AERO 650L	NO	0950.00	NO	NO	NONE	These courses will replace AERO 900 and will serve as a make-up lab for students who need hours to reach FAA guidelines. For certain AERO programs, students must reach 1900 lab hours overall and the current format does not allow for students to miss any time during the semester. Though Mt. Sac's program has a different structure, they have an overabundance of hours, so students can miss a class session and not worry about making up hours. SLOs are needed.	Approved

<b>WST 652</b>	NO	0958.00	NO	NO	NONE	New noncredit courses. The department researched the needs for the students (as subject area experts) analyzed MATH 942 and MATH 952. These MATH courses were overkill for the students in the WST program, thus unnecessarily prolonging the time students spend in the program. These noncredit course are for the test preparation only, acting as refresher, one-day courses. WST 052 and WST 053 will still be offered, but this course will assist incumbent employees to take this course as preparation for the State Water Resources Control Board test, which only has ten math questions designed specifically for WST experts.	<b>Approved</b>
