5. Provide a specific example of how the instructor will provide synchronous office hours for distance education students? (Ex: Online Conference Tool, Cranium Classroom, Zoom, Pisces, Skype, etc.)

Instructor may hold scheduled, synchronous office hour sessions using ConferZoom. Instructor may also incorporate Canvas tools such as discussion boards, Bulletin or Pronto to communicate with students synchronously. Instructor may use the telephone.

6. Provide a specific example of how this course's design ensures regular and effective instructor-student contact? (Ex: Threaded discussion forums, weekly announcements, instructor prepared materials, posting video and audio files, timely feedback on exams and projects, synchronous online office hours, synchronous online meetings, synchronous online lectures, etc.)

Instructor will make full use of Modules in Canvas providing students with weekly work including readings, assignments, quizzes and exams. Instructor may post threaded discussion forums asking students to incorporate material from the lessons and also to interact with one or more students in the thread. Announcements will be used along with email to communicate updated assignments and reminders to students. Instructor may record within Canvas and Zoom and make videos available to students within Canvas shells. Instructor will use the speed grading features in Canvas to provide feedback to students and post scores in a timely manner so students are able to see their progress in the course.

https://www.valleycollege.edu/online-classes/faculty-resources/reg-effective-contact.php

Provide a specific example of how this course will ensure regular and effective student-student contact?
 (Ex: Threaded discussion forums, assigned group projects, threaded discussions, Notebowl, peer-to-peer feedback, synchronous online meetings, etc.)

Regular Student-Student contact may be achieved in the following ways: integrated external CMS (Course Management System) provided within Canvas where students complete Partner Chats; Integrated SI Leader in classroom working in small groups with students; ConferZoom breakout rooms where students work in small groups or pairs on assignments; participation in threaded discussions with one or more classmate, peer-to-peer feedback within Canvas on writing assignments including compositions and presentations.

8. Describe what students in this online version of the course will do in a typical week on this class. Include the process starting after initial log in.

Students will receive a Welcome letter and information about the course, syllabus, textbook and technical equipment. Students will be provided with campus resources and faculty contact information, office hours and the best way to contact instructor. Students will begin lessons per posted and published Modules and Assignments contained in the modules. Students will be provided detailed information in the syllabus and in the module about the weekly assignments. Faculty will post videos, conduct Zoom office hours and discussions as well as relevant textbook pages to read and videos to watch. Assessments may be provided within Canvas or course related CMS. The Announcement feature in Canvas will be used for reminders and updates.

9. Provide a sample statement that could be included in the syllabus for this course that communicates to students the frequency and timeliness of instructor-initiated contact and student feedback.

Instructor will communicate with students on a weekly basis through Canvas Announcements, Modules and Assignments and email. Students may ask questions at any time during the week by emailing the instructor and the instructor will respond to student inquiries within 24 hours Monday-Friday and 48 hours on weekends.

	e student-student interaction will occur in Canvas discussions, Bulletin and in CMS recorde interaction will also occur in breakout sessions during ConferZoom synchronou
Provide a specific ex course.	ample of how regular and effective instructor-student interaction may occur in this onli
System (LMS) as well and presentations	re instructor-student interactions may occur weekly within Canvas Learning Managemer as during instructor synchronous office hours conducted using Zoom or Skype. Class interview may be held live during Zoom meetings or recorded and uploaded in Canvas for ewing asynchronously.
