ADJUS-154: Control and Supervision in Corrections

This course provides an overview of the operational procedure and policies for inmate and client custody and supervision within local, state, and federal correctional and detention facilities.

Discussion and analysis of the relationships between and among correctional officers and staff, administration, inmates, clients, victims, and communities are investigated with special emphasis on impact of diversity issues. (Formerly CORREC 104)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided Self-Placement process.

Formerly: CORREC-104.

ADJUS-156: Probation and Parole

This course is a study of the historical and contemporary view of the application of probation and parole procedures in the criminal justice system. The impact of SB 823, abolishing the Division of Juvenile Justice (DJJ), and in SB 92 which institutes county realignment for previous DJJ youth is examined. This course material will broaden the student concept of community corrections and the rights and liabilities of a person on probation or parole. (Formerly CORREC 106)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided Self-Placement process.

ASL-110: American Sign Language II

The course is second in a series of four ASL courses designed for the student to develop proficiency in ASL usage. Students continue to develop basic conversational skills with emphasis on expanding vocabulary and comprehension/production skills. There are four basic categories: cultural awareness, grammatical features, vocabulary development, and conversational skills.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ASL 109.

ASL-111: American Sign Language III

Students continue to develop conversational skills in American Sign Language and expand their vocabulary and grammar of ASL. Students review primary issues in deaf culture and strengthen their understanding of deaf awareness. Emphasis is on idiomatic constructions as well as comprehension and production skills.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ASL 110.

Architecture

ARCH-102: Digital Design Media Level I

This course introduces students to the fundamentals of representing architectural design. The class focuses on architectural drawing conventions, and uses standard architectural software to draft, document, and represent a three-dimensional design through two-dimensional drawings. Attention is drawn to the relationship between technical and presentation drawings, and the course explores and analyzes architectural presentation principles and techniques. This class introduces students to Adobe CS and AutoCAD software.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

ARCH-104: The Built Environment: Culture, Profession, and Urbanization

This course surveys the built environment throughout history and across different cultures and geographies worldwide. Emphasis is on the role of architecture, and allied disciplines such as urban design and planning, in enabling colonial expansion and domination of non-western cultures. This historical survey ends with an assessment and understanding of contemporary architectural practice, along with licensing pathways and academic and professional trajectories.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

ARCH-105: Design Theories, Methods, and Visualizations

This course introduces students to the process of architectural design, exploring the built environment through different media and activities that address distinct design approaches. It includes studies of various representation techniques, media, and processes to express different design philosophies, and an introduction to the tools, techniques, and methods relevant to the design process. The course introduces students to the various scales of architectural intervention, from the dimensions of the human body all the way to the territory of the city.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

ARCH-106: Sustainability in the Built Environment

This course provides an interdisciplinary overview of sustainability theory and practice, focusing on their expression in the built environment from a humanities perspective. Drawing from philosophy, history, literature, aesthetics, religion, and cultural studies, this course examines how sustainability principles have guided the built environment throughout history and how different cultures across eras, geographies, and climatic regions have interpreted and implemented these strategies. Students will explore how sustainability is measured, valued, and understood by both Western and non-Western societies, including Indigenous cultures, through philosophical, ethical, and cultural lenses. Key topics include energy, infrastructure, environmental economics and policy, ethics, and cultural history.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ARCH-107: Urban Planning: Shaping Communities through Design

This comprehensive course describes how urban planning and design influence community development. Students will explore essential concepts such as land use, zoning, and environmental sustainability, learning how effective design contributes to creating livable, resilient, and inclusive communities. The course combines lectures, case studies, and hands-on projects, focusing on innovative strategies to address contemporary urban challenges, notably climate change and social equity. Students will gain insights into the transformative role of design in urban planning and will acquire skills to positively impact sustainable and people-centered community development.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ARCH-112: Design Studio I

This introductory architecture design studio course focuses on design process, including the perceptual and physical study of space from conceptualization and form-making to visualization and presentation. Emphasis on design process includes site analysis of environmental, contextual, and cultural aspects of space, design, and the urban environment. Design investigations will focus on a small residential building for a single client that challenges students to consider the environmental and social impact of their design.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ARCH 105.

Departmental Recommendation: ARCH 102.

ARCH-202: Digital Design Media Level II

Building Information Modeling (BIM) is examined relative to Integrated Project Delivery methods as pertains to collaboration and communication in the design and construction of buildings and building systems. Building construction methods and materials are examined through case studies to explore the means and techniques applied to the material execution of buildings and BIM. Focus on an understanding of the organization of the design and construction process and awareness of building and zoning codes, material systems and types. This class builds on student's existing knowledge of Revit, furthering their skills in BIM and design coordination.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite: ARCH 103.

ARCH-212: Design Studio III

This upper-level architectural design studio focuses on the principles and applications of environmental design in relationship to architecture, landscape architecture, and urban design and planning. The course emphasizes how sustainability and environmental considerations can be an integral part of the design process, and teaches the applicability and relevance of those considerations for questions of climate justice and equity. Design investigations will focus on a series of a multi-unit housing complex or mixed-use building on an urban site in the San Bernardino or Los Angeles region.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ARCH 113.

Note: 14 week class from 09/03/25 to 12/10/25.

Note: This is a HYBRID class. This means that there are both on-campus and online Internet activities required. To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

ART-124C: Advanced Drawing

This class focuses on how to develop an original body of drawings in various subjects, media and surfaces that reflects knowledge of advanced drawing techniques with a focus on preparing their portfolio for upper division courses at the university and college level and display in the gallery environment. Typical subjects covered in this class will include developing a body of original artwork that expresses the students personal style, portfolio development for upper division coursework, gallery preparation, presentation of finished artwork with appropriate matting and framing, and writing a formal artist statement.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 124B.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ART-126A: Beginning Painting

The course is a progressive study of the fundamentals of painting and painting materials including techniques of composition, color theory, brushwork, and technique, as well as creative responses to materials and subject matter. Topics include the appropriate use of traditional color theory with artistic brush application on prepared surfaces.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ART-132A: Beginning Life Drawing

The course is an introduction to drawing the human figure and anatomy from observation using a wide variety of drawing media and techniques. Topics include an introduction to human anatomy, contour, proportions, gesture, and the historical and contemporary roles of figure drawing in the visual arts. Students in this course will learn both descriptive and interpretive approaches to drawing the figure. Drawings are based on a live nude model.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Note: 14 week class from 09/03/25 to 12/10/25.

ART-132B: Intermediate Life Drawing

This course is a review of essential concepts of figure drawing and development of intermediate-level figure drawing skills with an emphasis on accurate analysis of anatomy, essential structure and further use of traditional and non-traditional drawing materials and surfaces. The student will develop a portfolio of completed figure drawings with an emphasis on the study of advanced compositional concerns. Drawings are based on a live nude model.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 132A.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Note: 14 week class from 09/03/25 to 12/10/25.

ART-132C: Advanced Life Drawing

This course is a continuation of Art 132B. In this class students will develop an original body of life drawings in various media and surfaces that reflect their knowledge of advanced life drawing techniques with a focus on preparing their portfolio for upper division courses at the university and college level and display in the gallery environment. Typical subjects covered in this class will include developing a body of original artwork that expresses the students personal style, portfolio development for upper division coursework, gallery preparation, presentation of finished artwork with appropriate matting and framing, and writing a formal artist statement. Drawings are based on a live nude model.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 132B.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Note: 14 week class from 09/03/25 to 12/10/25.

ART-144: Typography and Visual Communication

This course is an introduction to the study of letter forms and fundamental typographic principles and vocabulary with an emphasis on the application to visual communication artifacts. Students investigate typographical structure, format, legibility, and meaning-making through traditional and digital projects, and explore the evolution and classification of letter forms from an historical perspective, including the importance of emerging technology in their development.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ART 148.

ART-148: Fundamental Graphic Design Principles and Digital Practices

This course is an introduction to the fundamental concepts, principles, practices, and theories applied to the creation of compositional space. Students will explore the integration of design elements and principles, color theory, composition, typography, visual communication, and visual logic, as they relate to design disciplines and professional practices.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

ART-149: Design Thinking in Visual Communication

This course applies design and production techniques in the development of ideas and user-centered

concept visualizations with an emphasis on utilizing more advanced software. Students will explore complex problems utilizing the Design Thinking methodology, including empathy, define, point of view, ideate, rapid prototype, and test, in the creation of 2D and 3D artifacts.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 148.

ART-161: Digital Photography

This introductory course focuses on photography as a creative medium. Emphasis in the course is on aesthetics, composition, content, technical and creative skills required to make effective images using digital cameras and computer software. Students also critically evaluate photographic images according to the principles of photographic theory. Students will supply their own camera.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Note: The DE-LEC part of this class requires 2.25 hours per week of online instruction.

Note: The DE-LAB part of this class requires 3.37 hours per week of online instruction.

