# Welcome to San Bernardino Valley College

## *Your future starts here.*

Follow these easy steps that will take you from application to registration.

### STEP 1. APPLICATION (ADMISSIONS)

An application must be completed by all **NEW** students and returning students who have missed one or more terms. You may apply online at <http://www.valleycollege.edu> and click on "Apply For Admission." Upon completion of the application process, you will be sent a **Student Identification Number** by e-mail. This is mandatory for all the other steps of enrollment!

### STEP 2. ORIENTATION

All new students are required to participate in Orientation and Assessment unless specifically exempted from this process. When you submit an application for admission and you have received your SBVC student ID number, you will need to complete the *Student Orientation Session*. This must be completed online at: [www.valleycollege.edu/webadvisor](http://www.valleycollege.edu/webadvisor) located under other services.

College is quite unfamiliar to you as a first semester college student. Orientation to college will dispel most of your unfamiliarity about SBVC. Through orientation, you will know course offerings and services including the expectations set before you, such as, college life and responsibilities as well as the college culture.

### STEP 3. ASSESSMENT

After completing your orientation, you must take the assessment exam for placement into **English, reading and math, or ESL (English as a Second Language)**. To schedule an assessment appointment, please go to: [https://esars.sbccd.org/V\\_AssessmentCtr/eSARS.asp](https://esars.sbccd.org/V_AssessmentCtr/eSARS.asp). You may also visit <http://www.valleycollege.edu/student-services/counseling/assessment> for more information. **Note:** Assessment testing begins promptly at the times designated, so do not be late. You **must** bring your **Student Identification Number** and a **valid photo identification card**. New students must bring a printout or picture of their orientation completion certificate with their name printed on it at time of test.

### STEP 4. COUNSELING

As a new student, meeting with a counselor for an education plan is very important. A counselor is an excellent resource to help you with career choices and to answer questions regarding your educational goal. Counselors will help you find the appropriate courses for your program of study and assist you in creating an Education Plan, as well as, direct you to other student and academic support services. An initial or abbreviated education plan is required for new students to be able to register for classes. For other related information or resources, you may visit: <http://www.valleycollege.edu/student-services/counseling/counseling-services>.

*Schedule a counseling appointment for a two-year comprehensive education plan during a "non-registration" time period. The recommended time is between: September – October or February – March. To maintain priority registration, students must have a comprehensive education plan on WebAdvisor after completing thirty (30) units at SBVC. Counselors are available throughout the Fall and Spring Semesters offering same day appointments on a first-come, first-served basis.*

### STEP 5. REGISTER FOR CLASSES

Follow the advice that you received in Orientation. Use the Education Plan provided to you by the counselor and enroll in the courses that apply to your goal. You may register online through WebAdvisor on or after your priority registration date.

### STEP 6. PAY FEES

Fees can be paid in two ways:

1. Online: [www.valleycollege.edu/](http://www.valleycollege.edu/) → WebAdvisor (by credit card)
2. In person at the Admissions Office.

Read more at [www.valleycollege.edu/samedaypay](http://www.valleycollege.edu/samedaypay). Financial Aid is available to those who qualify. Go to the Financial Aid Office (AD/SS-106) or visit the website at [www.valleycollege.edu/FinancialAid/](http://www.valleycollege.edu/FinancialAid/) for additional information.

Topics include fluid and electrolyte balance and the following body system: integumentary, cardiovascular, lymphatic, respiratory, urinary, endocrine, and reproductive. The course includes dissections of preserved specimens. Associate Degree Applicable Course credit transfers to CSU. Limited transfer to UC; Contact a counselor for details. PREREQUISITE: BIOL 250 and CHEM 101 or CHEM 105.

# DISTANCE EDUCATION

(Online & Hybrid Sections)

## General Information

The Office of Distance Education coordinates all courses which are computer and web based in their delivery are available to the students of Crafton Hills College in Yucaipa and San Bernardino Valley College in San Bernardino. Online and Hybrid courses require accessibility to a computer system with an Internet connection. Some courses require some on-campus meetings. Fees and academic credits are equivalent to traditional classroom courses.

