance occurred. Examples are:
• Classroom or teacher-related issues would go to the vice president or manager in Instruction.
• Student service or counselor-related issues would go to the vice president or manager in Student Services.
• Building, grounds, cashering, or police-related issues would go to the vice president or manager in Administrative Services.

II. Time for Filing a Grievance Notice
The appropriate vice president, district manager, or designee will accept a formal written student grievance when submitted within 180 calendar days of the event’s occurrence and under the provisions specified. A grievance may be denied if the events occurred more than 180 calendar days prior to the date in which the grievance was filed in writing.

III. Student Status for Filing a Grievance
Only registered students may file a student grievance. Non-student grievances may be considered by the designated vice president or manager if the grievance is a result of a dispute arising out of the registration or enrollment process and the grievance is filed within thirty (30) calendar days of the alleged incident.

IV. Group Grievance
If more than one student files a grievance against an individual on the same issue or situation, members of the
group shall select one person to serve as spokesperson/representative for the entire group.

V. Informal Student Complaint Resolution Process
(Non-written)
Step 1. Every effort shall be made to resolve a student complaint at the lowest level possible. A student must first attempt to resolve the issue directly. If this is not practical or possible, or due to the nature of the problem, or failing a resolution the grievance progresses to Step 2.

Step 2. A student who is not satisfied with the Step 1 outcome may next attempt to resolve the alleged problem by conferring with the immediate supervisor of the employee with whom the initial conference was held. If the grievance is alleged against another student, Step 2 would be taken to the Disciplinary Officer. Upon such a request, the administrator shall inform and confer with any employee or student named by the student. In turn, the administrator shall schedule a meeting with the grievant and if requested, all involved parties, not more than ten (10) school days from the date of the initial request.

VI. Formal Procedures
If the alleged problem is not resolved at the Informal Level, the student may request a formal hearing in writing with the appropriate vice president or designee. This written notice shall state the conditions, practice, alleged act, or injustice that is being grieved, the date(s) of the alleged occurrence and should, if possible, include a proposed remedy or resolution to the problem.

Step 1: Within three (3) working days of receipt of the written student grievance notice, the appropriate Vice President or designee, shall determine if the allegations were filed in a timely manner and meet the criteria outlined. If the student grievance notice fails to meet the above criterion, the Vice President shall notify the student of this determination and the grievance shall be terminated. If the student grievance notice is not terminated, the Vice President shall appoint a Student Grievance Hearing Committee within five (5) working days.

Step 2: Any employee who has conferred with a student who requests a hearing shall prepare a written account of the discussion which shall be forwarded to the appropriate Vice President or designee.

Step 3: The student and any college personnel or student involved in the allegations shall be notified of a hearing and the time and place of the hearing in writing. The notice shall include the names of the Hearing Committee and all documentation relating to the allegation(s).

Step 4: The Hearing Committee shall consist of either a maximum of two faculty or two classified staff members, based on the nature of the classification of staff involved, two students, and one administrator to hear the grievance. The administrator where the issue relates shall serve as chairperson of the hearing committee.

VII. Hearing Procedures
a. The hearing shall convene within ten (10) working days of the receipt of the student grievance notice unless mutually agreed upon for a delay.

b. The hearing shall be closed unless the District employee or student against whom the grievance is brought requests that it be open.
c. The following persons should be present:
   1. The Hearing Committee
   2. The student grievant and non-legal representative/advocate if any;
   3. The college employee or student against whom the grievance is brought and a representative of the appropriate bargaining unit, if any;
   4. Witnesses, while presenting testimony.

d. Both parties shall notify the appropriate Vice President or designee, in writing within three (3) working days of the hearing if he/she will be accompanied by a representative/advocate. Such notification shall include the name and title of the representative. The Committee Chairperson shall be obligated to immediately notify the parties directly involved.
e. Although minutes will be taken at the hearing to provide a written record, if all parties agree the hearing may also be tape recorded.
f. All participants in a hearing shall be advised by the Committee Chairperson that the proceedings are confidential.
g. Witnesses shall not be required to testify under oath; however, witnesses shall be advised that false testimony will constitute grounds for college disciplinary action.
h. The proceedings will not be bound by formal rules of evidence nor trial-like procedures. Rather, the procedures will be those upon which reasonable persons would rely in the conduct of serious affairs. The Committee Chairperson shall rule on all procedural issues. If substantive or procedural issues arise during the hearing that require external assistance for resolution, the Hearing Committee Chairperson should recess the hearing and submit the issue to the college president for resolution.
i. Evidence and/or testimony which may be irrelevant or unduly repetitious may be so noted by the Committee Chairperson.
j. The burden of proof to sustain a grievance rests with the student.
k. If the grievant fails to appear at the time and place scheduled for the hearing, and fails to notify the committee of the circumstances the grievance will be considered to have been withdrawn and procedures will be terminated. Depending on the nature of the circumstances, the committee shall determine if the hearing should be rescheduled within a reasonable period of time. It is recommended that the defendant participate in the hearing.
l. Upon conclusion of the hearing, within five (5) working days, the Committee Chairperson shall submit to the Vice President a written report. The report shall include:

   1. A brief summary of evidence submitted;
   2. A finding of facts, supported by a preponderance of the evidence;
   3. A recommendation that the grievance be sustained or denied; and
   4. In the event the recommendation is to sustain the grievance, a recommendation of appropriate corrective action.
m. Upon review of the Hearing Committee’s report, the Vice President or designee shall make a final determination.
VIII. Notification
Within five (5) working days following receipt of the report of the Hearing Committee chairperson, the Vice President or designee shall provide a written notification to the student/s and to the employee/s directly involved in the issues as to the final determination.