Note: This is a fully online class. Students must have access to Adobe Photoshop. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes. [Canvas Log In Page](#)

ART-175A: Beginning Sculpture

This course is an introduction to three-dimensional sculptural principles, techniques, and concepts utilizing a wide range of materials and practices. Various sculpture methods are practiced with attention to creative self-expression and historical context.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

ART-175B: Intermediate Sculpture

This course is the study of intermediate level sculpture techniques relating to three dimensional composition, spatial relationships, and imagery, with a focus on modeling techniques in clay and mixed media construction. A continued focus of attention to creative self-expression within both a historical and contemporary context is emphasized.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 175A.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

ART-175C: Advanced Sculpture

This course focuses on how to develop an original body of sculptural objects that reflects knowledge of advanced sculptural techniques. Students prepare their portfolio for upper division courses at the university and college level and display in the gallery environment. Typical subjects covered in this class will include developing a body of original artwork that expresses the students' personal style, portfolio development for upper division coursework, gallery preparation, and writing a formal artist statement.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 175B.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ART-212B: Intermediate Ceramics

This course builds on and extends skills and abilities students gain from the introduction course. Emphasis is placed on projects that require students to collaborate and explore a wide variety of topics. Students will use methods and fabrication techniques that are focused on production and have commercial applications.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 212A.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ART-212C: Intermediate/Advanced Ceramics

This course focuses on the science of ceramic art. Students will study, classify, and understand information/data related to the history and chemistry of clay and glazes. They will learn classic methods of compounding glazes by mathematical and chemical calculation; deducing facts and basic principles essential to glaze analysis of constituent materials. Under supervision students will experiment, assess and gain knowledge that applies to the maintenance, operation, and controlled results of firing kilns.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 212B.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ART-212D: Advanced Ceramics

This course examines ideas, activities, and circumstances that lead to pre-professional ends with an emphasis on developing a personal style and artistic vision. Demonstrations of advanced levels with a focus on portfolio development along with studio operations will be explored. This course is designed for the advanced student who is motivated to pursue a professional path. A written analysis of a current ceramic exhibition is required.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

ART-240D: Advanced Glassblowing

This course is an advanced study of glassblowing techniques. This class uses glass as an integral part of the artistic vision. Students will observe demonstrations and work both individually and within groups to develop a body of work. Emphasis is on exploration, personal narrative, both traditional and non-conventional glassblowing methods, installations, etc.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ART 240C.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ART-270A: Beginning Design in Glass

This course is a study of beginning glass-working techniques. Topics include producing functional, decorative, and sculptural forms in kiln-fired glass; composition in two dimensions using

fusion/lamination of colored glass elements; and lampworked beads.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Astronomy

ASTRON-120: Introduction to Astronomy

This is an introduction to astronomy, the ultimate adventure. Our very big universe can be described by a small set of knowable rules through a logical method called science, where the excitement of an evolving and sometimes violent universe of stars and galaxies is explored. Topics include the night sky, motions of the Sun, the Moon, and the planets, light, properties and life-cycles of stars with a detailed look at our Sun, galaxies, and the origin of the universe.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

ASTRON-125: Astronomy Laboratory

This course is the companion course to ASTRON 120 Introduction to Astronomy. Laboratory work provides a hands-on enrichment and deeper understanding of topics discussed in the astronomy lecture. Topics include use of star maps, identification of constellations, determination of orbits, rotation rate, and mass of celestial objects using astronomical methods of observation and analysis. Students will also perform 3-D modeling of the solar system and constellations, study the nature of

light, lenses and telescopes, make some direct observations with telescopes, and utilize astronomical software.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: ASTRON 120.

Automotive Technology

AUTO-010: Introduction to Hybrid and Electric Vehicle Technology

This course explores the use of hybrid and electric battery power for vehicle transportation. Topics will include safety when using high voltage, maintenance, drivability, inverter, AC/DC power transfer and battery technology, physics of battery storage and hybrid generation systems. Electric vehicle applications and their integrated systems from many manufacturers will be discussed.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Note: This is a HYBRID class. This means that there are both on-campus and online Internet

activities required. To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

Biology

BIOL-100: General Biology

This is an introductory course that explores biological concepts in our everyday lives as they are closely connected to racial, sociocultural, health, and environmental issues.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

BIOL-155: Introductory Anatomy and Physiology

This course is a one-semester introduction to human anatomy and physiology. The course is intended to meet the prerequisite for students entering allied health technician programs or general education requirements of a life science course with a laboratory.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

BIOL-205: Cell and Molecular Biology

This course is an introduction to cellular and molecular aspects of biology emphasizing principles of scientific process, evolution by natural selection, prokaryotic and eukaryotic cell structure and function, classic and modern genetics, and concepts that integrate cellular with organismal activities. Experimental design concepts and application are emphasized in the laboratory. This is the first semester of three introductory biology courses for the pre-professional, biology major, environmental science or others interested in an in-depth study of biology.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

BIOL-207: Evolutionary Ecology

This course is an introduction to the principles of evolution and the ecological processes governing organisms and populations. The course requires participation in and completion of a field project and participation in weekend field trips and outdoor classroom (Living Lab Garden and Oak Garden) activities. This course is part of three introductory biology courses for the pre-professional, biology major, environmental science or others interested in an in-depth study of biology.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: BIOL 205 and eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

BIOL-222: Independent Study in Biology

Students with previous course work in biology may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Biology. Prior to registration, a contract must be prepared. See instructor for details.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Repeatability: This course may be taken for a maximum of 3 units.

BIOL-250: Human Anatomy and Physiology I

This is the first semester of a two-semester sequence that introduces students to the basic concepts and principles of human anatomy and physiology. This course provides a foundation for pre-allied professional majors or others interested in the advanced study of human biology. Topics include inorganic and organic chemistry, body orientation and organization, cytology, histology, fluid and electrolyte balances, and the following systems: nervous, skeletal, muscular, nervous, digestive system, and metabolism. Course includes dissections of preserved specimens.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: BIOL 100 and ENGL C1000 or ENGL C1000H.

BIOL-251: Human Anatomy and Physiology II

This is the second semester of a two-semester sequence that introduces students to the basic concepts and principles of human anatomy and physiology. This course provides a foundation for pre-professional majors or others interested in the advanced study of human biology. Topics include fluid and electrolyte balance and the following body system: integumentary, cardiovascular, lymphatic, respiratory, urinary, endocrine, and reproductive. The course includes dissections of preserved specimens.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: BIOL 250.

Departmental Recommendation: BIOL 100 and CHEM 101 or CHEM 105.

BIOL-260: Human Anatomy

This is a comprehensive lecture/laboratory course in human anatomy. It is organized to explore the body both regionally and systemically. The course studies gross anatomy with an extensive dissection of the cat and other significant organs. Relevant comparisons to human systems and structures are emphasized in the laboratory portion of the course. Histological and cellular anatomy are included as they apply to various structures and systems.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: BIOL 155.

BIOL-261: Human Physiology

This course is the second semester of a two-semester sequence. It builds on an understanding of structure to explain the dynamic functions of the human body to a cellular level. Topics include physiology of the following systems: muscular, skeletal, nervous, endocrine, cardiovascular, respiratory, digestive, urinary, and reproductive. Homeostatic mechanisms and the interrelationships of body organ systems are emphasized and enhanced with clinical illustrations.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisites: BIOL 260 and CHEM 105 or CHEM 101.

Departmental Recommendation: BIOL 100.

BIOL-270: Microbiology

This course is a formal introduction to and exciting exploration of the fundamental principles and techniques of microbiology and immunology. Attention is given to the morphology, control, metabolism, and genetics of microorganisms. Emphasis is placed on the pathogenesis of and immunity to infectious diseases.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: CHEM 101 or CHEM 105.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

CHEM-104: Introduction to Organic Chemistry and Biochemistry

This course is an introduction to the bonding, naming, structure, and chemical and biomolecular properties for different classes of organic compounds and biomolecules, with a focus on their cellular, medicinal and industrial importance.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: CHEM 101.

CHEM-105: Introduction to General, Organic and Biochemistry

This course provides a foundation for the concepts of general, organic, and biochemistry for students who wish to pursue allied health fields such as nursing. Some of the areas studied include the physical and chemical properties of common elements and compounds, the SI system, measurements and conversions, atomic structure, the periodic table, chemical equations and calculations, gases, solutions, electrolytes as well as an introduction to the bonding, naming, structure, and chemical and biological properties for different classes of organic compounds and biomolecules, with a focus on their cellular, medicinal and commercial importance.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

CHEM-150: General Chemistry I

General Chemistry I is first-semester college-level chemistry with an emphasis on the mole concept, thermochemistry, atomic and molecular structure, the relationships of intramolecular and intermolecular forces to chemical and physical properties, the periodic table, organic chemistry, and solids, liquids and gases.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisites: CHEM 101 or CHEM 105.

Corequisite: MATH 102 or placement into MATH 102 based on the SBVC Guided-Self Placement process.

CHEM-151: General Chemistry II

General Chemistry II is the second half of a two-part sequence in chemistry with an emphasis on thermodynamics, chemical equilibrium, chemical kinetics, nuclear and electrochemistry. This course prepares students for future courses and careers in chemistry, physics, biology, health sciences, and the earth sciences.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: CHEM 150 and MATH 102 or MATH 151 or placement into MATH 250 based on the SBVC Guided-Self Placement process.

CHEM-212: Organic Chemistry I

This course examines the properties, synthesis, and reactions of organic compounds, those that contain carbon, which includes many important modern materials, such as plastic and pharmaceuticals. It also provides the foundational background to later learn about the chemistry of biological systems.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: CHEM 151.

CHEM-213: Organic Chemistry II

The second semester of organic chemistry continues the study of carbon compounds including aliphatic, aromatic and heterocyclic series, theoretical concepts, instrumentation, mechanisms, synthesis and functional groups. Laboratory includes preparation and study of properties, and extensive identification of organic compounds.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: CHEM 212.

Child Development

CD-075: Family Child Care Practices

This course is designed to meet the specific needs of the family child care provider. The emphasis is on learning licensing regulations, good business practices, age appropriate curriculum, healthy environments, positive guidance, and basic child development. Other topics include creating partnerships with parents, maintaining health and safety and working with children from diverse backgrounds, including children with special needs and disabilities.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: READ 100.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes

CD-105: Child Growth and Development

This course examines the progression of development in the physical, cognitive, social and emotional domains and identifies developmental milestones for children from conception through adolescence. There is an emphasis on interactions between biological processes and environmental factors. Students observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

CD-105H: Child Growth and Development - Honors

This course examines the progression of development in the physical, cognitive, social and emotional domains and identifies developmental milestones for children from conception through adolescence. There is an emphasis on interactions between biological processes and environmental factors. Students observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ENGL C1000 or ENGL C1000H.

