<i>The Curriculum Committee recommends that the pre-requisites and co-requisites approved be re-evaluated in the next 2-3 years by the appropriate departments/programs to ensure student success.</i>					
<i>Note: Committee members are voting on all Proposals, Requisites, Advisories, and Distributed Education.</i>					

DISCUSSION ITEMS:

Last Meeting of the Semester:	This will be the last meeting of the Spring 2017 semester, as Mary Copeland will be on a hiring committee and will be unable to make the next meeting.
Content Review Spreadsheet Update:	Mary addressed the issue of Content Review for our Certificates and Degrees. Currently, all programs go through a thorough review in the Program Review committee. The Curriculum Committee is responsible in reviewing course content review, the Program Review committee makes sure programs are reviewed every 5 years or 2 years for CTE. Upper management has misinterpreted the prevue of the Curriculum Committee. Proposed, to bring this issue to Academic Senate and get their feedback. The Committee believes the Program Review meets the needs for the State Chancellor's Office and for the Department of Education. A new list needs to be generated showing which items need to go through Program Review.
New Discipline:	<p>The Modern Languages Department would like to offer Chinese (Mandarin) courses for the following reasons:</p> <ol style="list-style-type: none"> 1. According to UNESCO, Mandarin Chinese is the most spoken language in the world, with approximately 955 million native speakers, or 1/6 of the world's population. Spanish is second, with about 400 million speakers. 2. China has become one of the centers of an ever more increasingly global economy. According to the U.S. Census Bureau, China is the number one trade partner of the United States and many companies do business and have long-term investments there. The demand for bilingual (English/Chinese) employees is growing. Being familiar with the language and culture will increase opportunities for SBVC students. 3. Chinese is the second most-spoken foreign language in the United States after Spanish. California is the state that has the largest Chinese-American population. Understanding their culture will help Valley College contribute to a more integrated community.

DISCUSSION ITEMS:

4. The study of Chinese is becoming more common, even at very early levels of education. Norton Space & Science Academy, a charter school in San Bernardino, requires every enrolled student to study Mandarin. After Spanish, Chinese has become one of the most common languages studied at the high school level. Local colleges and universities recognize this and have developed impressive programs to meet the educational needs and interests of their students. Cal State San Bernardino offers numerous courses, including: three years of language; conversation; calligraphy; literature in translation; culture; and business language. Developing a Mandarin program at SBVC will help meet the language needs of the local and state communities, while bridging a potential Chinese educational gap between high schools and universities in the area.

The Curriculum Committee, through online vote, voted to approve the Chinese (Mandarin) discipline.