## Office Location

SBCCD Annex  
1289 Bryn Mawr, Suite B  
Redlands, CA 92374  
Telephone: (909) 384-4325 Fax: (909) 885-3035

## Distance Education Website

<http://tess.sbccd.org>

## Requirements for Online Courses

Although each class has its own set of technical requirements, generally online classes require a computer with a "modern" operating system (such as Windows 7 or Mac OSX), a "modern" web browser (such as Internet Explorer, Firefox, Safari, or Chrome), and a reliable connection to the Internet.

## Technical Support

Help Desk, (877) 241-1756

## How to Succeed in a Fully Online Course or Hybrid Course

Successful students claim that determination, planning, and self-motivation are needed to complete a course that lacks the regular meetings of an on-campus structure. Here is a plan of action that might help you.

1. For an online or hybrid course, access the instructor's website to get a copy of the syllabus and learn what is expected of you as a student.  
For a hybrid course, attend the first on-campus meeting to meet the instructor, understand the course goals and requirements, and receive the course syllabus and assignments.
2. Read the study materials related to assignments as presented by the instructor. Take notes and highlight important information.
3. Log in to your online server several times a week to keep up with new messages from the instructor and classmates.
4. Be aware of due dates and do not wait until the last hour to send them.
5. For a hybrid course, formulate a list of questions during your study time to present to the instructor at the on-campus meetings or to post to your online class or call the instructor during his or her scheduled office hours.
6. Form a support group with other members of the class to review and discuss the content of the course.

## Are You a Candidate for an Online or Hybrid Class?

This assessment is provided to help you decide if online or hybrid learning is appropriate for you. This exercise is an indicator but not a definitive answer. The assessment covers two parts: Learning Style and Technical Aspects.

### Learning Style

- Do you stay on task without direct supervision?
- Can you prioritize your own workload and adhere to timelines?
- Do you usually understand and properly interpret written materials, especially instructions?
- Could you allocate as much time in your schedule as you would for a "traditional" class but with more flexibility?
- Are you able to attend some class meetings on campus (less than 6 a semester)?
- Would you enjoy the new experience of learning by way of a computer?

If you answered "YES" to the Learning Style questions, continue to the next section.

### Technical Aspects for ONLINE and HYBRID

- Do you have a computer system available to you that can access the Internet?
- Could you "go online" multiple times a week?
- Have you opened and sent e-mail messages?
- Have you installed a program after "downloading" it from a remote computer to your computer? Do you know how to "copy and paste" text from a word processing document to an email message?

If you answered "YES" to the ONLINE questions, you meet the conditions for online delivery.

### Conditions

Online courses require structure, which you will create for yourself. You will need self-discipline to adhere to your self-made schedule. Much of the material covered in a Distance Education course will require that you learn from reading textbooks, Internet-based articles, and written materials from the instructor.

### Benefits

The beauty of Distance Education learning is the flexibility of time available for you, as the student, to access the virtual classroom or to view TV programs. You can set your class time around your work schedule and family or social activities. You will soon realize the savings normally incurred with driving time and vehicle-related costs. If you take only D.E. courses you won't have to deal with parking constraints on a weekly basis. Plus, there may also be a reduction in childcare costs. You could also benefit by combining D.E. courses with traditional classes. Now it's your choice. Check with an Academic Counselor to determine which classes you need, then see if they are listed in this schedule. Distance Education may not be for everybody. However, for those who are self-motivated, it could prove to be an invaluable experience.

## Are Online Classes right for me?

Online classes require discipline and self-motivation. If you have these qualities, online classes might work for you. Please visit this website for some self-assessment tools to determine whether online classes fit your learning style and your lifestyle:

[http://distance.uh.edu/online\\_learning.html](http://distance.uh.edu/online_learning.html)

*What are the Minimum Technology requirements?*

Although each class has its own set of technical requirements, generally online classes require a computer with a "modern" operating system (such as Windows 7 or Mac OSX), a "modern" web browser (such as Internet Explorer, Firefox, Safari, or Chrome), and a reliable connection to the Internet.