CD-109: Childhood Stress and Trauma

This course provides a comprehensive overview of theories, concepts and issues related to childhood stress and trauma. Emphasis is on the short-term and long-term effects that stress and trauma have on the physical, cognitive, language, social and emotional stages of a child's development. Students are introduced to child behavior patterns and potential responses to stress and trauma. Students examine research and innovative methods that support a child's coping skills and healing process. This course is designed to help early childhood practitioners and parents understand how children react and adapt to stress and trauma and to learn strategies to support and care for children.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H or READ 100.

Note: This is an online synchronous class with no on-campus meetings. Participation in this class requires the student to log in and be present for lecture on Wednesdays from 6:10pm-9:20pm. In addition, students will be required to complete online instructional content via Canvas. On the first day of class students must log into Canvas to access this course and receive initial information from the instructor (typically located on the announcement page of the course).

CD-111: Observation and Assessment in Child Development

This course covers the appropriate use of a variety of assessment and observation strategies to document young children's development and learning. The use of findings to inform and plan learning environments and experiences are emphasized. Recording strategies, rating systems, portfolios, and multiple assessment tools are discussed, along with respectful strategies for collaboration with diverse families and professionals. This course requires a minimum of 15 hours observing children.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite/Corequisite: CD 105 or CD 105H.

Departmental Recommendation: ENGL C1000 or ENGL C1000H or READ 100.

CD-205: Child Development Practicum / Field Experience

Students learn teaching skills through the demonstration of developmentally appropriate early childhood program planning and teaching competencies under the supervision of ECE/CD faculty and other qualified early education professionals. Students utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Reflective practice will be emphasized as student teachers design, implement, and evaluate approaches, strategies, and techniques that promote development and learning. This course also includes exploration of career pathways, professional development, and teacher responsibilities.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite: CD 105 or CD 105H and CD 113 and CD 114 and CD 126.

CD-215: Early Intervention and Inclusion Internship

This course provides a supervised internship as an assistant in an early intervention or inclusion setting with children from birth through eight years. It explores the unique development and guidance of infants, toddlers and young children with disabilities and other special needs. Adaptation of curriculum, natural environments, identification and assessment are discussed.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite: CD 105 or CD 105H and CD 244.

Departmental Recommendation: ENGL C1000 or ENGL C1000H or READ 100.

Communication Studies (COMM)

COMM-111: Interpersonal Communication

Interpersonal communication examines the dynamics of the communication process within the context of interpersonal relationships (those with friends, families, romantic partners, professionally and co-workers). Influences of self-concept, perception, listening, verbal and non-verbal communication, and emotional expression are explored. Principles of professional and romantic relationship development, communication climate, self-disclosure, and conflict management are also discussed. Rhetorical, theoretical, and practical skills are also developed and practiced, with faculty supervision/evaluation in a variety of ways. (Formerly COMMST 111)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

Alternate Listing: This course is also offered as COMM-111H.

COMM-111H: Interpersonal Communication - Honors

Interpersonal communication examines the dynamics of the communication process within the context of interpersonal relationships (those with friends, families, romantic partners, professionally and co-workers). Influences of self-concept, perception, listening, verbal and non-verbal communication, and emotional expression are explored. Principles of professional and romantic relationship development, communication climate, self-disclosure, and conflict management are also discussed. Rhetorical, theoretical, and practical skills are also developed and practiced, with faculty supervision/evaluation in a variety of ways. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work. (Formerly COMMST 111H)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

Alternate Listing: This course is also offered as COMM-111.

COMM-174: Intercultural Communication

This course focuses on the communication behaviors and values common to all cultures and ethnic groups and on the differences that insulate and divide people. Students will examine influences on the communication process, including aspects such as stereotyping, perception, prejudice, values and expectations. Students will learn to overcome the communication problems that can result when members of other cultures communicate by evaluating their own intercultural communication patterns and learning skills to increase their effectiveness. Students will also acquire a greater appreciation for others. (Formerly COMMST 174)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

Formerly: COMMST-174.

CIT-091: Introduction to Networks (CCNA - Cisco Networking Academy)

This first course in a three-course CCNA series introduces architectures, models, protocols, and networking elements - functions needed to support the operations and priorities of Fortune 500 companies to small innovative retailers. Students will have the chance to build simple local area networks (LANs). Developing a working knowledge of IP addressing schemes, foundational network security, students will be able to perform basic configurations for routers and switches. After completing all three CCNA courses, students are ready to take the CCNA Certification.

Credit Type: Earned units for this course are applicable to an Associate Degree.

CIT-610: AI Basics

This course introduces the foundational concepts and applications of Artificial Intelligence (AI), covering topics such as the origins and evolution of AI, its impact on society, and various practical uses. By the end of the course, students will gain a fundamental understanding of AI and be able to apply selected AI tools in real-world contexts.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

CIT-611: Introduction to AI Tools

This course provides an introduction to foundational Artificial Intelligence (AI) tools and practical techniques for using them effectively. Students will explore various AI platforms, including Generative AI, Axio AI, Perplexity AI, Gemini AI, and ChatGPT, among others. By the end of the course, students will be able to evaluate and select the most suitable AI tool for a range of real-world scenarios.

Credit Type: Noncredit course.

Computer Science

CS-075: Introduction to Web Development

This course focuses on web development and addresses the essentials for skilled web developers who can create digital media, web, and mobile applications for modern desktop and portable devices. Students in this program are offered an in-depth, project-driven curriculum that provides a comprehensive study of HTML, CSS, JavaScript, Web Animation, Multimedia Creation. Students will learn to develop visually aesthetic, user friendly, and interactive web-based applications. Students will also gain valuable experience using front end and backend development tools like Adobe Dreamweaver, Adobe Animate, and Visual Studio. Students will also be exposed to the programming languages that cross over from web development to mobile device development. The synergy between the many web and mobile technologies will help each student build a foundation suitable for professional content.

Credit Type: Earned units for this course are applicable to an Associate Degree.

CS-077: Introduction to C-Sharp

This course is an introduction to C# (C Sharp) app development. C# is a sophisticated and type-safe object-oriented language that empowers developers to build a variety of secure and robust applications that run on the .NET Framework. Topics will include fundamental object-oriented programming concepts like loops, arrays, logic, debugging, database, using the C# languages in a game development environment, files, and game development.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

CS-100: Advanced C-Sharp Programming

This course is the advanced C-Sharp course designed to further the learner's C-Sharp and programming knowledge beyond the Introductory level. Advanced programming using C-Sharp .NET is designed to emphasize software development, whether it is part of game development, web technologies, cloud computing technologies, Internet of Things (IoT), educational solutions, and innovative, original ideas conceived in the process of learning. Topics include object-oriented design, class(object) development, interfaces, design patterns, database access, and utilities.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

CS-110: Fundamentals of Computer Science

This course is an overview of the computer science discipline investigating the design and use of the computer devices, the art and science of problem solving and programming, the representation of

data, human-computer interactions and ethical considerations, and information security principles. Also included is hands-on experience with command line and GUI operating systems; application of HTML, CSS, and scripts to web pages; and computer programming with an object-oriented language such as C++, Java, or C#.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

CS-170: Assembly Language

This course focuses on the organization and behavior of computer systems at the assembly-language level. The mapping of high-level language statements and constructs to machine-level instructions and internal representation of common data types and simple structures is studied including the methods of numerical computation with assembly language constructs emphasizing common pitfalls associated with data representation and procedural errors encountered during the creation of machine language routines. This course includes hands on experience creating assembly language programs.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

DANCE-101A: Beginning Modern Dance

This course focuses on the "inner impulse" of modern dance and draws upon the movement vocabularies of classical, post-modern, and contemporary styles. A strong emphasis is placed on the acquisition of beginning modern dance movement vocabulary, dynamic alignment, and suppleness, flexibility, rhythmically, musicality, endurance and balance.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4044	01	2.00	-M-W---	11:20A - 02:30P	LAB	GYM	214	Townsend,M

DANCE-101B: Beginning/Intermediate Modern Dance

This beginning/intermediate level of Modern Dance utilizes the basic knowledge of beginning modern dance techniques to increase the movement vocabularies of classical, post-modern, and contemporary styles. Students will utilize a higher level of codified modern dance terminology and combinations, which are essential to move forward in modern dance.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: DANCE 101A.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4046	01	2.00	-M-W---	11:20A - 02:30P	LAB	GYM	214	Townsend,M

DANCE-102A: Intermediate Modern Dance

This course offers an intermediate study of modern dance techniques. It will include movement vocabularies of Graham, Horton, Cunningham, Limon and the post modern and contemporary styles of today. Emphasis is on expanding and deepening the dancer's technical and expressive skills through more complicated techniques, combinations and improvisations. Concert and performance is required.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4048	01	2.00	-M-W---	11:20A - 02:30P	LAB	GYM	214	Townsend,M

DANCE-102B: Intermediate/Advanced Modern Dance

This course explores further the development of modern dance skills, techniques and vocabulary developed in beginning through intermediate modern dance. An in-depth emphasis is placed on increased flexibility and endurance, clarity of technique, rhythm, time, form and energy through choreographic and improvisational exercises and combinations. Concert attendance and performance is required.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: DANCE 102A.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4050	01	2.00	-M-W---	11:20A - 02:30P	LAB	GYM	214	Townsend,M

DANCE-103A: Beginning Ballet

This course is an introduction to basic ballet technique emphasizing ballet etiquette, terminology, placement, and alignment, warm-up and injury prevention; body conditioning principles as they relate to ballet technique, flexibility and strengthening exercises, basic barre, basic center floor, and traveling combination exercises.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4052	01	2.00	-M-W---	02:40P - 05:50P	LAB	GYM	214	Townsend,M

DANCE-103B: Beginning/Intermediate Ballet

This course will utilize the knowledge learned in Beginning Ballet to become more proficient in ballet technique by using higher level codified ballet terminology, utilizing placement, alignment, expanding and more complex warm-up technique, basic barre, basic center technique, increasing flexibility, furthering strengthening exercises and more complex traveling combination exercises as it relates to this level of ballet, while reviewing cumulative ballet technique for higher levels of ballet.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: DANCE 103A.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4054	01	2.00	-M-W---	02:40P - 05:50P	LAB	GYM	214	Townsend,M

