*The Curriculum Committee recommends that the pre-requisites and co-requisites approved be re-evaluated in the next 2-3 years by the appropriate departments/programs to ensure student success.  
 Note: Committee members are voting on all Proposals, Requisites, Advisories, and Distributed Education.*

DISCUSSION ITEMS:	
<b>Old Courses/Courses not offered in 2+ years</b>	It is an accreditation issue to have courses that have not been offered in 2+ years. Trying to come up with an idea on how to update this. Mary's choice: sent emails to all faculty chairs, launch as a deletion in CurricUNET, will go through the process where they have to show up, will have a record. Articulated course or transferrable, no longer have the course in the catalog is conflicting information, all courses need to match. Will give them a warning.
<b>Program Review Recommendations</b>	Mary suggested that the Program Review committee and curriculum committee work together during the efficacy process. Currently, the Program Review Committee is using the information in CurricUNET to assess whether a proposal has been updated within the past 2 years for CTE, or 6 years for academic courses. The information they are using is coming from the approval process, and is thus inaccurate since it has yet to be reviewed/approved by the Curriculum Committee.