Please see the list of classes below and visit the Universal Access Point (the URL listed in the next paragraph) for specific technical requirements for each section. If you have access to this technology, you probably have the minimum requirements to take the classes listed below, but please check each section for the specific technical requirements.

*What to do after I register for an online or hybrid class?*

The Universal Access Point for information for all online and hybrid classes is:

<http://www.valleycollege.edu/OnlineTrack/uap.php>

Before the semester begins, point your browser to this web page and you will be able to find your online or hybrid class and be linked to all the information you need to begin that class. The information for each online class might be different. So be sure to visit the link for each online and/or hybrid that you have chosen. Do NOT assume that the technical requirements or the processes and procedures for each class are the same.

This Universal Access Point is your gateway for all the information you need to begin your online and/or hybrid classes. In addition, this Universal Access Point will provide you with people to contact if you have further questions about any online and/or hybrid class.

## Non-Discrimination Policy

San Bernardino Community College District and its two colleges, San Bernardino Valley College and Crafton Hills College, are committed to non-discrimination. Federal laws and District policies strictly prohibit all types of discrimination, including sexual harassment and inequities based on race, color, religion, sex, age, marital status, physical disabilities or mental impairments, or sexual orientation. The District's non-discrimination policies are supported by the requirements of Titles VI and VII of the Civil Rights Act of 1964, as amended; Title IX of the education amendments of 1972; the Age Discrimination in Employment Act of 1975; and sections 503 and 504 of the Rehabilitation Act of 1972, as amended; and the Americans with Disabilities Act. San Bernardino Valley College is further committed to overcoming sex discrimination and sex stereotyping in vocational education programs. In addition, the lack of English language skills will not be a barrier to admission and participation in vocational education programs.

Pursuant to the above-mentioned legal requirements that a grievance process be available to students, the DSP&S office in consultation with the Office of Civil Rights (OCR) has been advised that SBVC's current grievance policy meets this requirement. **In a college environment there is**

**not an ADA requirement for a separate grievance or appeal process for 504 plans or accommodations.** The requirement is that a college has a complaint process, a discrimination process, a hearing or grievance process, and a way to appeal a decision. If a student feels that he/she has been discriminated due to a disability, he/she may refer to the SBVC catalog which covers our non-discrimination policy and the appeal process and/or the process to file a complaint. The processes are covered on the following webpage as well as in the SBVC Catalog:

<http://www.valleycollege.edu/academic-career-programs/college-catalog>.

Additionally, the Student Grievance and Discrimination processes appear on the websites for DSP&S and Student Life:

<http://www.valleycollege.edu/student-services/specialized-counseling-services/disability-services>  
and  
<http://www.valleycollege.edu/current-students>

A hardcopy of this document is also available in the form of a flyer in both the offices of DSP&S and Student Life.

One of the benefits of having a formal grievance process is that a student can get an issue resolved before it gets to the OCR. The OCR looks favorably on colleges that have allowed a student to go through a formal process before a complaint reaches its desk. It demonstrates a student-centered best practices approach.

As mentioned above, the DSP&S office has contacted OCR to verify that our processes meet ADA and Section 504 requirements for providing access to our educational programs. Students who wish to file a complaint with the OCR are encouraged to do so by contacting:

US Department of Justice, 950 Pennsylvania Avenue, NW  
Civil Rights Division  
Disability Rights Section, NYAV  
Washington, D.C. 20035-6738  
(800) 514-0301 (Voice)  
(800) 514-0383 (TDD)

#### **Pass/No Pass**

Students who wish to be graded in any class on a Pass/No Pass basis must file the appropriate form in the Admissions & Records Office (AD/SS Building, Room 100). The paperwork must be filed no later than the end of the first 30% of the course. Once Pass/No Pass has been selected as a grading option, a letter grade (A-F) cannot be issued.