DANCE-105A: Beginning Jazz Dance

This course is an introduction to the beginning techniques of Jazz Dance with a focus on movement vocabulary, placement, centering, balance, alignment, strength, flexibility, and across the floor progressions.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4056	01	2.00	-M-W---	08:00A - 11:10A	LAB	GYM	214	Airmet,T

DANCE-105B: Beginning/Intermediate Jazz Dance

This course is a continuation and advancement of beginning level techniques with an additional introduction of intermediate techniques. These techniques collectively enable the student to demonstrate an increased ability to execute proper placement, alignment, balance, strength, flexibility, and across the floor progressions of dance movement.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: DANCE 105A.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4058	01	2.00	-M-W---	08:00A - 11:10A	LAB	GYM	214	Airmet,T

DANCE-106A: Intermediate Jazz Dance

This course provides a continuing study of jazz dance techniques at the intermediate level including the styles and techniques of Jack Cole, Jerome Robbins, Frank Hatchett, Bob Fosse, Katherine Dunham, and more. Focus is given to the development of the dancer's technical and expressive skills, as well as historical and theoretical understandings of jazz technique for film, television, and stage. Public performance is required for this class.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: DANCE 105B.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4060	01	2.00	-M-W---	08:00A - 11:10A	LAB	GYM	214	Airmet,T

DANCE-106B: Intermediate/Advanced Jazz Dance

This course provides a continuing study of jazz dance techniques at the intermediate level with an additional introduction of advanced techniques. Study of the styles and techniques of famous artists such as Debbie Allen, Gus Giordano, Michael Bennet, Mia Michaels and more are covered in this class. Contemporary and commercial jazz dance forms are also covered along with historical and theoretical understandings of jazz dance techniques related to the dancer's expressive skills. Public performance is required for this class.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: DANCE 106A.

EDUC-200: Introduction to Elementary Education

This course introduces students to the concepts and issues related to teaching diverse learners in contemporary public schools (K-12). Topics include historical and philosophical foundations of the American education system, education theory, multiculturalism, teaching as a profession and career, contemporary education issues, California Content Standards and framework, and teacher performance standards. In addition to class time, 45-hours of structured fieldwork are required at an approved public school elementary classroom with a certified classroom teacher and students that represent California's diverse population. Proof of a negative TB test and fingerprint clearance are required for classroom observations.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Electricity

ELEC-091: Fundamentals of Solar Energy

This course is designed for students interested in a career in the solar industry. The fundamental principles and functions of the photovoltaic industry will be introduced along with the planning, installation and maintenance of all necessary components for a photovoltaic system. The transmission and distribution of electric power will be reviewed, and basic concepts of electricity, identification, functions and operations of components will be surveyed. At the end of this course, students will be prepared to complete industry certification examinations.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4130	01	3.00	-M-W---	04:00P - 05:25P	LEC	VTBA	TBA	Ababat,A

Note: Class to be held in face to face mode AND Simultaneously zoomed online (synchronously)HYFLEX and also recorded so that students have the choice of physically attending the classroom or viewing the lectures online in distant mode. . Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

ELEC-101: Supply Chain Technology

This course is an industrial technology overview covering the basic knowledge and skills needed for supply chain technicians to successfully work in automated factories, warehouses, and distribution centers. Introduction to the troubleshooting and maintenance of complex electromechanical systems is a major focus of this class.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisites: ELECTR 110 and ELECTR 111.

ENGL-122: Journalism Production: Introduction

This course provides an introduction to gathering, synthesizing/organizing and writing news in journalistic style across multiple platforms resulting in the production of the campus student news magazine. Topics include the role of the journalist and related legal, ethical issues, social and cultural issues. Students will report and write based on their original interviews and research to produce news content. Experiences may include covering speeches, meetings and other campus events, writing under deadline, and use of AP Style.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite: ENGL C1000 or ENGL C1000H.

ENGL-140: Exploring the World of Science Fiction

This course is a survey of science fiction genre from the late 19th Century to the present. Students

read, analyze, and discuss major themes, genres (short story, novels, drama, and poetry), media (radio, film, tv, internet) written by diverse authors. Student explore the function of science fiction as a literary form that reflects human concern for solving or escaping problems in an increasingly technological culture and age.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ENGL C1000 or ENGL C1000H.

ENGL-151H: College Composition and Literature - Honors

This course includes the study of representative works of fiction, poetry, and drama, including an understanding of their cultural, historical and aesthetic contexts, as well as an emphasis on the fundamental principles of literacy criticism and interpretation, including student writing based on critical reading. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as ENGL-151.

ENGL-163: Chicana/o Literature

This course is a survey of Chicana/o literature, including novels, drama, poetry, and essays. The course explores concepts of Chicana/o identity, race and racism, and how these themes characterize Chicana/o culture and literary expression. It also examines important social, cultural, and political movements that have influenced and continue to shape the Chicana/o community. (This course is also offered as ETHS 163)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as ETHS-163.

ENGL-224: Independent Study in English: Production

Students with previous course work in English may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of the production of work in print or other text-based media. This independent study would be appropriate for students wanting further work and practice in print publication (print newspaper, magazine or journal production, etc.) or publication for the web (web-based magazine, newspaper, or journal). Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite: ENGL C1000 or ENGL C1000H.

ENGL-C1000H: Academic Reading and Writing - Honors

In this course, students receive instruction in academic reading and writing, including writing processes, effective use of language, analytical thinking, and the foundations of academic research. This is an honors course. (Formerly ENGL 101H)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Placement as determined by the college's multiple measures assessment process.

Alternate Listing: This course is also offered as ENGL-C1000.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ENGL-C1001: Critical Thinking and Writing

In this course, students receive instruction in critical thinking for purposes of constructing, evaluating, and composing arguments in a variety of rhetorical forms, using primarily non-fiction texts, refining writing skills and research strategies developed in ENGL C1000 College Reading and Writing (C-ID ENGL 100) or similar first-year college writing course. (Formerly ENGL 102)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: College-level composition (ENGL C1000/C-ID ENGL 100) or equivalent.

Alternate Listing: This course is also offered as ENGL-C1001H.

ENGL-C1001H: Critical Thinking and Writing - Honors

In this course, students receive instruction in critical thinking for purposes of constructing, evaluating, and composing arguments in a variety of rhetorical forms, using primarily non-fiction texts, refining writing skills and research strategies developed in ENGL C1000 College Reading and Writing (C-ID ENGL 100) or similar first-year college writing course. This is an honors course. (Formerly ENGL 102H)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: College-level composition (ENGL C1000/C-ID ENGL 100) or equivalent.

Alternate Listing: This course is also offered as ENGL-C1001.

English As a Second Language

ESL-601: ESL Integrated Skills - Introduction to Basic English Literacy

This noncredit course is designed to introduce low-beginning English language learners to basic English letter-sound correspondence, vocabulary, and sentence patterns. Students will start using English to speak about themselves, their families, and their community. In addition, students will learn to read and complete simple forms. This course is taught through total English immersion while acknowledging students' cultural experiences.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Ethnic Studies

ETHS-100: Introduction to Ethnic Studies

This inter-disciplinary course explores the ways that ethnicity, race, and racism shape the

experiences of people of color in the United States. Introduces students to both historical and current inequalities founded upon the social construction of race, class, and gender. Addresses how different means of resistance and social movements by various groups worked in the hopes of achieving social justice.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

ETHS-103: Ethnicity and Identity in Media

This course explores the impact of identity on film as an art form and cultural artifact by confronting ideologies of race, class, gender, and sexual orientation as they are reflected in cinematic representation. American film is used as the primary lens through which to view how social, political, and cultural values have been formulated over the last century. Students analyze major films, figures, character types, and narrative strategies to evaluate the relationship between film and identity. (This course is also offered as FTVM 103)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as FTVM-103.

ETHS-104: Latina/o/x Studies

This course offers an overview of the experiences and contributions of Latina/o/x communities in the United States. Students will examine the impact of colonization, immigration, and forced displacement on these communities, as well as the formation of cultural identity and resistance movements. Throughout the course, students will analyze the intersections of race, ethnicity, class, gender, sexuality, and other forms of oppression that shape the experiences of Latino/a and Chicano/a communities. They will critically examine issues such as education, labor, health, immigration, and representation in media and politics.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

FTVM-120: Writing for Streaming and Broadcast Broadcast Writing

In this media writing class students will learn a wide variety of writing formats that are used in streaming and broadcast platforms. These include documentaries, commercials, music video, news copy, and fiction. The class will focus on the dynamic needs of each and show students how to write binge worthy content. After completing the course, the students will not only end up with a great portfolio project but potential to produce the content.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Note: This is a HYBRID class. This means that there are both on-campus and online Internet activities required. To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

FTVM-122: Acting and Directing for Television and Film

In this course, students learn the foundations of both acting and directing for the screen. This course deals with the foundations of character development from an actor's perspective and how to achieve that performance on screen. Students also learn the basics of managing a set as a director and learning how to communicate goals with actors, blocking for a scene, and producing a scene.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

FTVM-130: Film and TV Production Basics

This course is designed for students who are interested in transforming a narrative concept into a practical production. By viewing, discussing, planning, and developing stories. Film, television, and media students will learn skills necessary to produce a film or video in a TV Studio and location environment. Topics include studio signal flow, directing, theory and operation of camera and audio equipment, switcher operation, fundamentals of lighting, graphics, video control and video recording and real-time video production.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

FTVM-131: Cinematography

In this hands-on course, students will delve into the art and craft of cinematography: the methods and techniques by which motion picture photography and lighting help give a film meaning and aesthetic purpose. Through lectures, demonstrations and exercises in a supervised classroom environment, students will learn to operate state-of-the-art digital and electronic equipment while applying the fundamental principles of lighting, composition, exposure, focus, lens selection, and camera dynamics into purposeful visual storytelling.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

FTVM-132: Film and Video Production 1

Have you ever wondered how music videos and commercials are created? These productions use techniques of single camera operations. This course introduces the theories, terminologies, and operations of video production. The topics include composition, single-camera operation, portable

field lighting, video recorder, audio recording and control, and editing. The aesthetic theories and fundamentals of scripting, producing, and directing for broadcast commercial or video to be used in other multimedia platforms. Students will plan and execute pre-production, production, and post-production working as a cohesive production crew.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H and FTVM 130.