IX. Appeal to President
If either the complainant or accused is not satisfied with the final college-level disposition of the grievance, the party may, within ten (10) working days, appeal the decision to the College President. The basis of appeals are: All parties shall be notified by the President of the appeal. The President shall provide written notification to the student and to other parties directly involved in the issues as to his/her recommendation within five (5) working days.

X. Appeal to the Chancellor
If either party is not satisfied with the final college-level disposition of the grievance, he/she may, within ten (10) working days, appeal (state the basis of the appeal again) the decision to the Board of Trustees through the District Chancellor. All parties shall be notified by the Chancellor of the appeal. The Chancellor shall report the grievance in closed session to the Board of Trustees for final determination. The Chancellor shall provide written notification to the student and to other parties directly involved in the issues as to his/her recommendation within five (5) working days. The determination of the Board of Trustees is final.

General Provisions
1. The time limits specified in this procedure may be shortened or extended if there is mutual written concurrence between the parties.
2. At any step of the grievance procedure, the college President may designate a substitute for the designated college officials.
3. Failure of the student grievant to appeal a grievance determination at any step to another step within the specified time limits shall be deemed as acceptance of the last determination rendered.
4. It is the intent of this policy that the confidentiality of the discussions, including any documents or written records, be maintained by the participants.
5. It will not be mandatory for any staff member to attend the student grievance meetings nor will the student grievance procedure supersede staff member’s contractual rights.

Grade Appeal Process
According to code (California Education Code Section 7622 [a], California Code of Regulation Section 55760 [a] and Section 55758), if mistake, fraud, bad faith, or incompetency is the reason for a grade dispute, the burden of proof lies with the student to produce facts that support this allegation. If such evidence exists the student is to initiate an informal discussion with the specific faculty member and/or the Faculty Chair. If the matter is not resolved through this informal discussion, the student may obtain a Grade Appeal Form from the Office of Admissions and Records and meet with the Division Dean.

PART II – DEGREE, CERTIFICATE AND TRANSFER INFORMATION

Successful completion of approved programs at San Bernardino Valley College may lead to:

- Completion of lower division (freshman and sophomore) requirements for transfer to upper division (junior) standing at a four-year college or university.
- An Associate of Arts or Associate of Science degree.
- A Certificate of Completion in a specific occupational field.

Even though these objectives are listed separately, it is possible to achieve all three concurrently during the first two years of college. For example, it is possible to use the coursework completed for a certificate program as a major for an associate degree. Similarly, students completing lower division requirements for transfer to a four-year college or university will find it possible to meet the requirements for an associate degree from San Bernardino Valley College.

Students are encouraged to work with a counselor to develop an educational plan* to meet educational goals in a time-effective manner.

* See “Matriculation” on page 9 for details

Associate Degree (Graduation) Requirements
Graduates from San Bernardino Valley College (SBVC) receive an Associate of Arts degree or an Associate of Science degree. To earn an Associate degree, students must complete general education breadth requirements as specified in Option #1 or Option #2 below, as well as additional units of electives and/or lower division requirements for a major.

Students must file a Graduation Application in the Records Office by the deadlines listed below:
- Fall graduation - October 1
- Spring graduation - March 1
- Summer graduation - July 1

When printed deadlines fall on either Saturday or Sunday, the filing period will be extended to the Monday following the deadline date.

Associate Degree: Option #1
The Option 1 associate degrees are general degrees designed for students who plan to attend a four-year college or university.

Associate Degree Option 1a
The general education breadth requirements are the same as the requirements for the Intersegmental General Education Transfer Curriculum (IGETC). Refer to page 31 of the catalog for the IGETC requirements. In the process of completing this coursework the student must fulfill these general requirements:
1. Complete a minimum of 60 semester units of college coursework, with at least 12 semester units in residence at SBVC.
2. Earn a letter grade of C or higher in each course.

Associate Degree Option 1b
The general education breadth requirements for this degree are the same as the requirements for the California State University General Education Breadth Requirements (CSU GE-Breadth). Refer to page 33 of the catalog for the CSU GE-Breadth requirements. In the process of completing this coursework the student must fulfill these general requirements:
1. Complete a minimum of 60 semester units of college coursework, with at least 12 semester units in residence at SBVC.
2. Earn at least a 2.0 grade point average for the CSU GE coursework. Earn a grade of C or better for each course in the Oral Communication, Written Communication, Critical Thinking and Mathematics/Quantitative Reasoning categories.