#### **Prerequisites, Corequisites, Departmental Advisories, and Limitations on Enrollment**

Course information in this schedule of classes may include a prerequisite, corequisite, departmental advisory and/or other limitations on enrollment. A prerequisite is a course or skill that must be completed prior to enrolling in the course. A corequisite is another course that must be taken during the same semester as the course in which you would like to enroll. A departmental advisory is not required, but is a suggested course that would be helpful for you to have completed prior to enrolling.

Students may challenge a prerequisite or corequisite on one or more of the following grounds:

- The student can demonstrate that he/she has the knowledge or ability to succeed in the course or program despite not having satisfied the prerequisite or corequisite.
- The student will be subject to undue delay in attaining his/her educational goal as outlined in his/her student education plan because the prerequisite or corequisite course has not been made reasonably available.
- The prerequisite or corequisite is unlawfully discriminatory or is being applied in a discriminatory manner.
- The prerequisite or corequisite has not been established in accordance with the District's approved process for establishing prerequisites or corequisites or was established in violation of Title V.

It is the student's responsibility to provide documentation to support the challenge. The challenge must be filed in the appropriate Academic Division Office no later than the first week of class. The college will process the challenge within five working days and the student will be advised of the approval or denial. For more information on challenging a prerequisite, call staff or faculty in the Counseling Office at (909) 384-4404.

#### **Probation and Dismissal**

A student will be placed on Academic Probation when his/her current cumulative grade point average following completion of 12 or more units falls below 2.0. A student will be placed on Progress Probation if, following completion of 12 or more units, he/she receives non-evaluative symbols of "W," "I" and/or "NP" in 50% or more of the units in which he/she has enrolled. A student on Academic or Progress Probation may be dismissed for one semester when one or more of the following conditions exist:

- The student has earned a cumulative grade point average of less than 2.0 for three consecutive semesters.
- The student has received non-evaluative symbols of "W", "I" and "NP" in 50% or more of the units for which he/she was enrolled for three consecutive semesters.
- The student has been on Academic and/or Progress Probation for three consecutive semesters.

Students experiencing problems in any class are encouraged to consult with the instructor and a counselor.

#### **Repeating a Course**

Beginning in summer 2012 and in compliance with new Title 5 regulations, SBVC students who are attempting to improve a substandard grade in a non-repeatable course will be limited to three enrollments in that course, including any enrollments which took place prior to Summer 2012.

For example, if a student initially enrolled in MATH 095 and earned an F, then later enrolled in MATH 095 and withdrew, and again enrolled in MATH 095 and earned a D, that student would no longer be allowed to enroll in MATH 095. Contact the Admissions/Records Office in AD/SS 100 with specific questions.

### **Title IX – Sexual Harassment and Unlawful Discrimination**

The U.S. Department of Education's Office for Civil Rights (OCR) enforces, among other statutes, Title IX of the Education Amendments of 1972. Title IX protects people from discrimination based on sex in educational programs

or activities that receive Federal financial assistance. Title IX states that:

No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

Beginning July 1st, 2015 the OCR requires that all students and employees to participate in annual Title IX training and awareness of unlawful discrimination. OCR vigorously enforces Title IX to ensure that institutions that receive federal financial assistance comply with the law. OCR evaluates, investigates, and resolves complaints alleging sexual harassment and/or unlawful discrimination. OCR also conducts proactive investigations, called compliance reviews, to examine potential systemic violations based on sources of information other than complaints.

San Bernardino Community College District does not discriminate on the basis of age, color, creed, religion, disability, marital status, veteran status, national origin, race, sex, sexual orientation, gender identity or gender expression. The college has a detailed Title IX brochure available. To file a Title IX complaint, contact the Title IX Administrator, Ricky Shabazz, Vice President of Student Services, at [rshabazz@valleycollege.edu](mailto:rshabazz@valleycollege.edu) or (909) 384-8992.