FTVM-133: Broadcast News

The Broadcast News course prepares students to work in the evolving media environment by introducing them to the theories, techniques, and skills used in standard and online newsrooms for news-related distribution, which includes both streaming and broadcast. The goal of the course is for students to develop the fundamental skills necessary to create journalistic content and distribute the content across integrated platforms in the format of a newscast or news report. The course provides students with learning the craft of multi-media news production and allows students to have student news stories to be broadcast on KVCR TV and streaming pathways through PBS.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

FTVM-134: Sports Broadcasting

This course teaches the fundamentals of Sports Broadcasting. Students will take the lead on writing and preparing broadcasts and building presentation/performance skills in the broadcast of local sports on for broadcast on both TV and radio on the campus broadcast station KVCR. The sports to be broadcast include local college, high school sports and specialized events known for the region. Students will also perform as sportscasters on news programs on KVCR. Students will interview local athletes, write and produce feature material for broadcast. The contributions of minorities and women in sports will be highlighted.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

GIS-100: Map Interpretation and Geospatial Analysis

Have you ever wondered how the traffic map works on your phone? Do you enjoy exploring maps and satellite images online? This class is an introduction to maps, images and geospatial techniques and technologies. The technologies covered in this course include map and aerial photograph interpretation, tabular data, spatial statistics, cartography, Global Positioning Systems (GPS), automated and web-based mapping, remote sensing, and Geographic Information Systems (GIS), all of which aid in data collection, analysis and presentation. Theories, methods, and ethics within GIS, GPS, remote sensing, cartography, and field work play a central role in this course. This course also highlights how GIS and geospatial analytical tools can address longstanding issues related to economic, environmental, political, racial, and social justice. (This course is also offered as GEOG 100).

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ECON 208 or STAT C1000 or STAT C1000H or PSYC 105 and ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as GEOG-100.

GIS-130: Introduction to Geographic Information Systems (GIS)

How do corporations know where to locate retail stores and restaurants? How do epidemiologists know how to confront epidemics, pandemics, and related disease outbreaks? How does your utility provider know the location of power outages and water leaks? How do demographers create maps based on ethnicity, socioeconomic status, age, gender, religious affiliation, and other population characteristics? The answers to these questions and more are found within Geographic Information Systems (GIS). This course provides an introduction to the fundamentals of Geographic Information Systems (GIS), including the history of automated mapping. It includes a brief introduction to basic cartographic principles, including map scales, coordinate systems and map projections. GIS hardware and software are implemented, as are various applications of GIS technology used in environmental science, business and government. Using automatic mapping software like ArcGIS Online, ArcGIS Pro, ArcMap, and Story Maps, you will create maps that address a variety of local to global issues. (This course is also offered as GEOG 130)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ECON 208 or STAT C1000 or STAT C1000H or PSYC 105 and ENGL C1000 or ENGL C1000H.

GIS-133: GIS Cartography and Base Map Development

We interact with maps all the time, in the news, on your mobile device, and elsewhere. Accurate, well produced maps are vital for public consumption. Maps are powerful tools in the spatial representation of historically marginalized and underrepresented groups. This course introduces the nature of cartography, standard cartographic conventions, and graphic symbology. Map projections, scale, types of thematic maps, and map accuracy are reviewed. Current industry standard techniques used in GIS base map development are employed, including production and presentation techniques of professional quality maps.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: GEOG 130 or GIS 130.

GIS-134: Data Acquisition and Management

There are myriad methods to collect, administer, and display spatial data. Cloud computing, Artificial Intelligence (AI), social media, drone and satellite platforms, and traditional on the ground field work all contribute to GIS data. This course addresses the interpretation and understanding of a variety of data formats available in GIS. It introduces the fundamental concepts of primary GIS data creation, and discusses quantitative techniques for collection, classification, and management of geographical data.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite: GEOG 130 or GIS 130.

Geography

GEOG-100: Map Interpretation and Geospatial Analysis

Have you ever wondered how the traffic map works on your phone? Do you enjoy exploring maps and satellite images online? This class is an introduction to maps, images and geospatial techniques and technologies. The technologies covered in this course include map and aerial photograph interpretation, tabular data, spatial statistics, cartography, Global Positioning Systems (GPS), automated and web-based mapping, remote sensing, and Geographic Information Systems (GIS), all of which aid in data collection, analysis and presentation. Theories, methods, and ethics within GIS, GPS, remote sensing, cartography, and field work play a central role in this course. This course also highlights how GIS and geospatial analytical tools can address longstanding issues related to economic, environmental, political, racial, and social justice. (This course is also offered as GIS 100).

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ECON 208 or STAT C1000 or STAT C1000H or PSYC 105 and ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as GIS-100.

GEOG-102: Cultural Geography

Are you fascinated with the enormous diversity of culture, language, religion, economics, politics, urbanization, agriculture, and ethnicity around the world? Have you ever wondered how this developed? Are you concerned about human rights, social justice, climate change, and access to clean drinking water, healthcare, education, and resources? Using the tools of geography, this course will help you to understand how humans interact each other and how humans interact with the environment.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

GEOG-106: Geographic Perspectives on the Environment

Within the early decades of the 21st century, the enormous impact of humans on the natural environment is clear. This course provides an introductory study of the latest geographic perspectives of critical environmental issues occurring within and across local, regional, national, and global scales. It creates an awareness of the geography of human-environment relationships, in particular how nature and natural resources are defined, contested, distributed, and consumed. Emphasis is on social, political, cultural, psychological, and economic evaluation of natural resources and associated resource management.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

GEOG-110: Physical Geography

You may have noticed that Earth's atmosphere, life forms, water resources, and landforms vary considerably from one place to another. This class helps you to understand how and why these variations occur, how the environment impacts us humans, and how we humans impact the environment. People from different backgrounds experience environmental impacts differently, so environmental justice is interwoven throughout this course. GEOG 111/GEOG 111H is strongly recommended for students who desire to transfer to CSU/UC. It is recommended that students complete GEOG 111/GEOG 111H within three years of completing GEOG 110.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

GEOG-118: California Geography

California is an incredibly diverse state. Its cultural, ethnic, socioeconomic, urban, and rural landscapes comprise an endlessly complex and fascinating tapestry. If it were an independent country, its economy would be the fifth-largest in the world. While the California Dream looms large, skyrocketing housing costs, socioeconomic and racial injustice, pervasive drought, and a year-round fire season are making this dream unattainable for many. This course provides a thematic approach to the state's issues, processes and topics relevant to geography including climate, landforms, natural vegetation, water resources, cultural landscape, ethnic diversity, urban and agricultural regions, and the economy. This course explores the physical, and human landscapes that have evolved as a result of the human-environment interface.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

GEOG-120: World Regional Geography

Every day, we learn about new and ongoing migration, refugee, environmental, economic, health, and geopolitical crises and conflicts happening somewhere in the world. Therefore, it is important to understand the complex and fascinating spatial interrelationships among our world regions. This course provides an introduction to world regional geography, emphasizing the nature of major cultural regions of the world. Through a comprehensive regional analysis, students will learn social structures, religions, languages, political systems, economics, environmental relationships, transportation networks, population dynamics, and urban development across the globe.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

GEOG-130: Introduction to Geographic Information Systems (GIS)

How do corporations know where to locate retail stores and restaurants? How do epidemiologists know how to confront epidemics, pandemics, and related disease outbreaks? How does your utility provider know the location of power outages and water leaks? How do demographers create maps based on ethnicity, socioeconomic status, age, gender, religious affiliation, and other population characteristics? The answers to these questions and more are found within Geographic Information Systems (GIS). This course provides an introduction to the fundamentals of Geographic Information Systems (GIS), including the history of automated mapping. It includes a brief introduction to basic cartographic principles, including map scales, coordinate systems and map projections. GIS hardware and software are implemented, as are various applications of GIS technology used in environmental science, business and government. Using automatic mapping software like ArcGIS Online, ArcGIS Pro, ArcMap, and Story Maps, you will create maps that address a variety of local to global issues. (This course is also offered as GIS 130)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ECON 208 or STAT C1000 or STAT C1000H or PSYC 105 and ENGL C1000 or ENGL C1000H.