Associate Degree: Option #2

Note: you must declare a major in order to receive a degree. A list of more than 60 majors can be found on page 35 of this catalog. For students who want a general Associate of Arts Degree that reflects broad-based interests rather than the more narrow focus of other majors, it is suggested to follow the Liberal Arts major described on page 134 of this catalog.

Veterans of the armed forces may have met this requirement; consult with a counselor. PE 231 (First Aid and CPR) does not satisfy this graduation requirement.

**Important Note:**

The purpose of categorical subject requirements for graduation is to assure that the graduate will have adequate breadth outside of the area of specialization. For this reason, **NO COURSES IN ANY OF THE PRECEDING CATEGORIES MAY BE USED TO MEET MORE THAN ONE REQUIREMENT.** However, units in a student's subject major may be used to fulfill the requirements in Categories I through V above.
Associate Degree Majors
San Bernardino Valley College offers associate degree majors in most departments listed in Part III of this catalog. Refer to the chart on page 35 for a complete list of associate degree majors. Refer to the particular department for course descriptions and a complete list of the courses required for that major.

The associate degree major in a specialized field or major is primarily intended for students who plan to enter an occupation after obtaining their two-year degree. Students preparing for the four-year baccalaureate degree normally do not begin to specialize or major until they leave San Bernardino Valley College. For these students, their lower division coursework will consist primarily of general education requirements and prerequisite courses that will lead to a major in their junior year. Thus, a student planning to be a professional biologist or geologist is actually a pre-biology or pre-geology major during his/her first two years. Accordingly, these students should declare their associate degree major to be Liberal Arts, and should plan their lower division program on the basis of the requirements and recommendations of the four-year college or university to which they intend to transfer. Students are advised to consult the catalogs of the four-year schools they are interested in and to discuss specific requirements with their counselors.

Graduation Catalog Rights
A student may elect to meet graduation requirements in any one of the following ways:

1. Catalog Rights at the time the student begins at SBVC without interruption, or

2. The student who drops out for two or more consecutive semesters is subject to the requirements in the catalog at the time of reentry, or

3. The catalog in effect at the time the graduation petition is submitted. Note that summer session course requirements are included in the catalog of the previous academic year.

Graduation Requirement Exceptions
When a student has a deficiency in one or more of the areas required for graduation, he/she has the option of filing a Petition for Academic Exception, which is available in the Counseling Center (Administration/Student Services Building, 102). The Scholastic Standards Committee will consider each petition on the basis of its overall individual merit.

Vocational Certificate Programs
San Bernardino Valley College offers certificates of occupational proficiency in many fields. Certificates enable the student to gain marketable skills relatively quickly and at less expense than would be required for an associate degree. Students working toward a certificate are not typically required to take advanced academic courses in such fields as philosophy, foreign languages or history. Nonetheless, they must have a sufficient background in mathematics, reading and writing in order to complete their coursework and to succeed in the occupations they select. Students must also complete all requirements for a certificate with a grade of C or higher. Refer to page 35 of this catalog for a complete list of certificates, and to the individual programs described in Part IV for a complete list of the sequence and scope of courses required for each certificate. Students interested in enrolling in certificate programs should confer with a counselor and talk with representatives of the departments that offer the desired program. In some instances, courses completed in high school may be used to satisfy some of the requirements for a certificate. In addition, training programs such as military courses, apprenticeships or other training may be credited toward a certificate program.

At the beginning of the student's final semester, he/she should obtain a Graduation and/or Certificate Application either from the Records Office or the division office of his/her certificate program. The student will then submit the application to the Records Office for a final check by the deadline date for the semester in question. Those dates are as follows:

- Fall: October 1
- Spring: March 1
- Summer: July 1

When printed deadlines fall either Saturday or Sunday, the filing period will be extended to the Monday following the deadline date.

Twelve units, or 50 percent of the coursework required for a certificate, whichever is the lesser, must be completed at San Bernardino Valley College. This residency requirement may be waived in the case of extenuating circumstances with the permission of the program coordinator or Faculty Chair. The certificate will be prepared by the Records Office and will be available to the student by the start of each new semester following the semester of submission.

The University of California
The University of California has nine major campuses: Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara, and Santa Cruz. A tenth campus in San Francisco offers graduate and professional programs in the Health Sciences. With the exception of Berkeley and Merced, these campuses are on a quarter-unit basis. When converting semester units to quarter units, the number of semester units should be divided by two-thirds. When converting from quarter units to semester units, the number of quarter units should be multiplied by two-thirds. Students who plan to transfer to the University of California may complete all of the required lower division courses at San Bernardino Valley College. Although courses may be indicated in the catalog as transferable to UC and/or CSU, they may or may not meet general education or major preparation. Students who plan to transfer to UC or CSU should consult with a counselor and the following websites:

- www.csumentor.edu
- uctransfer.universityofcalifornia.edu
- www.assist.org

While the UC campuses have similar general breadth lower division requirements and will accept a maximum of 70 semester units (or 105 quarter units) of transfer work, there are some subject differences among the campuses. Consult the catalog of the desired UC campus to identify these differences.

