Efficacy Team Analysis and Feedback:

Demographics:

The document analyzes the demographic composition of the Sociology dept. emphasizing the lowenrollment numbers of males vs. females in that area. The discrepancy between SBVC and the national average of male-enrollment in sociology is barely 6%. The department feels the SBVC percentage of 27% (33% nationwide) of males in Sociology areas needs to increase. All other discrepancies in demographics were analyzed.

Pattern of Service:

Since the last efficacy report, the department has expanded its pattern of scheduling and course delivery options by increasing their online offerings to 50% of all courses. A student can complete an AAT in Sociology completely online or with a combination of hybrid/regular classes. They offer full, 18-week classes, 15-week, 14-week, 12-week, and even 8-week summer sections. In addition, all CI-D approved sociology courses are now part of the Online Education Initiative (OEI). The document addresses distinctive areas of the Strategic Direction and Goals for both demographics and Patterns of Service.

Feedback:

More strategies need to be implemented to increase the enrollment of males into the Sociology courses.

Part II: Questions Related to Strategic Initiative: Promote Student Success

Goal: SBVC will increase course success, program success, access to employment, and transfer rates by enhancing student learning.

Efficacy Team Analysis and Feedback:

The document addressed the discrepancy in Success rates between SBVC (53%) and the national average of 68% in Sociology courses. Although a few local community colleges have similar averages, the department feels that their success rates will increase exponentially as the second Full-time faculty becomes more embedded into the program and as the department makes full use of the open educational resources (OER). The committee felt that more planning and strategies need to be in place to improve the Sociology success rates because the campus average of 73% is 16% higher than the Sociology department (57%).

Part III: Questions Related to Strategic Initiative: <u>Improve Communication, Culture & Climate</u>

Goal: SBVC will promote a collegial campus culture with open line of communication between all stakeholder groups on and off-campus.

Efficacy Team Analysis and Feedback:

The Efficacy document provides a thorough list of resources to establish open communication with the campus and the community:

-a bulletin board in the NH building

-Stand-alone flyer holders inside the classroom to disseminate department information

-redesigned department website and web pages

-An official department pamphlet

-The department created a Facebook page, a Twitter handle, and an Instagram channel to communicate with students and fellow SBVC colleagues.

The document clearly establishes its impact on the college culture and climate, especially as it relates to OER because students have access to zero cost courses. The department also feels that AB 705 will impact the Sociology area tremendously as it transitions from ENG and MATH advisories to READ advisory in Fall 2019.

IV: Questions Related to Strategic Initiative: Maintain Leadership & Promote Professional Development

Goal: SBVC will maintain capable leadership and provide professional development to a staff that will need skills to function effectively in an evolving educational environment.

Efficacy Team Analysis and Feedback:

The document shows clearly that part-time and Full-time Sociology faculty attend and participate in professional development activities and events such as workshops, the California Sociological Association annual meeting, Pacific Sociological and American Sociological conferences. The department chair participates in the OER Taskforce, and the Sociology C-ID DIGG Advisory group.

The program offers specific opportunities for faculty to participate in diverse Sociological associations to stay current in their field of expertise.

V: Questions Related to Strategic Initiative: <u>Effective Evaluation & Accountability</u>

Goal: SBVC will improve institutional effectiveness through a process of evaluation and continuous improvement.

Efficacy Team Analysis and Feedback:

The program's mission statement correlates with the mission of the college. By developing in students an understanding of social life in contemporary societies, the mission statement aims to prepare students to enter the workforce and improve the quality of life in the IE.

The WSCH of the Sociology Department is 537, well above the State Standard or expectation of 525. Decreases in WSCH on the five-year cycle were analyzed thoroughly, and plans are in place to improve the productivity levels through the OEI exchange. All Sociology course have been articulated and have a future review date of 2020.

The program incorporates the challenges and the weaknesses into its planning and recognizes that the implementation of AB 705 in Fall 2019 will worsen one of the main challenges facing the department: underprepared students in college writing. However, the department was able to secure READ 015 as an advisory course or eligibility for READ 100 to improve the chances that students enrolling in Sociology courses will meet the course and SLO expectations.

VI: Questions Related to Strategic Initiative: Provide Exceptional Facilities

Goal: SBVC will support the construction and maintenance of safe, efficient, and functional facilities and infrastructure to meet the needs of students, employees, and the community.

Efficacy Team Analysis and Feedback:

The program provides an analysis and evaluation of the facilities and equipment within the Sociology department. The document presents evidence to support this evaluation.