Geology

GEOL-101: Introduction to Physical Geology

Earth is an amazing place, and for millennia cultures and civilizations have attempted to explain the various topics that relate to our understanding of our blue planet. From the various minerals, rocks,

and resources found on it that power our cellphones and televisions to the dramatic features, such as mountains, volcanoes, canyons etc. that shape our landscape. From the consequential natural disasters such as earthquakes that we in California and people around the world deal with on an annual basis to the disproportionate effects of global climate change. In this course we build a fundamental understanding of these topics (and many more) by emphasizing the overarching Theory of Plate Tectonics, the processes that created the continents and the ocean basins, and the internal and external processes that change the landscape and impact the planet in a variety of ways we seek to put ourselves in the context of our planet.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

HEALTH-103: Introduction to Holistic Health

This course explores health and healing practices involving theoretical, psychological, sociological, biological, historical, and cultural viewpoints. It delves into concepts and philosophies from traditional cultural healing systems and contemporary Western medicine through an interdisciplinary lens. The focus is on promoting health, preventing disease, and empowering individuals to advocate for their well-being with support from healthcare professionals. Topics encompass the history of Western medical practices, principles of indigenous healing systems, the influence of gender on healing, the impact of personality and emotions on health and disease, and the principles of integrative medicine.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

HEALTH-104: Women's Health

This course analyzes the biological, psychological, and sociological aspects of women's health, with special emphasis on women cross-culturally. Topics focus on current trends in the prevention of chronic diseases and illnesses, the promotion of positive body image, and self-empowerment of women. Students will also explore the application of the lifespan of lifestyle changes to develop strategies to become self-advocates in promoting one's own well-being.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

HVAC/R-002: Domestic Mechanical Refrigeration

This course covers principles of refrigeration compression systems, operations and controls, refrigeration and freezer construction, piping and parts layout. Included in the lab work is troubleshooting and servicing domestic refrigeration units.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisite: HVAC/R 001.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

KIN-236: Stress Management and Wellness

This course explores theoretical and research-driven models of stress, the body's response to stress, and strategies for managing it. It highlights how stress impacts physical, mental, and social aspects across one's life. Subjects covered range from defining stress and understanding its long-term health effects to identifying symptoms, examining scientific findings, and presenting various evidence-supported methods for coping. These methods encompass assessment tools, exercise regimens, mindfulness practices like meditation and yoga, dietary considerations, weight management, and fostering healthy lifestyle habits to promote overall well-being.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

MATH-106: Mathematical Concepts for Elementary School Teachers

This course focuses on the development of quantitative reasoning skills through in-depth, integrated exploration of topics in mathematics, including real number systems and subsystems. Emphasis on comprehension and analysis of mathematical concepts and applications of logical reasoning. This course is designed for future elementary school teachers.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Completion of intermediate algebra or appropriate college-level placement based on the SBVC Guided-Self Placement process.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
5304	01	3.00	-M-W---	09:00A - 10:25A	LEC	VTBA	TBA	Kimbrough,P

MATH-115: Ideas of Mathematics

This course includes sets, propositional logic, inductive reasoning and applications, mathematical patterns, counting methods, and finite probability spaces.

Credit Type: Earned units for this course are applicable to an Associate Degree.

MATH-120: Mathematical Financial Planning

Learn the fundamentals of personal financial planning. This is a course designed to help students plan their financial life from student loans to retirement and investment strategies. Topics include credit management strategies, loan evaluation, buying and leasing automobiles, buying a house, investing and portfolios, insurance, taxes, and retirement planning. All topics developed through rigorous quantitative and mathematical applications in linear, algebraic, exponential, and logarithmic functions, sequences, series, and an introduction to portfolio risk analysis. Use of technology and financial calculators for financial planning.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

MATH-151: Precalculus

This course is designed for students preparing to take Calculus. It deepens students' understanding of algebra and trigonometry by building on topics from College Algebra and Plane Trigonometry, both of which are foundational for Calculus students. Topics include polynomials, rational, exponential, logarithmic, and trigonometric functions and their graphs, systems of linear and nonlinear equations and inequalities, partial fraction decomposition, parametric and polar equations, and an introduction to limits.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: MATH 102 and MATH 103 or placement into MATH 151 based on the SBVC Guided-Self Placement process.

Note: This is a HYBRID class. This means that there are both on-campus and online Internet activities required. To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

MATH-251: Single Variable Calculus II

This second course in calculus provides further application of definite integrals, differentiation and integration of transcendental functions, techniques of integration, L'Hopital's rule and improper integrals, infinite sequences and series, Taylor and power series, polar and parametric equations.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: MATH 250 or placement into MATH 251 based on the SBVC Guided-Self Placement process.

MATH-252: Multivariable Calculus

This third course in calculus includes vectors, lines, and simple surfaces in three-dimensional space, some linear algebra topics, vector-valued functions, partial derivatives, multiple integrals, line integrals and Green's Theorem, surface integrals and the theorems of Gauss and Stokes.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: MATH 251.

MATH-265: Linear Algebra

This course develops the techniques and theory needed to solve and classify systems of linear equations. Techniques that are covered include row operations, Gaussian elimination, and the algebra of matrices. The course explores the properties of vectors in n dimensions, which leads to the notion of an abstract vector space. The theory of vector spaces and matrices are introduced, and the topics include inner products, norms, orthogonality, eigenvalues, eigenspaces, and linear transformations. Applications of linear algebra are included.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: MATH 250.

MATH-266: Ordinary Differential Equations

The course is an introduction to ordinary differential equations including both quantitative and qualitative methods as well as applications from a variety of disciplines. Introduces the theoretical aspects of differential equations, including establishing when solution(s) exist, and techniques for obtaining solutions, including, series solutions, and singular points, Laplace transforms and linear systems.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: MATH 251.

Departmental Recommendation: MATH 252.

Music (SBVC)

MUS-100: Music Appreciation

This course introduces students to music in western civilization and methods of music listening. Included in this course are guidelines for thoughtful music selection, basic musical forms, cross-cultural studies in music, music periods and styles, a discussion of patrons and audiences, careful consideration of the role of women in creating music, history of art music, popular music, world music, and jazz.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as MUS-100H.

MUS-100H: Music Appreciation - Honors

This course introduces students to music in western civilization and methods of music listening. Included in this course are guidelines for thoughtful music selection, basic musical forms, cross-cultural studies in music, music periods and styles, a discussion of patrons and audiences, careful consideration of the role of women in creating music, history of art music, popular music, world music, and jazz. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as MUS-100.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

MUS-101: Music Theory I: Fundamentals

This course studies music terminology, elements of music (pitch, duration, intensity, and timbre), rhythmic analysis, major scales and their key signatures, chromatic scales, intervals, and solfeggio syllables. It is a course designed for the beginning student with a moderate interest in the structure of music. It is also designed for the music major and as such serves as the first in a four-part series of music theory courses.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Corequisite: MUS 101L.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

MUS-101L: Musicianship I

Specifically, this course applies the materials studied in Music Theory I through sight-singing (using solfeggio syllables), keyboard skills (the playing of scales and identification of pitches on the keyboard), recognition and performance of intervals, and some ear-training (melodic dictation). This course is the companion course to MUS 101.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Corequisite: MUS 101.

MUS-105: American Popular Music

This course traces the social history of America through a study of the eras of popular American music. By examining the various styles, the outstanding musicians and the leading composers exemplary of those styles, this class illustrates how the historical era impacts the music and how the music reflects the historical era. The course begins with a discussion of popular music examining the popular songs of the colonies and the schools of singing that developed. The discussion continues through the music of the Civil War and tracks popular music across the great westward expansion. It concludes with studies of Gospel, Blues, Jazz and ultimately Rock and Roll.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

MUS-107: Music Cultures of the World

This course is a survey of traditional and folk music of global continents and cultures. The course includes live and filmed performances, as well as introductions to various significant indigenous musical instruments. Students are introduced to instrumental and vocal techniques, musical structures, and performance contexts within selected cultures of the world. The impact and influence of global musical cultures on western music is a main focus in this course.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

MUS-108: History of Hip Hop Music

This course presents the development of Hip hop as a musical style and cultural movement. Students will examine key figures in Hip hop, institutions, and social settings through readings, electronic media, videos, and live performance. Students will also investigate how Hip hop culture is not only a source of entertainment, but also a medium that analyzes and/or provides commentary regarding social, economic, political, and cultural issues dealing with identity, cultural genocide, misogyny, racism, classism, materialism, freedom of speech, and sexuality.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

MUS-117A: Elementary Acoustic Guitar

This course is a study of basic guitar emphasizing stringing, tuning and fingering. Students must provide their own acoustic guitar.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
5644	01	1.00	--W--	04:30P - 07:35P	LAB	VTBA	TBA	Lavruk,A

MUS-117B: Intermediate Acoustic Guitar

This course is a study of intermediate guitar emphasizing stringing, tuning and fingering. The development of playing techniques and notation will also be studied. Students must provide their own acoustic guitar.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: MUS 117A.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

MUS-133: Elementary Piano

This course teaches practical keyboard facility that is applicable for the piano, organ, and electronic keyboard. It emphasizes sight reading, elementary improvisation, harmonization of folk and pop melodies, and leads to performance of simple piano selections.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
5658	01	1.00	-M-W---	02:20P - 03:45P	LAB	VTBA	TBA	Lavruk,A

MUS-134: Intermediate Piano

This course focuses on the improvement of keyboard facility and sight reading abilities, utilizing improvisation and harmonization skills through simplified arrangements and original composition. This course will be useful for those desiring to strengthen keyboard skills.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: MUS 133.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

MUS-135: Advanced Piano

This course focuses on the improvement of keyboard facility and sight-reading abilities. It advances improvisation and harmonization skills. It is primarily concerned with more advanced complex piano works by the master composers: Chopin, Beethoven, Mozart, Brahms and others.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Prerequisite: MUS 134 and MUS 102 and MUS 102L or an audition with the instructor.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
5662	01	1.00	-M-W---	02:20P - 03:45P	LAB	VTBA	TBA	Lavruk,A

MUS-141X2: Applied Music I

Students receive credit for a minimum of one-half hour of weekly private instruction on a musical instrument or voice. Daily laboratory practice, concert and ensemble participation are required. The course is open to all students in the college, with enrollment priority given to music majors. An audition with the director is mandatory for participation in this course. Public performances are mandatory.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Repeatability: This course may be taken 2 times.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

MUS-201: Music Theory III: Basic Harmony

This course represents a complete study of the diatonic harmonies from the 17th, 18th and 19th centuries. It includes a review of triad formations and the principles of voice-leading. Included in the

course is a review study of seventh chords, secondary dominants, non-harmonic tones, realization of figured bass lines and rudimentary formal analysis. It also includes an introduction of augmented-sixth chords, secondary/applied chords, modulation to more remote keys, Neapolitan sixth chords and some chromatic harmony. An important part of this class is the analysis of chorales by J.S. Bach. This course is the third of a four-part series of theory courses and is primarily designed for the music major.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisites: MUS 102 and MUS 102L.