It is also possible to transfer to a University of California campus upon completion of the Intersegmental General Education Transfer Curriculum (IGETC), as discussed in the following section of this catalog.
The admission cycle for the fall term of the University of California begins each year on November 1 of the preceding year. Each campus will accept for consideration all applications filed during the month of November. Since enrollment ceilings have been established at each campus, students may be accepted only at their second or third choice campus.

The requirements for admission to the University as a transfer student vary in accordance with the high school record of the applicant. A transfer student must meet one of the following:

1. If you were eligible for admission to the University when you graduated from high school – meaning you satisfied the Subject, Scholarship and examination Requirements, or were identified by the University during your senior year in high school as eligible under the Eligibility in the Local context (ELC) program – you are eligible to transfer if you have a C (2.0) average in your transferable coursework.

2. If you met the Scholarship Requirement but did not satisfy the Subject Requirement, you must take transferable college courses in the missing subjects, earning a C or better in each required course, and have an overall C average in all transferable coursework to be eligible to transfer.

3. If you were not eligible for admission to the University when you graduated from high school because you did not meet the Scholarship Requirement, you must:
   a. Complete 60 semester units or 90 quarter units of transferable college credit with a grade point average of 2.4 (no more than 14 semester/21 quarter units may be taken Pass/Not Pass), and;
   b. Completed the following course pattern requirement, earning a grade of C or better in each course:
      - two transferable college courses (3 semester or 4-5 quarter units each) in English composition, and;
      - one transferable college course (3 semester or 4-5 quarter units) in mathematical concepts and quantitative reasoning, and;
      - four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral science.

Students who satisfy the Intersegmental General Education Transfer Curriculum (IGETC) prior to transferring to UC may satisfy Option 3B of the transfer admission requirements.

Four programs are available to smooth the transition from San Bernardino Valley College to a University of California campus:
1. **Transfer Admission Guarantee Program (TAG)** is an agreement between the University of California, Riverside with San Bernardino Valley College. Consult with the Transfer Center for details of this admissions agreement. They can be found at AD/SS 203 or call (909) 384-4410

2. **Transfer Alliance Program (TAP)** is an agreement between the University of California, Los Angeles, and the Honors Program at San Bernardino Valley College. Consult with the Honors Program Coordinator or the Honors Program Counselor for details of this admissions agreement. Call (909) 384-8612 for additional information.

3. **Transfer Admission Agreement (TAA)** is an agreement between UC Davis and San Bernardino Valley College providing guaranteed admission to students who satisfactorily complete all requirements for this program. See Transfer Center on page 20 for details.

4. **University-Link Program** is an agreement between the University of California and San Bernardino Valley College for eligible students meeting transfer requirements. See Transfer Center on page 20 for details.

Catalogs for each of the UC campuses are available in the Transfer Center. Also in the Transfer Center (AD/SS 203 or call (909) 384-4410) there is further information available that provide a summary of the unique requirements of each University of California campus: *Introducing the University and Answers for Transfers.*

**Intersegmental General Education Transfer Curriculum (IGETC)**

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the University of California (UC) or the California State University (CSU) without the need to complete additional lower-division general education courses. The IGETC is not an admission requirement for transfer to UC or CSU, nor is it the only way to fulfill prior to transfer, the lower-division, general education requirements of UC or CSU. Students pursuing majors that require extensive lower-division preparation may not find the IGETC option to be advantageous. Students with Advanced Placement (AP) Examinations, will receive credit for the appropriate IGETC area as documented in the “IGETC standards, policies, and procedures” available at icas-ca.org/igetc. A minimum grade of "C" is required in each course.

The California State University
The California State University system consists of 23 campuses, ranging in location from San Diego to Arcata. The admission cycle for the fall term of each year begins on October 1 of the preceding year. Eligible students may also be accepted during the winter and/or spring terms. Check with the Transfer Center to determine the acceptance dates for each CSU campus.

The California State University system has specific admission requirements for freshman standing. Eligibility is based on a combination of high school grade point average for the last three years of high school, exclusive of physical education and military science, and scores on the ACT or SAT tests.

Students who do not enter the California State University system as freshmen may enter with advanced standing under the following conditions:
- Students who would have been eligible for admission as freshmen may transfer at the end of any semester, provided they have maintained a C or better average in all work attempted.
Students who would have been ineligible for admission as freshmen must complete a minimum of 56 transferable semester units of work with a 2.00 grade point average or better. Beginning fall 2005, ALL upper division transfer applicants must have completed 60 or more transferable units, or 90 quarter units.

A maximum of 70 transfer-level semester units (or 105 quarter units) earned in a community college will be accepted for transfer. Although courses may be indicated in the catalog as transferable to UC and/or CSU, they may or may not meet general education or major preparation. Students who plan to transfer to UC or CSU should consult with a counselor and the following websites:

www.valleycollege.edu/Counseling  
www.csumentor.edu  
uctransfer.universityofcalifornia.edu  
www.assist.org

Students transferring to the California State University should check both the general education and major requirements as early as possible by referring to the current catalogs for the colleges of their choice. A Guaranteed Admissions Program and a Dual Admissions Program are available to smooth the transition between San Bernardino Valley College and California State University, San Bernardino. Consult with the Transfer Center for details on this agreement.

