

Program Review Committee Report

Spring 2019 Reporting

(Financial Aid was placed on “probation” after the full efficacy review in spring 2017. The program addressed the “does not meet” categories in spring 2018 but remained on “probation” at that time.)

Name of Department: Financial Aid

Overall Recommendation:

Continuation Conditional Probation

Program Review Committee Response:

The Program Review Committee moved the program to a “conditional” rating based on the following:

Pattern of Service: Moved to “meets.”

SAOs: Remains at “does not meet.” The program is tracking measures but does not mention SAOs specifically. Are there SAOs? There needs to be direct language that identifies specific SAOs and attach metrics. College accreditors look to see how we measure our programs.

Relevance, Currency: Remains at “does not meet.” There is no evidence that the catalog was checked. The dialogue in this area instead focuses on curriculum.

Trends: Moved to “meets.”

Weaknesses and Challenges: Moved to “meets.”