Corequisite: MUS 201L.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
5676	01	3.00	--T-R--	09:35A - 11:00A	LEC	VTBA	TBA	Berry,R

MUS-201L: Musicianship III

This course emphasizes the further development of skills in sight-singing melodies of simple and compound meter, sight singing of multiple part compositions in both major and minor modes, phrases with an anacrusis and intervals beyond the third. The course includes the study of modulating melodies, two-part melodic dictation, the dictation of triads (in all positions) as well as diatonic seventh chords and simple chord progressions. The course will include the study of all existent triads from the major and minor scales and all church modes as they are performed at the keyboard. It is the companion course to MUS 201.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisites: MUS 102 and MUS 102L.

Corequisite: MUS 201.

Nursing

NURS-140: Vocational to Professional Nurse

This course prepares Licensed Vocational Nurses (LVN) to transition into the Registered Nursing (RN) program. This is a first-year course that focuses on the nurse's role in the collection of assessment data, identifying the relevance of the data collected, the analysis of patient priorities, the implementation of nursing interventions, and evaluation of patient care for diverse adult patients. This course includes role transition content, nursing process, standards of practice, and critical thinking in nursing. In the degree option, challenge examinations covering first and second semester medical-surgical and maternity nursing content will determine eligibility for placement in the program. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

NURS-261: Complex Care and Leadership

This is a second-year nursing course that builds upon previously learned knowledge, skills and attitudes while focusing on the application of the nursing process, discrimination of data, and identification of care priorities in order to manage complex needs of adults including adults ages 65 and over, critically ill or injured adults with single or multisystem failure. Complex Care and Leadership provides learning opportunities for leadership, community outreach, and disaster nursing. Correlated clinical experiences provide the senior student opportunities to assume nursing responsibilities in complex care areas and to function as part of an inter-professional team. Application of knowledge, skills, and attitudes (K-S-A) will occur in the hospital, on-campus skills laboratory, and simulation settings. The course also reviews graduate responsibilities for the National Council Licensure Examination (NCLEX) application and professional employment/licensure responsibilities.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Note: PREREQUISITE NURS 250 and NURS 251.

Corequisite: NURS 260.

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

Occupation Safety & Health Adm

OSHA-030: Federal OSHA Outreach: Construction Industry Safety

This course provides training required by the Occupational Safety and Health Administration (OSHA) for the Federal Outreach Construction Industry, minimum 30-Hour training card. Lessons emphasize hazard identification, avoidance, control and prevention of illness, injury, or death.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: Federal OSHA requires each student be 18 years of age in order to qualify for an OSHA card.

Oceanography

OCEAN-101: Elements of Oceanography

This course explores the geological processes that created the ocean basins, chemistry of sea water, physical motions of the oceans, and the interrelationships of biological communities with their physical environments. Oceanographers and related scientists from traditionally underrepresented groups are featured throughout this course. Environmental issues and environmental justice movements associated with the world's oceans fundamentally inform this course. Geospatial analysis of world oceans, including Geographic Information Systems (GIS) and remote sensing, is an integral component of this course. It is recommended that transfer students also enroll in the companion OCEAN 111, Elements of Oceanography Laboratory.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: MATH 102 or higher and ENGL 1000 or ENGL C1000H.

OCEAN-111: Elements of Oceanography Laboratory

This hands-on course introduces students to techniques of oceanography, including bathymetry, charts, and methods of studying the physical ocean environment. Oceanographers and related scientists from traditionally underrepresented groups are featured throughout this course. Environmental issue and environmental justice movements associated with the world's oceans fundamentally inform this course. This course is recommended for students concurrently enrolled in OCEAN 101 or who have successfully completed the course within the last three years.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: OCEAN 101.

PHT-070: Pharmacy Systems II

This course covers the application of advanced preparation, distribution and methods for dispensing medications within a institutional pharmacy setting. It emphasizes advanced concepts of medication order processing, non-sterile compounding, sterile compounding, pharmacy business management, data management, pharmacy safety, and pharmacy error prevention under the supervision of a pharmacist.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisite: PHT 060 and PHT 062 and PHT 064.

PHT-071: Pharmacology II

This course continues to apply the therapeutic uses of administered medications into the human anatomy and physiology by a drug's pharmacokinetics and pharmacodynamics. Emphasis is placed on but not limited to a medication's brand/generic name, mechanisms of action, dosage forms, routes of administration, directions of use, standard dosage schedules, indications, basic side effects, adverse effects, contraindications, precautions, drug interactions, and any special black box warnings. Added topics to the course includes medication adjustments for special populations and use of common antidotes for medications.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisites: PHT 062.

PHT-072: Pharmacy Clinical Experience

In this course, students study the application of prescription processing, inventory management and dispensing of medications in a pharmacy under the direct supervision of a pharmacist. It emphasizes use of a pharmacy database, customer service, communication and professional ethics. Students will complete a minimum of 240 experiential hours in a minimum of one site locations.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisites: PHT 060 and PHT 062 and PHT 064.

Corequisite: PHT 074.

PHT-601: Pharmacy Technician Licensure Exam Preparation

This noncredit course prepares students that have completed or are nearing completion of the Pharmacy Technology program for the state administered licensing examination for pharmacy technicians. This course is also recommended for students who desire refresher training. Topics include, but are not limited to: the duties of a pharmacy technician in the out-patient/community and the in-patient/institutional setting in the areas of pharmacy management/administration, pharmacy federal laws/regulation, and pharmacology. Also included are some basic test-taking techniques to increase proficiency on the state exam.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Philosophy

PHIL-101: Introduction to Philosophy

This course is a general introduction to the major problems and questions as pondered by philosophy's great thinkers. Attention is directed to both classic and modern philosophy and will include various voices from the history of philosophy as a basis for discussion of issues such as epistemology, metaphysics, ethics, and aesthetics.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

PHIL-101H: Introduction to Philosophy - Honors

This course is a general introduction to the major problems and questions as pondered by philosophy's great thinkers. Attention is directed to both classic and modern philosophy and will include various voices from the history of philosophy as a basis for discussion of issues such as epistemology, metaphysics, ethics, and aesthetics. This course is intended for students in the Honors Program but is open to all students who desire more challenging coursework.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as PHIL-101.

PHIL-102: Critical Thinking and Writing

This course is an introduction to critical thinking focusing on argument and evidence and the ability to write coherent argumentative essays. Topics include recognition of the structures of reasoning in natural language, the evaluation of such reasoning (including informal fallacies), the uses and abuses of language, and an investigation of the rhetorical devices common in our culture. Students practice critical thinking by writing substantive arguments and essays.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ENGL C1000 or ENGL C1000H.

Physics

PHYSIC-101: Introductory Physics

This introductory, algebra-based, physics course is an exploration of the physical principles ranging from classical mechanics to modern physics, which shape our lives. Students will be better equipped to make connections between the concepts of physics and their everyday world. This class includes a hands-on laboratory to bridge the connection between theory and everyday life. This course also explores the connections between physics and other fields of science, technology, and society.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

PHYSIC-151: General Physics for the Life Sciences I

This is the first course in a two-semester physics sequence designed primarily for students in biology, pharmacology, pre-medicine, physical therapy, and allied health programs. Topics include mechanics, waves, fluids, and thermodynamics. The needed concepts of calculus will be developed and used where appropriate.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisites: MATH 103 or eligibility for MATH 151 or higher based on the SBVC Guided-Self Placement process and eligibility for college level English based on the SBVC Guided-Self Placement process.

Departmental Recommendation: PHYSIC 101.

Note: This is a HYBRID class. This means that there are both on-campus and online Internet activities required. To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

PHYSIC-203: Physics II

This is a calculus based physics course covering electricity, magnetism, and waves. This course is designed to satisfy the lower division physics requirement for majors in physics, engineering, astronomy, chemistry, geology, computer science and mathematics.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: PHYSIC 202.

Prerequisite/Corequisite: MATH 251.

POLICE-100: Criminal Law

This course analyses property crimes, crimes against persons, crimes against children, child abuse reporting, sex crimes, crimes against the judicial system, weapons violations, relevant laws and court decisions and crimes against the public peace. This course will focus on the relationship between criminal law and the criminal justice system. Classification of crimes and their application to the criminal justice system will also be covered in the course.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Corequisite: POLICE 002 and POLICE 101 and POLICE 102 and POLICE 103.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Limitation on Enrollment: This course is limited to students.

Who Have Successfully Met State Screening Requirements: possession of a California driver's license without restrictions, other than required eyeglasses or contact lenses and possession of a current letter of clearance issued by the California Department of Justice that certifies the right to be in possession of a firearm.

Political Science (POLS)

POLS-110: Introduction to Political Theory

This course is a survey of Western political thought from classical times to the contemporary period. The course explores such controversial topics as the nature of justice, the morality of political deception and violence, the proper limits of governmental power, the virtues (and challenges) of political diversity, and the future of the bourgeois state in an era of globalization. (Formerly POLIT 110)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
5974	70	3.00	Arranged	Online - Online	DE-LEC	ONCL	ONLN	Andrew,S

Note: The DE-LEC part of this class requires 6.75 hours per week of online instruction.

Note: 8 week class from 08/25/25 to 10/17/25.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

PSYTCH-600: Psychiatric Technician Skills Lab

This noncredit class offers inclusive support to students by assisting them in understanding the course-specific content within the Psychiatric Technology program. The class is designed to accommodate diverse learning styles and needs, with activities such as dosage calculation practice, demonstrations, and practice of essential psych tech skills and procedures. These activities help students develop competencies in various areas, including physical assessment, isolation techniques, oxygenation, wound care, urinary catheterization, medication administration, and other specialized medical and surgical skills. Instructional services are tailored to meet the needs of all students and may include supervised individual or group tutorials, computer-assisted instruction, and testing. Enrollment in this class is open to all students currently enrolled in the SBVC Psychiatric Technology program, ensuring equitable access to learning opportunities for all participants.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Limitation on Enrollment: Students must be enrolled in at least one other Psychiatric Technology course at San Bernardino Valley College or a recent graduate of the Psychiatric Technician program.