Lower-Division Transfer Patterns (LDTP)
The Lower-Division Transfer Patterns (LDTP) project is one of several ways that California Community College (CCC) students may use to prepare for study at the California State University (CSU). CCC students who know the major they wish to pursue and at which CSU campus, traditional major preparation articulation and transfer admission agreements are valuable. However, for transfer students who are uncertain about which CSU campus they will attend, the LDTP provides a measure of flexibility and options for preparation. LDTP may provide articulation for students whose community college does not have existing CSU articulation.

Each LDTP major discipline has a statewide and campus-specific component. The statewide component of the LDTP is appropriate for any CSU campus offering the major and is comprised of general education coursework and courses within the discipline. The campus-specific component identifies discipline related coursework relevant to the major at the specific CSU campus. These components for an LDTP discipline will total at least sixty units, the number needed to transfer to CSU as an upper-division student.

Students who completes any portion of the statewide component of an LDTP benefit because CSU campuses offering the discipline will honor the preparation for the major and the progress towards the CSU degree. Just as CSU GE-Breadth is a statewide alternative to each CSU campuses’ unique general education program, the LDTP is a statewide alternative to each CSU campuses’ lower-division major preparation. U.S. History and American Ideals Requirement:
Graduation from the California State University requires U.S. History and American Political Institutions. Any combination of one selection from each of the following lists of history and politics courses will normally fulfill this requirement:

Group 1: HIST 100, 101, 137
Group 2: POLIT 100

NOTE:
1. Students with AP Examinations will receive appropriate CSU GE-Breadth credit according to the CSU Office of the Chancellor guidelines.
2. Students are encouraged to complete Areas A and B4 early. CSU will not admit students until the grades are recorded for courses in Areas A and B4.
3. Upon transfer, students will be required to complete at least nine units of upper-division general education courses at the CSU.
4. For CSU GE-Breadth certification purposes, students may use the catalog of entry or any catalog thereafter as long as continuous enrollment is maintained until transfer to CSU. CSU defines continuous enrollment as one semester or two quarters in each calendar year.
5. Students may request official certification of CSU GE-Breadth requirements at the SBVC Records Office.
6. Although SBVC will certify Areas A through E individually, the CSU encourages students to complete all areas prior to transfer. Upper division transfer students are required to complete a minimum of 30 units of CSU GE-Breadth courses with a minimum grade of C in each course.
7. Course work from other California Community Colleges will be evaluated according to the CSU GE-Breadth pattern of those respective colleges. For out-of-state coursework, the SBVC Records Office will determine equivalency to SBVC courses. Courses from foreign institutions may not be certified. Official transcripts must be on file in the Records Office.
8. A single course may not be certified as meeting more than one category.
9. Some majors at the CSU have required general education courses and/or do not allow double-counting of courses toward major requirements. Students are encouraged to consult with a counselor and the catalog of the CSU to which they want to transfer.
10. The courses on this list are approved by the CSU Chancellor's office for Fall 2009 and beyond. SBVC courses not on this list may not be used for CSU GE-Breadth requirements, except for courses that were on the CSU GE-Breadth list for the year in which they were completed.
Requirements for Transfer to Independent California Colleges and Universities
California's fully accredited independent colleges and universities provide a host of options at undergraduate, graduate and professional levels for students planning to continue their education beyond community college. Students who transfer to independent colleges often find that they are given academic credit for most, if not all, of their community college studies. Virtually all institutions give full credit for general education courses and usually for other courses designated for transfer by the community college. Additional information is available in the Transfer Center.

PART IV – COURSE DESCRIPTIONS

Each course entry in this catalog includes the course number, title, prerequisite, a brief description, the number of semester units, and the number of hours the course meets based on the 16-18 week semester. The course entries also include information about how the course credit applies to associate degrees and transfer to The California State University and University of California systems.

- Courses numbered from 600 through 699 are non-credit and do not receive any type of college credit.
- Courses numbered from 001 through 099 are generally applicable to certificate and associate degree programs.
- Courses numbered from 100 through 299 are generally applicable for associate degrees and baccalaureate degrees conferred by universities.
  - Courses that are designated CSU transfer to CSU campuses system wide.
  - Courses designated UC are approved by the UC Office of the President as comparable to courses offered at UC. Courses with "UC notation indicate that some credit limitation applies. UC limits credit on courses that are similar in nature or taken after a higher level course(s). To access information on SBVC courses that transfer to UC, go to www.assist.org.
  - Although courses may be indicated in the catalog as transferable to UC and/or CSU, they may or may not meet general education or major preparation. Students who plan to transfer to UC or CSU should consult with a counselor and research the following websites:
    - www.csumentor.edu
    - uctransfer.universityofcalifornia.edu
    - www.assist.org
- Courses numbered from 900-999 are not applicable to associate degrees and generally do not transfer to four-year institutions.
- Certain course entries include a symbol x and a number following the symbol, such as MUS 141x4. This symbol (x) indicates that this is a skill-based course and may be taken for credit more than once; the number following the symbol (x) indicates the number of times the course may be taken for credit.

ACAD 100 is required of all students taking 9 or more units a semester. This course must be completed within a student's first two semesters of course work. Students are exempt from this requirement if they have already earned 30 units or more of college credit, or if they have already earned an associate or baccalaureate degree. Students on a career track within vocational disciplines that have articulated programs with four-year institutions may apply for exemption through the Faculty Chair and Division Dean of their area of study. The rest of the courses offered through this department are designed to help students perform well in their other classes and at their place of employment.

Accounting, as the language of business, is concerned with how businesses report their transactions and how they interpret the summaries of those transactions. Accountants record and summarize the economic events within a business. In addition, they interpret financial information and conduct solvency and profitability analyses to serve as a basis for sound business decisions.

Within the mission of the college, the Accounting Department has several objectives:

1) Provide high quality accounting and business programs, which will prepare our students for successful careers in business and government;
2) Provide students with a broad-base understanding of the concepts of Accounting, Business and Management;
3) Provide transfer to four-year institutions.

Students planning to transfer to a four-year institution and major in accounting should consult with a counselor regarding the transfer process and lower division requirements.

American Sign Language is a visually perceived, gesture-based language. It is a language that is expressed through the hands and face and is perceived through the eyes. It is based on a naturally evolved system of articulated hand gestures and their placement relative to the body, along with non-manual markers such as facial expressions, head movements, shoulder raises, mouth morphemes, and movements of the body.

ASL is a language used primarily by 500,000 members of the North American Deaf community.

The primary objective of the Modern Languages Department is communication at an acceptably correct level with an understanding of the Deaf culture. ASL classes include finger spelling as well as the incorporation of alphabetic letters from English words into ASL signs to distinguish related meanings of what would otherwise be covered by a single sign in ASL.

ASL study may assist individuals seeking employment as translators for hearing impaired persons and may be in demand by agencies, institutions and other organization required to meet the American Disabilities Act.

The study of art involves both an appreciation of the cultural heritage of art and the development of skills. Consequently, the Art Department offers courses in art history as well as studio courses in drawing, design, ceramics, painting, filmmaking, life drawing, computer graphics, graphic design, computer animation, web and multimedia design, digital photography, basic photography design in glass, sculpture, and glassblowing. In addition to an associate degree in fine arts, the department offers two certificates in graphic design and web and multimedia design, designed for students seeking employment in the design, advertising, and entertainment fields.

A baccalaureate degree in art qualifies students for employment in the fine arts, industry, and education. Students planning to transfer to a four-year institution and major in art should consult with a counselor regarding the transfer process and lower division requirements.

Many of the courses in this department are activity courses that may be taken more than once. These courses are indicated by (x) following the three-digit course number; the number following the (x) indicates the number of times the course may be repeated.

The courses offered in the Biology Department are designed to meet the demands of science and non-science majors. For non-majors, the department's goal is to educate students so they can make informed choices about key environmental and personal issues. Public awakening to environmental issues emphasizes the increasing need to appreciate various life forms, their interactions with each other, and the human impact on our finite resources. This public is increasingly asked to make decisions on issues concerning the environment and to make choices about personal habits in their daily lives that affect the earth and future generations.

For majors, the courses provide a strong background in the biological sciences for students transferring to four-year institutions who are interested in careers such as teaching, biological research, or the health sciences. Students planning to transfer to a four-year institution and major in biology or a related field should consult with a counselor regarding the transfer process and lower division requirements.

The Child Development Department has both an academic and vocational orientation. The academic program leads students along a path toward an Associate of Arts degree that articulates with higher education and transfers into continued study suitable for a baccalaureate degree. Students planning to transfer to a four-year institution and major in child development or a related field should consult with a counselor regarding the transfer process and lower division requirements.

The vocational program, which interfaces with the academic program, prepares students for immediate employment. Certificates offered by the Child Development Department prepare students for work with specific age groups: Infant and School Age. The Family Child Care Provider Certificate provides a curriculum to prepare students to establish quality family child care centers in their homes.

**GENERAL EDUCATION COURSES AND ELECTIVES:**
The Child Development Department advises scheduling an appointment with a counselor to create an education plan to include the general breadth requirements and elective units. Please note that CD205, Child Growth and Development Laboratory, is articulated with CSUSB.

**CHILD DEVELOPMENT ASSOCIATE OF ARTS DEGREE**
To graduate with a specialization in Child Development students must complete the required child development courses (28 units) plus the general breadth course requirements for an Associate of Arts Degree.

Economics is concerned with the study of how people and
societies produce various commodities and distribute them
for consumption, now or in the future, among various
persons and groups in society. As a descriptive, academic
discipline, it is concerned with accurate portrayals of
national economics as well as those of regions, firms, and
individuals. As an analytic discipline, its tools are used to
order, modify, and describe economic activity.