PSYC-112: Developmental Psychology: Child and Adolescent Psychology

This course is a survey of the psychological growth of the normal individual from conception through adolescence with emphasis on stages of development. Particular emphasis is given to physical development, intellectual development, social and emotional development during the first two decades of life. Other topics include good and bad parenting styles and the potential problems encountered by children and adolescents. (Formerly PSYCH 112)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: PSYC C1000 or PSYC C1000H.

Departmental Recommendation: READ 100.

Formerly: PSYCH-112.

PSYC-118: Human Sexual Behavior

This course provides an overview of the field of human sexuality through examining human sexuality from psychological, biological, sociocultural, and historical perspectives. Current sex norms and aspects of interpersonal and individual sexual adjustment will be explored. Students will be encouraged to develop an awareness of their own sexual attitudes, values, and behaviors and to evaluate the consistency of their behaviors within their own moral frameworks. (Formerly PSYCH 118)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: PSYC C1000 or PSYC C1000H.

Departmental Recommendation: READ 100.

PSYC-119: Multicultural Psychology

This course examines cultural influences on human behavior such as development, mental health, social behavior, and social cognition in contexts ranging from everyday modes of functioning to family and work relationships. This course will examine a wide range of theories and research with respect to cultural influences on human behavior, cognitive processes, lifespan development, abnormal behavior, mental health, self-concept, emotion, motivation, learning, intelligence, perception, memory, and communication. This course provides students with a non-judgmental environment in which students will understand how culture influences human behavior which will assist them in interactions with people from diverse cultures. (PSYCH 119)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: READ 100.

Prerequisite: PSYC C1000 or PSYC C1000H.

Reading and Study Skills

READ-015: Preparation for College Reading

Have you seen the movies IT or Doctor Sleep? They are based on Stephen King novels. How about The Hate U Give, Crazy Rich Asians, or Jurassic Park? These movies were also book-to-movie adaptations. If you're a fan of movies, read the books that inspired them! This course is designed to foster improvement in reading comprehension and vocabulary. Coursework includes reading texts from various genres and other assignments, while preparing students for college reading success across the disciplines. This course may also be offered for noncredit as READ 615.

Credit Type: Earned units for this course are applicable to an Associate Degree.

READ-615: Preparation for College Reading

Have you seen the movies IT or Doctor Sleep? They are based on Stephen King novels. How about The Hate U Give, Crazy Rich Asians, or Jurassic Park? These movies were also book-to-movie adaptations. If you're a fan of movies, read the books that inspired them! This noncredit course is designed to foster improvement in reading comprehension and vocabulary. Coursework includes reading texts from various genres and other assignments, while preparing students for college reading success across the disciplines. This course may also be offered for credit, as READ 015.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

STAT-C1000: Introduction to Statistics

This course is an introduction to statistical thinking and processes, including methods and concepts for discovery and decision-making using data. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-squared, and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Students apply methods and processes to applications using data from a broad range of disciplines. (Formerly MATH 108)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra.

Alternate Listing: This course is also offered as STAT-C1000H.

SDEV-103: Career Exploration and Life Planning

This course is an in-depth study in career and life planning designed for students seeking direction in setting life, academic and career goals. A holistic perspective will be used to highlight the person-environment dynamics crucial to well-rounded preparation for a fulfilling career and life-span developmental achievements. Topics will include comprehensive career research, major choices, interviewing skills, cover letter and resume writing.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: READ 100.

Alternate Listing: This course is also offered as SDEV-103H.

Technical Calculations

TECALC-087: Technical Calculations

This course covers practical use and applications of technical calculations most commonly utilized in the trades and industry. Topics include electrical measurements, temperature, volume, weight, and positioning including the number line, working with dedicated formula, applied problems, geometric principles, graphs, right triangles, coordinate systems, and scientific and engineering notation.

Concepts, techniques and applications of arithmetic and elementary algebra emphasizing applications to practical problems. Interactive and traditional problem solving methods. Class interactive group exercises applying mathematical techniques to various applications and real world problems. A course in mathematical problems is frequently used by students enrolled in the trades and industrial and engineering programs. Problems are drawn from the industrial field.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Theatre Arts

THART-100: Introduction to the Theatre

This course focuses on the relationship of theatre to various cultures throughout history, and on the contributions of significant individual artists. This course introduces students to elements of the production process including playwriting, acting, directing, design, and criticism. Students will also survey different periods, styles, and genres of theatre through play reading, discussion, films, and viewing and critiquing live theatre, including required attendance of theatre productions.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

WST-086: Electrical Instrumentation for Water and Wastewater Operations

This is an introductory course in electrical instrumentation. The focus of this course will be on how electrical instrumentation is used in the water/wastewater industry. The course will cover basic electronic, electrical, and control systems used for pressure, temperature, level, and flow measurements needed for process control. Electrical safety, process and instrumentation diagrams, and other instrumentation for automation and process control will be discussed.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: WST 061 and WST 071 and WST 091.

Ref #	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

		0	This session meets on 10/01/25					
			Arranged This session meets on 10/01/25	2.4 - hrs/wk	DE-LEC	ONCL	ONLN	Parker,G

Note: 10 week class from 10/01/25 to 12/10/25.

Note: This is a HYBRID class. This means that there are both on-campus and online Internet activities required. To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the course start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class, Tuesday, October 1, 2025.

WST-088: Pumps and Motors

This class is designed to familiarize the students with the basic principles of mechanical equipment. This will include installation, operation, maintenance and repair. Emphasis will be placed on understanding the value of preventive, predictive and proactive maintenance techniques, such as: equipment monitoring, lubrication analysis, machine alignment, balancing and scheduled periodic maintenance, overhaul and safety.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: WST 053 or WST 052.

WST-091: Wastewater Treatment I

An introduction to wastewater treatment, students will explore the scope, limits, and methods of wastewater treatment processes through readings, discussions, analysis, and laboratory study. This course is designed for individuals seeking employment or already employed in the wastewater field. It covers the wastewater operator's job-related knowledge identified by the SWRCB examination developers as essential for a minimally competent Grade I or Grade II Wastewater Treatment Plant Operator.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: WST 053.

WST-098: Water Supply Technology Work Experience

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisite: WST 061 or WST 071 or WST 081 or WST 091.

WELD-091: Flux Cored Arc Welding - Self Shielded

This course introduces techniques and methods of Flux Cored Arc Welding- Self shielded (FCAW-S) in all positions and on various thicknesses of carbon steel.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisite: WELD 010.

Departmental Recommendation: WELD 090.

Alternate Listing: This course is also offered as WELD-691.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

WELD-645: Shielded Metal Arc Welding - Beginning

This is a noncredit introductory course in the Shielded Metal Arc Welding (SMAW) process often referred to as stick welding or arc welding. Welding safety, equipment and joint construction on mild steel are stressed.

Credit Type: Noncredit course.

Alternate Listing: This course is also offered as WELD-045.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
6458	01	0.00	-M-W--	08:00A - 09:05A	LEC	VTBA	TBA	Cacho,B

WELD-646: Shielded Metal Arc Welding - Intermediate

This is an intermediate noncredit course in the Shielded Metal Arc Welding (SMAW) process. Vertical and overhead groove welds and the lab portion of the structural weld certification for the City of Los Angeles are stressed.

Credit Type: Noncredit course.

Prerequisite: WELD 645.

Alternate Listing: This course is also offered as WELD-046.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
6462	01	0.00	-M-W---	07:00A - 07:50A	LEC	VTBA	TBA	Cacho,B

			----F-	08:00A - 02:05P	LAB	VTBA	TBA	Cacho,B

Note: 8 week class from 10/20/25 to 12/19/25.

WELD-660: Fabrication and Layout - Beginning

This noncredit course is designed to provide the training needed to read blueprints, create shop drawings, and fabricate and assemble parts.

Credit Type: Noncredit course.

Alternate Listing: This course is also offered as WELD-060.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

WELD-666: Preparation for Los Angeles City Welding Certification - Structural (AWS D1.1)

This noncredit course prepares students for the written Structural Steel examination offered by the City of Los Angeles Department of Building and Safety (LADBS) with a focus on the American Welding Society (AWS) D1.1 structural welding code.

Credit Type: Noncredit course.

Alternate Listing: This course is also offered as WELD-066.

6468	01	0.00	----R--	06:00P - 08:50P	LEC	VTBA	TBA	Butris,N

WELD-680: Gas Metal Arc Welding - Beginning

This noncredit course introduces techniques and methods of Gas Metal Arc Welding (GMAW-S,

GMAW Spray Transfer) in all positions and on various thicknesses of mild steel.

Credit Type: Noncredit course.

Alternate Listing: This course is also offered as WELD-080.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
6470	01	0.00	-M-----	08:00A - 09:05A	LEC	VTBA	TBA	Milligan,J

			---W---	08:00A - 11:35A	LAB	VTBA	TBA	Milligan,J

WELD-681: Gas Metal Arc Welding - Intermediate

This noncredit course is the study of intermediate techniques and methods of Gas Metal Arc Welding (GMAW) and Metal-Cored Arc Welding (MCAW) in all positions and on various thicknesses of mild steel and aluminum.

Credit Type: Noncredit course.

Prerequisite: WELD 680.

Alternate Listing: This course is also offered as WELD-081.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

			---W---	05:00P - 10:05P	LAB	VTBA	TBA	Muller,B

WELD-690: Flux Cored Arc Welding - Gas Shielded

This noncredit course introduces techniques and methods of Flux Cored Arc Welding- Gas shielded (FCAW-G) in all positions and on various thicknesses of carbon steel.

Credit Type: Noncredit course.

Alternate Listing: This course is also offered as WELD-090.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

WELD-691: Flux Cored Arc Welding - Self Shielded

This noncredit course introduces techniques and methods of Flux Cored Arc Welding- Self shielded

(FCAW-S) in all positions and on various thicknesses of carbon steel.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Departmental Recommendation: WELD 690.

Alternate Listing: This course is also offered as WELD-091.