Training in economics, supplemented by course work in
other disciplines, provide excellent preparations for
particular careers in industry, government, and many
professions including management, law, education, public
administration or consulting. The study of economics also
provides useful intellectual training for individuals who may
be uncertain about their future careers.

Students planning to transfer to a four-year institution and
major in economics or related fields should consult with a
counselor regarding the transfer process and lower
division requirements.

The English Department offers courses in composition, literature, journalism, creative writing, English as a second-language, and basic skills. These courses are designed to help students develop skills in reading perceptively, thinking critically, and writing effectively. The Writing Center, located in Liberal Arts 201, offers supplemental support to assist students in developing these skills.

In order to be placed into the proper level of composition class, all new students are required to take a placement test and meet with a counselor prior to enrollment. A schedule of test dates is available in the Counseling Center. Test scores as well as other information, such as high school and/or work experience, are used to place students in the proper levels of courses.

Students planning to transfer to a four-year institution and major in English should consult with a counselor regarding the transfer process and lower division requirements.

ENVIRONMENTAL SCIENCE

The goals of the Environmental Science program are to: 1) meet the needs of students who are majoring in one of the diverse fields encompassed by environmental science, and 2) provide options for students fulfilling general education science requirements.

Awareness of the issues of environmental quality is increasingly important in business, industry, and government. The growing human population and increasing consumption of resources are creating unprecedented pressures on our planetary life support systems. Environmental science majors need to complete an interdisciplinary set of core requirements that provide a basic understanding of the physical, biological, and social sciences and the relevance of these sciences to environmental processes and issues. In addition, the coursework will prepare students for related baccalaureate majors, including: biology, chemistry, engineering, geography (including emphasis in geographic information systems (GIS)), geology, mathematics, oceanography, and physics. For non-majors, the program's goal is to educate students to make better-informed choices about key environmental and health issues.

Students planning to transfer to a four-year institution and major in environmental science should consult with a counselor regarding the transfer process and institution-specific lower-division requirements. In upper division and graduate studies, students majoring in environmental science usually specialize in areas such as environmental toxicology, public health, environmental law, education, environmental economics, soil and water science, restoration ecology, environmental landscaping, environmental management and urban planning, and related careers.

The environmental and spatial science of geography examines both physical and cultural landscapes across the Earth. As a spatial science, physical and cultural location and patterns on Earth's surface are central to the study of geography. It includes the study of all forces of nature and the consequences of those forces, with an emphasis on human-environment interactions.  
Specifically, geography integrates multiple natural and social sciences and includes: the nature and interactions of the atmosphere and the land, plants and animals, the Earth's waters, weather, climate, the Earth's dynamic surface, landforms and soil, and the way people have inhabited and altered the Earth by creating various forms of agriculture, language, religion, and cities.  
Courses in geography fulfill the science requirement for the associate degree, prepare the students for majoring in geography at a four-year institution, and supplement other studies for students interested in careers in environmental studies, education, engineering, urban planning, and architecture.  
Students planning to transfer to a four-year institution as a geography major should consult with a counselor regarding the transfer process and lower division requirements.

Courses in the History Department explore the past in a variety of ways. Through a critical evaluation of the causes and significance of events in the past, students of history learn about the individuals, ideas, actions, and events that have shaped our present. History teaches students to think critically and to communicate their ideas in a more sophisticated fashion. It promotes an understanding of cultures and societies from the past while it helps students consider their own identities in the world of today. While the study of history is valuable in its own right, it also serves as a useful preparation for careers in law, public service, journalism, business, medicine, and education.

Students planning to transfer to a four-year institution and major in history should consult with a counselor regarding the transfer process and lower division requirements.

LIBERAL ARTS
ASSOCIATE OF ARTS DEGREE

The Associate Degree in Liberal Arts is designed for students who wish a broad knowledge of liberal arts and sciences plus additional coursework in an "Area of Emphasis". An area of emphasis is ideal for students planning to transfer to the California State University (CSU) or University of California (UC). Students can satisfy required general education requirements, plus focus on transferable coursework that relates to majors at CSU or UC. Students are advised to consult with a counselor for specific information regarding choice of major and transfer university. Students may obtain an Associate of Arts Degree in Liberal Arts by completing a minimum of 60 semester units as outlined below.

It is recommended that students complete either the IGETC or the CSUGE for the general education pattern related to your educational goal. Students are also strongly advised to consult with a counselor relative to required courses for the selected option.

For either the IGETC or CSUGE option, 39-48 units of general education are required.

- Complete 18 units in one “Area of Emphasis” from those outlined below. For depth of study, a minimum of two courses in one discipline is required. (Note: Where appropriate, courses in the “Area of Emphasis” may also be counted for Associate Degree Option #1 or #2.)
- For ALL OPTIONS, complete necessary SBVC graduation and proficiency requirements (Refer to page 30 in the SBVC catalog).
- All classes listed below transfer to CSU. Courses in BOLD are transferable to UC. Refer to www.assist.org for transfer details.
- Courses that include a symbol x in the number such as MUS 141x4 indicate the course may be taken four times for credit. Students may apply each course with a symbol x only one time toward graduation requirements.

Library skills are fundamental to student success, especially in today's information-laden society. The Library Technology Department offers one course (LIB 110) which is designed to teach students how to access both print and on-line information sources more efficiently and effectively. The remaining Library Technology courses are part of an associate of arts degree or a certificate program designed for students who are interested in working as paraprofessionals in the library field. Taken alone, each course provides entry-level exposure to a particular library department or function. Presently-employed library workers can also take courses to increase their level and variety of training in the library field. Courses for the program are rotated over a two-semester sequence.

The Mathematics Department offers course work in all levels of mathematics from arithmetic through differential equations and linear algebra. Students seeking improvement in their basic mathematical skills and those desiring development of advanced mathematical methods can all find meaningful activities in the mathematics program. While there are job opportunities in pure mathematics, there are even more in education, business, engineering, and other technical fields that rely on mathematics. Students planning to transfer to a four-year institution and major in mathematics or a related field should consult with a counselor regarding the transfer process and lower division requirements.

Whatever the vocational goal, students benefit from completing courses in philosophy and religious studies. Nearly everyone is concerned with the kinds of questions and experiences studied in philosophy and religion. Both fields of study are concerned with the nature of reality, truth and value, the human response to death and suffering, and those perennial human questions: Who am I? Why am I here? And where am I going?

Philosophy and religious studies courses require critical analysis, clarity, and understanding. These skills are achieved through careful and close reading of texts, images, and symbols as well as through descriptive and analytic writing. These are invaluable skills transferable to most vocations.

Philosophy and religion courses require the study of diverse and often competing belief systems. This is a challenging and exciting endeavor that can help us make sense of the events taking place in the world around us.

Students planning to transfer to a baccalaureate institution and major in philosophy or religious studies should consult a counselor regarding the transfer process and lower division requirements.

Physics is a fundamental science. It is concerned with finding and using the rules that govern everything—from the smallest pieces of the atom to the various collections of atoms—molecules, balls, planets, stars, and more—that compose the myriad contents of the universe.

Students majoring in physics will be rewarded on a personal level with a deep understanding of the world around us. On a professional level, physicists find a variety of employment opportunities which are relatively free of ethnic and gender bias, pay well, reward creativity, and are just plain fun.

Astronomy is the study of the vast universe around us. We start "will" the earth and sweep outward past the moon to the planets of the solar system and our sun, one of the billions of stars in our galaxy. On our journey through the universe, we explore an exciting realm populated by black holes, quasars, red giants, white dwarfs, and more.

Astronomy is taught in a modern planetarium which accurately simulates the nighttime sky, showing the positions and motions of the stars and planets. The real sky can be viewed through the sixteen-inch reflector telescope in the N. A. Richardson Astronomical Observatory.

Students planning to transfer to a four-year institution and major in either physics or astronomy should consult with a counselor regarding the transfer process and lower division requirements.

There are a variety of reasons why people study real estate. Some wish to become real estate agents, and some people study real estate to be better-informed consumers as they work with agents to buy or sell a personal residence. Still others study real estate as a way to acquire long-term investments that could generate rental income for their retirement years. Whatever the reason, this curriculum provides a strong basis for understanding the real estate market.

The Real Estate curriculum is designed to provide students with the preparation for pre-qualification for the real estate sales or brokers examinations.

Sociology is both a scientific and humanistic discipline. Sociologists examine the systems of social action including single social acts, social relationships, organizations, institutions, communities, and societies. Through analyses of society, its groups, institutions, and processes, sociologists attempt to understand and predict human behavior.

The study of sociology prepares students for further study of and careers in social work, probation, corrections, human services, law enforcement, research, public policy, law and education. COOPERATIVE WORK EXPERIENCE

The concept of issuing college credit for work experience is based on the premise that a student with well defined job-oriented objectives will find his/her work an educational experience. To be effective it must be approached cooperatively and with enthusiasm by the student, the employer, and the college coordinator. The student will gain college credit, a new appreciation of the responsibilities he/she has to his/her employer, greater awareness and improved job skills.

There are two classifications of Cooperative Work Experience Education at San Bernardino Valley College.

• In General Cooperative Work Experience students may earn three units per semester with a maximum of six allowable during their college career; and they need not be enrolled in a related course. Seventy-five hours of paid work experience (or 60 hours volunteer work) equal one unit of college credit.

San Bernardino Valley College offers two formats for Cooperative Work Experience:

• In Parallel Format students take a Cooperative Work Experience class concurrently with other college courses.

• In Alternate Format students alternate between taking a Cooperative Work Experience class one semester and other college courses the previous and/or following semesters.

Units earned through Work Experience do not apply toward units in a major unless such courses are specifically required for a degree in that department. However, course credit earned through work experience can apply as elective units in any associate degree.

Refer to the specific department section of this catalog for a list of specific courses required for a major.

We currently offer Cooperative Work Experience in the following areas:
